Creolizing Hegel Michael Monahan, 2017-02-09 The 19th-century German thinker G.W.F. Hegel is a towering figure in the canon of European philosophy. Indeed, most of the significant figures of European Philosophy after Hegel explicitly address his thought in their own work. Outside of the familiar territory of the Western canon, however, Hegel has also loomed large, most often as a villain, but sometimes also as a resource in struggles for liberation from colonialism, sexism and racism. Hegel understood his own work as aiming above freedom, yet ironically wrote texts that are not only explicitly Eurocentric and even racist. Should we, and is it even possible, to bring Hegelian texts and ideas into productive discourse with those he so often himself saw as distinctly Other and even inferior? In response to this question, Creolizing Hegel brings together transdisciplinary scholars presenting various approaches to creolizing the work of Hegel. The essays in this volume take Hegelian texts and themes across borders of method, discipline, and tradition. The task is not simply to compare and contrast Hegel with some 'outsider' figure or tradition, but rather to reconsider and reconfigure our understandings of all of the figures and ideas brought together in these cross-disciplinary essays.

English as a Foreign Language in a New-Found Post-Pandemic World El-Henawy, Walaa M., del Mar Suárez, Maria, 2022-06-24 The COVID-19 pandemic has catalyzed a new era in English as a Foreign Language (EFL) learning and teaching by shifting EFL education from the face-to-face learning paradigm to the online and distance learning paradigm. Teachers and students have faced several challenges such as choosing appropriate web tools for presenting content either synchronously or asynchronously, motivating students to participate, and assessing students' learning. Additionally, this shift to emergency remote online learning represents a challenge for students, particularly with managing their own learning. Taking into account that many students attend low-income schools with limited resources that lack reliable access to the internet and computers, this shift has resulted in growing equity gaps. Likewise, transitioning to emergency remote teaching has revealed a lack of digital competency and readiness amongst teachers. English as a Foreign Language in a New-Found Post-Pandemic World presents an overview of various tools, designs, and strategies utilized to provide digital teaching and assessment of the English language, shares research on using digital technologies for supporting English language learning, and identifies promising areas and directions for future innovations, applications, and research in digital English language learning and teaching. Covering critical topics such as digital teacher education, language learning environments, and online instructional tools, this reference work is crucial for administrators, policymakers, teacher educators, special educators, educational technologists, researchers, scholars, academicians, practitioners, instructors, and students.

About the Rose Elizabeth Ferrell, 2022-02-22 A remarkable portrait of a web of artistic connections, traced outward from Jay DeFeo's uniquely generative work of art Through deep archival research and nuanced analysis, Elizabeth Ferrell examines the creative exchange that developed with and around The Rose, a monumental painting on which the San Francisco artist Jay DeFeo (1929-1989) worked almost exclusively from 1958 to 1966. From its early state to its dramatic removal from DeFeo's studio, the painting was a locus of activity among Fillmore District artists. Wallace Berman, Bruce Conner, Wally Hedrick, and Michael McClure each took up The Rose in their photographs, films, paintings, and poetry, which DeFeo then built upon in turn. The resulting works established a dialogue between artists rather than seamless cooperation. Illustrated with archival photographs and personal correspondence, in addition to the artworks, Ferrell's book traces how The Rose became a stage for experimentation with authorship and community, defying traditional definitions of collaboration and creating alternatives to Cold War America's political and artistic binaries.

Intellectual Property Law and Policy Volume 11 Hugh Hansen, 2010-11-19 This is the 16th Annual volume in the series collecting the presentations and discussion from the Annual Fordham IP Conference. The contributions, by leading world experts, analyse the most pressing issues in copyright, trademark and patent law as seen from the perspectives of the USA, the EU, Asia and WIPO. This volume, in common with its predecessors makes a valuable and lasting contribution to the discourse in IP law. The contents, while always informative, are also critical and questioning of new developments and policy concerns. Praise for the series: This must be one of the most enjoyable and thought-provoking conferences in the IP field. The high quality of the speakers is matched by the intense, audience-led debates and challenges which follow. The Honourable Mr Justice Laddie, Royal Courts of Justice, London Faculty for this conference are always well-known 'names' _ well respected leaders in their fields, speaking with a combination of candor and timeliness that is unrivaled by any other forum of its kind. Honorable Marybeth Peters, Register of Copyrights, United States Copyright Office.

The Photoshop Elements 5 Book for Digital Photographers Scott Kelby, 2007 A guide to Adobe Photoshop Elements covers such topics as cropping and resizing photographs, color correction, special effects, and photo restoration techniques.

Teaching Elementary Social Studies James A. DuPlass, 2008 Written for the elementary social studies methods course, this interactive program combines features of a textbook and a workbook, with thorough integration between the print text and a dynamic web site. Increasingly, majors in elementary education (if not the population at large) are more attuned to reading interactive material with relatively brief narrative, bulleted items, text boxes, and targeted messages (like web pages) rather than traditional, denser text. To accommodate these preferences, the layout of the print text features a larger-than-usual font, an 8 x 11 trim size, and spiral binding, and the content includes an abundance of bulleted lists, shaded text boxes, and contemporary graphics. The program's interactive approach and flexibility allow the professor to model the kinds of teaching principles and practices that students will want to use in their own elementary school classrooms. These principles and practices are integrated throughout the text and include a focus on active-learning strategies, application of constructivist principles, focus on Big Ideas and thinking skills, use of the Internet, and modeling of Best Practices and

Performance-based assessments (based on INTASC and NCATE standard). Thus, the book will serve as a springboard for classroom activities, web site explorations, and/or instructor-led activities.
