Characters in Fictional Worlds Jens Eder,Fotis Jannidis,Ralf Schneider,2010-11-19 Although fictional characters have long dominated the reception of literature, films, television programs, comics, and other media products, only recently have they begun to attract their due attention in literary and media theory. The book systematically surveys today's diverse and at times conflicting theoretical perspectives on fictional character, spanning research on topics such as the differences between fictional characters and real persons, the ontological status of characters, the strategies of their representation and characterization, the psychology of their reception, as well as their specific forms and constellations in - and across - different media, from the book to the internet.

Radically Rethinking Copyright in the Arts James Young,2020-06-11 This book radically rethinks the philosophical basis of copyright in the arts. The author reflects on the ontology of art to argue that current copyright laws cannot be justified. The book begins by identifying two problems that result from current copyright laws: (1) creativity is restricted and (2) they primarily serve the interests of large corporations over those of the artists and general public. Against this background, the author presents an account of the ontology of artworks and explains what metaphysics can tell us about ownership in the arts. Next, he makes a moral argument that copyright terms should be shorter and that corporations should not own copyrights. The remaining chapters tackle questions regarding the appropriation of tokens of artworks, pattern types, and artistic elements. The result is a sweeping reinterpretation of copyright in the arts that rests on sound ontological and moral foundations. *Radically Rethinking Copyright in the Arts* will be of interest to scholars and advanced students working in aesthetics and philosophy of art, metaphysics, philosophy of law, and intellectual property law.

The Science of Adaptation. "A Study in Scarlet" and "A Study in Pink" ,2015-04-23 Seminar paper from the year 2014 in the subject English Language and Literature Studies - Comparative Literature, grade: 1,0, University of Frankfurt (Main) (Institut für England- und Amerikastudien), course: Crime Fiction, language: English, abstract: "Holmes is dead," he said. "I have done with him." ("Conan Doyle Dead From Heart Attack") Sir Arthur Conan Doyle must have felt, at times, like the sorcerer's apprentice in Johann Wolfgang von Goethe's famous poem, unable to rid himself of the spirits he had conjured up. The Scot's literary oeuvre comprises up to 200 individual publications, ranging from historical novels like Micah Clarke (1889), the science fiction classic *The Lost World* (1912), poetry and a wide selection of short stories to non-fictional works on spiritualism, colonial Africa and memoirs. (Keulks) But the diversity of the Conan Doyle canon reflects not only the author's eclectic intellectual interests and approaches to his profession, but also attempts to counteract the popularity of one specific brainchild: Sherlock Holmes. (Keulks) It might not be quite how the author had hoped to be remembered, but the adventures involving the sleuth and Doctor Watson ensured that his literary legacy continues to thrive and inspire the works of others to the present day. On the following pages one particular piece of proof for Holmes' continued popularity, the immensely successful television format *Sherlock*, is examined by putting it into context with other, preceding types of Conan Doyle adaptations and comparing the 2010 film version of the detective's first case, entitled *A Study in Pink*, to its source text. After focusing on the representation of the main characters and their defining traits in both media forms, as well as the relationships they share with each other and supporting characters that appear over the course of the story, the paper then

adds final remarks on the process of modernization and cultural modification of not only Conan Doyle's *A Study in Scarlet* and its protagonist, but also the contemporary movie series for an American audience.

Sherlock Holmes: A comparison between the stories and the movie Cindy Härcher,2013-11-11 Studienarbeit aus dem Jahr 2013 im Fachbereich Anglistik - Literatur, , Sprache: Deutsch, Abstract: With Sherlock Holmes, "the character whose adventures revolutionized crime writing, setting the template for generations of fictional sleuths, [...] The character whose 'death' caused grief-stricken readers on the streets of London to wear black armbands" (Billingham xiii), Doyle created a detective who became one of the most famous characters in crime fiction. The world loved the stories about the genius detective and although Arthur Conan Doyle died, had a continuing demand for them. Many authors tried to fulfill this needs and a lot of pastiches, parodies and adaptations were produced until today, reaching from book form, movies, TV-series, over video games, up to graphic novels (Poore 1). The different adaptations vary in a great degree in how faithful they are to the source text and how far they differ from it. This paper will concentrate on a twenty-first-century adaptation, namely Guy

Ritchie's movie Sherlock Holmes from 2009, and its fidelity to the source will be examined. How did Ritchie put the character of Sherlock Holmes and all his trappings into a modern context? Which details out of Conan Doyle's version were borrowed and in which way do they appear in the movie? And does he succeed in appealing a modern, twenty-first-century audience, although staying true with the source text? Some general information about Sir Arthur Conan Doyle's stories, as well as an analysis of the main characters Sherlock Holmes and Dr. John Watson, will serve as a basis for the comparison. The next important foundation will be laid by the explanation of adaptation theory, examining the notion of fidelity, and answering the questions if a strict fidelity is possible and even appropriate and how it can be put into practice. Then the comparison between the stories and the movie will be drawn, focusing on the plans the filmmakers had, and how they were applied, on details borrowed from the source and changes made, especially watching the characters of Sherlock Holmes and Dr. Watson. Finally a conclusion will be drawn and the most important points will be summarized.

The Disabled Detective. Representation of Disability and Immobility in Jeffery Deaver's Lincoln Rhyme Novels

Sophy Mindt, 2021-11-10 Bachelor Thesis from the year 2019 in the subject English Language and Literature Studies - Literature, grade: 1,7, University of Bremen, language: English, abstract: The first chapter of this bachelor's thesis is dedicated to disability studies in literature, their development history, their theory and especially scholars' achievements. We will touch upon historical events regarding the disability movement until we move on to the most influential works of literary scholars. The fundamental shift in research questions is extraordinary and will be discussed chronologically. To narrow the main topic down, detective fiction is the noteworthy sub-genre. The differences between crime- and detective fiction are briefly discussed and conspicuous characteristics of this type of literature are summarized. In a shift of attention towards disabled detectives in literature, the main concern will be their specific position and their emblematic profit towards the fictional literature. How literature in general and especially detective fiction can benefit from inclusion and representation of disability will be the last point of interest before moving on to the main topic of this essay. Conflating the knowledge acquired, this thesis will analyse three of Jeffery Deaver's Lincoln Rhyme novels. This is based on three categories to analyse how disability is represented in these novels. The chapter "Styles of Motion" will revolve around movement quite literally as the quadriplegic detective moves seldom or not at all as well as metaphorically in terms of moving through time and space in the plot. The subsequent chapter "Modes of Thinking" focuses on the perception of disability from the disabled character's perspective. How do they feel towards the disability and what, if anything, do they do to conquer it? "Forms of Communication" concentrates on the perception of disability from the outside, in other words, it will concentrate on questions such as: How do other characters address the disability and what kind of relationship form the addressee and the addresser? The concluding chapter will build the bridge between disability studies in literature and how the shift that

happened in theory was implemented in practice, the phrase “Not Despite but Because” will be elaborated and the development of the character Lincoln Rhyme is analysed in context to the current main concern of literature disability studies.
