Raffaella Di Napoli

The Rainbow Fish Marcus Pfister, 1992 Summary: The most beautiful fish in the entire ocean discovers the real value of personal beauty and friendship.

Ebook: Professional Learning for Artist Teachers: How to Balance Practice and Pedagogy Rachel Payne, 2024-01-10 “In the context of one of the most difficult times for art and design education that I can remember, Dr Rachel Payne’s timely volume gives hope; it provides a valuable and inspirational resource for established and aspiring creative practitioners concerned with meaningful teaching and learning.” Richard Hickman, Fellow of NSEAD, UK “Those of us in the arts who need reassurance that our work matters, that our work remains essential to a holistic education for children, youth and adults, and that artist-teachers can reclaim, recover, and reimagine their professional practices in the midst of governmental controls – then, this is our book.” Rita Irwin, Professor of Art Education, The University of British Columbia, Canada More than most educators, art teachers have to negotiate two professional identities of artist and teacher. In *Professional Learning for Artist Teachers: Pedagogy, Practice and Partnership in UK Contexts*, Rachel Payne brings together innovative discourse from academics, artists, researchers and professionals working for cultural organisations to support the symbiosis of artist and teacher. *Professional Learning for Artist Teachers* is a book of balance, combining theory and practice to offer pedagogic strategies, and placing great importance on individual contexts while considering external factors. The text: •Comprises a wide range of bespoke perspectives and experiential content •Explores cultural partnerships within higher education programmes •Focuses on the UK context while examining how the field differs regionally, nationally and internationally Offering pedagogic and practical insights drawing from the contributing authors' extensive experience, this book will be of interest to practitioners, academics and students alike. Rachel Payne is the Deputy Head for Education and Student Experience at Oxford Brookes University, UK. Here she is also subject coordinator for the MA Education: Artist Teacher Practice, which is run in partnership with the Pitt Rivers Museum, University of Oxford, UK.

Continuous Provision - Personal and Thinking Skills Claire Hewson, 2021-10-11 As a dedicated practitioner, you want the very best for your children. You want them to grow up healthy, happy, self-reliant and confident in their abilities. That is why it is vital that personal and thinking skills underpin every aspect of the early years foundation stage. Personal skills enable children to manage stress, to bounce back after difficulties, to understand that mistakes are important for learning, and to

communicate and cooperate with others. Thinking skills are about making decisions, solving problems systematically and thinking critically. Continuous Provision: Personal and Thinking Skills gives practical guidance on how to further children's personal and thinking skills as you play with them, so that they continue to develop their abilities when you are not present. It includes: * Focused sections with a clear breakdown of personal and thinking skills, so that you have the knowledge and confidence to promote children's development. * Open-ended questions to further each specific skill, as well as practical challenges to enrich children's learning experiences. * Activity ideas and photocopiable resources to help you plan for continuous provision. Ideal for practitioners who work with children aged from 30 months onwards.

New Art and Science of Teaching Writing Kathy Tuchman Glass, Robert J. Marzano, 2018-07-06 For educators to be effective, they must intentionally select and implement research-based instructional strategies and conduct assessments. Using a clear and well-organized structure, the authors apply the strategies and techniques originally presented in *The New Art and Science of Teaching* by Robert J. Marzano to the teaching and assessment of writing skills, as well as some associated reading skills. In total, the book shares more than 100 strategies across grade levels and subject areas. Use effective teaching methods to reach desired writing learning outcomes and student success: Understand which instructional strategies are best suited to teaching writing skills, and gain specific examples for implementing these strategies. Learn how to utilize general and specific strategies to improve the learning environment of the classroom and obtain desired student learning outcomes for writing. Fine-tune your writing curriculum to achieve student success by developing and assessing writing skills with the book's instructional techniques. Examine samples of writing rubrics, proficiency scales, and checklists, and learn effective teaching methods to use them as assessment and instructional tools. Utilize an advance organizer as a quick reference of all strategies to assist you in designing writing curriculum and planning lessons. Access and download free reproducible activities, rubrics for assessing student writing, writing assessment examples, writing checklists, and more for classroom use. Fish Swimming in Turbulent Waters Hubert Chanson, Xinqian Leng, 2020-09-13 Low-level river crossings, including culverts, are important for delivering a range of valuable socioeconomic services, including transportation and hydrological control. These structures are also known to have negative impacts on freshwater river system morphology and ecology,

including the blockage of upstream fish passage, particularly small-body-mass fish species. Given the enormous environmental problems created by road crossings, new hydraulic engineering guidelines are proposed for fish-friendly multi-cell box culvert designs. The focus of these guidelines is on smooth box culverts without appurtenance, with a novel approach based upon three basic concepts: (I) the culvert design is optimized for fish passage for small to medium water discharges, and for flood capacity for larger discharges, (II) low-velocity zones are provided along the wetted perimeter in the culvert barrel, and quantified in terms of a fraction of the wetted flow area where the local longitudinal velocity is less than a characteristic fish speed linked to swimming performances of targeted fish species, and (III) the culvert barrel is smooth, without any other form of boundary treatment and appurtenance. The present monograph develops a number of practical considerations, in particular relevant to box culvert operations for less-than-design discharges. It is argued that upstream fish passage capabilities would imply a revised approach to maintenance, in part linked to the targeted fish species. This reference work is authored for civil and environmental engineers, as well as biology and ecology scientists interested in culvert design. While the book is aimed to professionals, the material is also lectured in postgraduate courses and in professional short courses.

Supporting Early Career Teachers With Research-Based Practices Wellner, Laurie, Pierce-Friedman, Kathleen, 2021-05-21 Teachers in their first few years of their teaching career require high quality, structured support to begin the journey towards becoming experts. Establishing research-based best practices and working habits set up early career teachers for a fulfilling and successful career. The requirements of teachers are constantly changing, and teachers need to continually adapt their knowledge and practices to fit schools' changing demographics. Having a toolbox of research-based best practices to draw upon can support early career teachers as they move from theory to practical application when the learning curve is the steepest. Strengthening the system of support includes increasing teachers' influence over their day-to-day work and developing positive and supportive cultures of learning. *Supporting Early Career Teachers With Research-Based Practices* presents both theoretical and practical research to support the conceptual understanding of educational praxis for common areas with which early career educators may require additional expertise or support. This book is intended to be a valuable contribution to the body of literature in the field of education by supplying research-based teaching practices for modern education. Primary topics covered include professional learning, classroom management, student-teacher relationships, teaching diverse students and inclusive educational practices, and teacher self-care strategies. This book is a valuable reference tool for early career teachers of all subject areas and grade levels, school administrators, teacher mentors and guides, education faculty in higher education, educational researchers, curriculum developers, instructional facilitators, practicing teachers, pre-service teachers, professional development coordinators, teacher educators, researchers, academicians, and students interested in teaching practices and support for the early career teacher.
