**Babette Babich**

**Covid-19 in Film and Television** Verena Bernardi, Amanda D. Giammanco, Heike Mißler, 2024-09-12 This collection explores the impact of Covid-19 on the production and consumption of television and film content in the English-speaking world. Offering in-depth analysis of select on-screen entertainment, the volume addresses entertainment's changing role during and following the Covid-19 pandemic. It also studies the pandemic's incorporation into the narrative of numerous series, films, and other televised formats, capturing the moments and contexts in which these developments emerged. Chapters examine the pandemic's impact both on a micro- and macro level, focusing on the content as well as form of TV shows and films. Bringing together an international team of scholars, the book offers a range of perspectives, exploring phenomena such as the 'YouTubification' of audience-reliant late-night television, as well as films and TV shows such as *Superstore*, *Grey's Anatomy*, and *The Good Fight*. Given the pandemic's lasting impact on the film and television industries, this book will be a valuable read for scholars studying audience and viewer reception of on-screen content, and the impact of crises on cultural industries. It will also appeal to researchers in cultural studies, popular culture studies, television studies, internet studies, film studies, and media studies more broadly.

*Gunther Anders' Philosophy of Technology* Babette Babich, 2021-10-21 Gunther Anders' *Philosophy of Technology* is the first comprehensive exploration of the ground-breaking work of German thinker Gunther Anders. Anders' philosophy has become increasingly prescient in our digitised, technological age as his work predicts the prevalence of social media, ubiquitous surveillance and the turn to big data. Anders' oeuvre also explored the technologies of nuclear power and the biotech concerns for the human and transhuman condition which have become so central to current theory. Babette Babich argues that Anders offers important resources on streaming digital media through his writings on radio, television and film and is, unusually, both a comprehensive and profound thinker. Anders' relationship with key philosophers like Hannah Arendt and Walter Benjamin and his thinking on Goethe, Nietzsche and Rilke is also explored with a focus on the deep impact he made on his peers. It reflects specifically on the intersection of Anders' thought Heidegger and the Frankfurt school and how influential a figure he was on the landscape of 20th century philosophy. A compelling rehabilitation of a thinker with profound contemporary relevance.
