William G. Nickels

Understanding Business William G. Nickels, James M. McHugh, Susan M. McHugh, 2010 *Understanding Business* by Nickels, McHugh, and McHugh has been the number one textbook in the introduction to business market for several editions for three reasons: (1) The commitment and dedication of an author team that teaches this course and believes in the importance and power of this learning experience, (2) we listen to our customers, and (3) the quality of our supplements package. We consistently look to the experts - full-time faculty members, adjunct instructors, and of course students - to drive the decisions we make about the text itself and the ancillary package. Through a series of focus groups, symposia, as well as full-book, single-chapter, revised manuscript reviews of both text and key ancillaries, we have heard the stories of more than 600 professors and their insights and experiences are evident on every page of the revision and in every supplement. As teachers of the course and users of their own materials, the author team is dedicated to the principles of excellence in business education. From providing the richest most current topical coverage to using dynamic pedagogy that puts students in touch with today's real business issues, to creating groundbreaking and market-defining ancillary items for professors and students alike, *Understanding Business* leads the way.

Understanding Business William G. Nickels, James M. McHugh, Susan M. McHugh, 2023 *Businesses* also provide people with the opportunity to become wealthy. Sam Walton of Wal-Mart began by opening one store in Arkansas and, over time, Bill to be worth about \$65 billion (that's billion with a b, not million with an m). In fact, before Microsoft got into legal problems with the government, Gates was worth about \$100 billion. There are about 270 billionaires in the United States today. That number is expected to increase to 700 by the year 2025. Furthermore, there are about 11 million millionaires, and that number is expected to be about 30 million in 2025.¹ Could you be one of them? Learning about business is a great start--

Loose-Leaf Edition Understanding Business: The Core William G. Nickels,James McHugh,Susan McHugh,2020-06-10 You asked for it – you got it! Based on the market leading gold standard product, Nickels, Understanding Business 12e, Understanding Business: The Core 2e provides a fully revised product with fewer chapters. Reviewers asked for fewer chapters and to include a chapter on using technology, particularly social media. Understanding Business: The Core 2e is now 16 chapters. Here's how we did it: • Chapter 1, Taking Risks and Making Profits within the Dynamic Business Environment, and Chapter 2, Understanding Economics, were condensed and combined to create Chapter 1, Exploring the Business Environment and Economics. The coverage of current trends was deleted since it is covered in other chapters. • Chapter 11, Human Resource Management: Finding and Keeping the Best Employees, and Chapter 12, Dealing with Employee-Management Issues, were condensed and combined to create Chapter 10, Human Resource Management: Finding and Keeping the Best Employees. • Chapter 16, Financial Management, was combined with Chapter 17, Using Securities Markets for Financing and Investing Opportunities, to create Chapter 15, Financial Management. This revised chapter retains the material about selling stocks and bonds to raise capital. The content about investing in stocks and bonds was moved to Bonus Chapter C Managing Personal Finances and Investing. • Bonus Chapter B, Using Technology to Manage Business, was expanded and promoted to the main text as Chapter 13, Using Technology to Manage Information. • Bonus Chapter C, Managing Personal Finance and Investing, was expanded to include a condensed version of the content regarding investing in stocks and bonds that was moved from the former Securities Markets chapter.

The New Normal in Education Mary Beth Klinger, Teresa Coffman, 2023-07-28 This book explores teaching, learning, and leadership in higher education following the Covid-19 pandemic. It examines opportunities that currently exist within higher education as they relate to innovative teaching and learning strategies, from instructional modalities to new models of transformative learning to meet students "where they are" in terms of career development and lifelong learning. Emphasis is placed on educational leadership and management skills, faculty and teaching acumen, and students and their quest for knowledge and understanding as we navigate past a global health crisis towards a future of hope and solutions to some of today's most pressing issues using collaboration, community, and an inquiry-oriented approach. The current state of education is reimagined with emphasis on higher education as a learning organization. A sense of urgency in higher education is underscored to instill knowledge and competency, encourage innovation, and help the next generation of students flourish in an evolving and changing world with resilience, optimism, and creativity that will yield real solutions to some of the world's most prevalent and challenging issues.
