

The Grunch Of Giants

J Dewey

Grunch* of Giants R. Buckminster Fuller, 1983-04-15 With the appearance of *Grunch of Giants*, R. Buckminster Fuller consummates his literary canon, his panoramic lifetime survey of all aspects of the responsibility of human beings for their own destiny. This book is a modern allegory - his long-gestated myth-of the villainy of capitalism and the fecklessness of classic economics. For Fuller, the academic discipline of economics is irrelevant since it derives from an invalid assumption of scarcity. In fact, he has long argued that future historians of our era may subsume our business practices as a branch of mythology; thus it is not surprising that the word economic appears nowhere in his text. Fuller's myth is no idle fairy tale, since he faces his question - the question of a technological imperative which only he could raise with the deadly seriousness of satire. That question is: Can our system of national political sovereignties and corporate profits survive the inevitable technology revolution required to obviate wars by effecting a worldwide rise in the standard of living. One of the functions of myth is to resolve contradictions in our culture. *Grunch of Giants* portrays the rising of multinational corporations in the paradoxical role of function both as the epitome of capitalistic selfishness and as the inadvertent vehicle for the dissolution of national political boundaries - the last deterrent to a one-world economy. The result is more subversive of the property and profit values of the capitalist system than anything dreamed of since Karl Marx. —E.J. Applewhite, collaborator with RBF on *Synergetics* and *Synergetics 2*, author of *Cosmic Fishing: A Memoir of Working With R. Buckminster Fuller*

Grunch of Giants Richard Buckminster Fuller, 1983 Here Buckminster Fuller takes on the gigantic corporate megaliths that exert increasing control over every aspect of daily life. In the form of a modern allegory, he traces the evolution of these multinational giants from the post-World War II military-industrial complex to the current army of abstract legal entities known as the corporate world.

Buckminster Fuller Thomas T. K. Zung, 2002-03-20 Buckminster Fuller, inventor, thinker and architect, was one of the best known Americans of the twentieth century. Often compared to Leonardo da Vinci and called the planet's friendly genius, he was the inventor of the geodesic dome, the man who coined the term spaceship earth, and an educator without parallel. Yet, most of his books are out of print today. To remedy this situation, his longtime friend and architectural partner, Thomas Zung, has compiled a Bucky Fuller reader. This anthology consists of chapters selected from twenty of Bucky's many books, each with a new Introduction by such notables as Arthur C. Clarke, Steve Forbes, Calvin Tomkins, Dr. Martin Meyerson, Sir

Harold W. Kroto, Arthur L. Loeb, E. J. Applewhite, and others. Altogether, this book provides an overview of a remarkable intellectual career and the best possible introduction to the man and his thought. Bucky Fuller was one of the most original thinkers and builders that America has ever produced, and this book makes his work available to a new generation at the beginning of a new millennium.

Rich Dad's Conspiracy of the Rich Robert T. Kiyosaki, 2009-09-21 In late January, 2009, Robert Kiyosaki launched CONSPIRACY OF THE RICH - a free online book which was written in serial basis to help people understand how the current recession came about, and what they need to learn on how to survive through the coming rough years. An unprecedented publishing event for Kiyosaki and The Rich Dad Company, CONSPIRACY OF THE RICH is an interactive, Wiki-style project in which Kiyosaki has invited feedback, commentary, and questions from readers across the globe. The response so far has been totally fantastic. Millions and millions of readers have flocked to the website (www.conspiracyoftherich.com) to read what Robert has to say about the recession, and the readers have posted thousands of comments. Some of those reader comments will even be included in the final tradepaper version.

The top stories are listed democratically in order of importance according to students, faculty, and a national panel of judges. Each of the top stories is presented at length, alongside updates from the investigative reporters who broke the stories.
