A Widow's Words Cathy Penman, 2016-06-02 Life rushes on for us all, our days filled with the mundane, the trivial, the routine. Until sometimes, for some of us, something big and horrible and unexpected happens - like a bereavement. The author of 'A Widow's Words' has just lost her husband of nearly thirty years. Partly as therapy, she spills out to us everything that has happened, and how it has made her feel. She is driven to describe and capture as much as possible of her late-husband's life and character, so as to somehow preserve him for posterity. She wants the world to know what a wonderful person he was, and what an amazingly close and special relationship they had. This book is an expression of grief. Others who find themselves bereaved will associate with it, and may find the comments and observations helpful. If it hasn't happened to you, it may make you think ahead, and prepare.

What It's Like in Words Eliza Moss,2024-12-03 An intoxicating debut that asks: how much should you have to sacrifice in the name of love? Enola is almost thirty and she's not quite where she thought she'd be. She wants to be a writer but can't finish a first draft; she romanticizes her childhood while being estranged from her family; and she yearns to be someone's other half in order to feel whole. When an enigmatic, successful writer infiltrates her writing group, Enola falls hopelessly in love, dreaming about their perfect future. But the chasm between fantasy and reality couldn't be wider. He's distant, moody, and spends more time with his ex than with her. She's desperate to play it cool, and despite all the red flags, she wants him, she needs him, she can't live without him. That's love, isn't it? Two tumultuous years culminate in an explosive twenty-four hours where everything Enola thinks she knows about love will unravel, forcing her to reimagine her vision of the future and—most importantly—herself. With the emotional acuity of *Fleabag* and *I May Destroy You*, *What It's Like in Words* closely examines the ferocity of toxic love.

The Cultural Politics of Colorblind TV Casting Kristen J. Warner, 2015-06-05 This book fills a significant gap in the critical conversation on race in media by extending interrogations of racial colorblindness in American television to the industrial practices that shape what we see on screen. Specifically, it frames the practice of colorblind casting as a potent lens for examining the interdependence of 21st century post-racial politics and popular culture. Applying a 'production as culture' approach to a series of casting case studies from American primetime dramatic television, including ABC's Grey's Anatomy and The CW's The Vampire Diaries, Kristen Warner complicates our understanding of the cultural processes that inform casting and expounds the aesthetic and pragmatic industrial viewpoints that perpetuate limiting or downright exclusionary hiring norms. She also examines the material effects of actors of color who knowingly participate in this system and justify their limited roles as a consequence of employment, and finally speculates on what alternatives, if any, are available to correct these practices. Warner's insights are a valuable addition to scholarship in media industry studies, critical race theory, ethnic studies, and audience reception, and will also appeal to those with a general interest in race in popular culture.
