**John Gray**

**Men Are from Mars, Women Are from Venus** John Gray, 2009-10-13 Once upon a time Martians and Venusians met, fell in love, and had happy relationships together because they respected and accepted their differences. Then they came to earth and amnesia set in: they forgot they were from different planets. Using this metaphor to illustrate the commonly occurring conflicts between men and women, Dr. John Gray explains how these differences can come between the sexes and prohibit mutually loving, fulfilling relationships. Drawing on years of successful counseling of couples and individuals, he gives advice on how to counteract these differences in communication styles, emotional needs, and modes of behavior to promote a greater understanding between individual partners. Men Are from Mars, Women Are from Venus is an invaluable tool for developing deeper and more satisfying relationships.

*Recognizing Women's Leadership* Tiffani Lennon, 2014-08-26 According to recent data on women leaders across all major

sectors in the United States, women are outperforming men but earning less and still hitting the glass ceiling. This book uncovers the best practices to remedy these inequities, optimize performance, and benefit both genders. In compiling and analyzing 2011-2012 data on women leaders across all major sectors in the United States, author Tiffani Lennon, JD, uncovered proof that women are outperforming men—yet salaries and positional leadership roles are disproportionate to the performance and accomplishments of women in nearly all sectors. **Recognizing Women's Leadership: Strategies and Best Practices for Employing Excellence** presents a comprehensive look at agencies and organizations with the smallest pay gap and the largest percentage of female positional leaders to reveal best practices and strategies that ensure gender parity and optimal business performance, including impact, revenue, and efficacy. The study examined in this book included approximately 1,500 for-profit companies, not-for-profit businesses, and other organizations and associations throughout the country to establish the number of women leaders among the top echelon in each industry. Researchers also calculated leadership performance by identifying the frequency with which women received industry distinctions and awards, were top revenue generators, and achieved best-sellers list status, among other sector-specific criteria. The ramifications of the study's findings portend the future of the United States as a global competitor and as such need to be part of the public discourse surrounding the state of the American economy.

**She Brought the Art of Women** Janet Tyson, 2023-04-10 What would happen if the interpretation of Song of Solomon were to move beyond the layered traditions of rabbinic Judaism, the theological concerns of Christian communities, or even the Enlightenment ideals of a rigorously objective secular hermeneutic? This new reading by Janet Tyson provides a fascinating answer to that question. -Timothy Paul Erdel, Bethel University The Song of Solomon is an intimate, eyewitness account of the stormy marriage between the last King of Babylon, Nabonidus, and the Egyptian princess Nitocris II. It details the couple's seven-year stay in Tayma, Arabia, during which time the king formulated his plan to reinstate a long-defunct female priesthood at Ur, in honour of the lunar deity, Sîn. The Song was written by a female scribe, during the exodus from Babylon in c.538 BCE; she is potentially recorded elsewhere in the Hebrew Bible. Her 'song of praise' tells of magic, blood rites, jealousy and rivalry, contraception, miscarriage, lies and curses. It bears all the signs of an act of vengeance, for it preserves the bitter resentment of a woman who lived in the shadow of the king's most exotic wife. Topics of interest include:  
 \* A consistent pattern of applied Ishtar/Hathor mythology \* Potential insight into the function of the God's Hand \* The use of Jewish gematria \* Clear allusions to the esoteric rite known today as the Elixir Rubeus \* Internal chronology that mirrors the reign of Nabonidus, including a lunar eclipse \* Profound parallels between Nabonidus and King Solomon \* Strong connections between Herodotus and the Song's narrative \* Potential identification of the Song's author and date of composition \* Other ancient legends revealing this same interpretation

Jacobs, 2019 Introduction to Women's and Gender Studies: An Interdisciplinary Approach, Second Edition, is a truly interdisciplinary and intersectional text featuring global examples for women's, gender, and sexuality studies. Its student-centered rhetorical approach and pedagogical features - including an engaging image program, prompts for activism, a comprehensive glossary, appendices of key terms, annotated bibliographies for additional reading, and Feminisms in Brief - aid students in assimilating fundamental women's and gender studies terms and concepts. While it is a textbook and not an anthology, Introduction to Women's and Gender Studies adopts the best facets of the anthology approach: it includes discussions of frequently anthologized writers and writing that is more engaging and narrative in style than traditional textbooks. The book systematically covers core interdisciplinary concepts so that students are prepared for women's and gender studies courses in a variety of disciplines.

**Mars and Venus in Love** John Gray, 2009-10-13 Straight from the heart—real-life couples share inspiring, edifying stories of Mars and Venus in love. Millions of readers have learned about relationships from John Gray's previous bestsellers, such as Men Are from Mars, Women Are from Venus; Mars and Venus on a Date; and Mars and Venus in the Bedroom. Inspired by this enthusiasm, Gray asked a number of readers to share their own stories of how they've put his principles to work in their relationships. The result is this amazing collection of first-person accounts—along with Gray's own enlightening commentary—that will have you laughing, crying, and nodding in recognition. Gray's contributors answer such questions as: What problems have you had in your relationship, and how have you overcome them? What special things do you and your partner do for each other? How do you best communicate with each other? How do you practice what you've learned? How does your love feel different now from how it felt before? Their answers illustrate more eloquently than any textbook how to use Gray's advice and counsel to create your own fulfilling, healthy, and loving relationships.

**Religious Diversity Today** Jean-Guy A. Goulet, Liam D. Murphy, Anastasia Panagakos, 2015-12-01 This insightful three-volume set examines faith through the social and cultural perspective of anthropology, sociology, and religious studies, shedding light on the role of religion in the human experience. Why is human suffering and the existence of evil part of the human experience? How does religious doctrine establish one's identity? In what ways does religion interact with and shape the social order? This thought-provoking work ponders these questions and explores the concept of religion from various perspectives: as a tool for self and community-based spiritual awareness, as a set of practices that translates faith into interaction with others, and as a cornerstone of society for those who seek to harness—or hinder—its influence. Written in accessible and inviting language, each volume focuses on a particular dimension of religion. The first book examines religious experience in the modern world and explores suffering in religious faiths, the second volume centers around ritual and

pilgrimage, and the last book analyzes the controversial relationship between religion and societies. The content features such thought-provoking topics as death and green burials, sexuality and sex trade, and how and why evil manifests in the human experience.

**Women in Power** Gunhild Hoogensen Gjorv,Gunhild Hoogensen,Bruce O. Solheim,2006-07-30 Women in Power profiles 22 world leaders who have held the top positions of political power since 1960. Each chapter is devoted to a region of the world. In addition to providing an overview of the political careers of the women who emerged as leaders in these regions, the authors examine the political systems of each region in terms of the involvement of women in politics. Biographies of these political leaders are embedded within regional analyses that reveal not only the personal circumstances that each woman faced in her quest for power but also the political milieu from which she emerged. We learn about the obstacles as well as the advantages these women faced, and we derive insights into the structures that exist in our own societies regarding the power relations between men and women. Women in Power also devotes a chapter to differing theories of women's leadership and various theories of feminism around the world. Finally, in an effort to understand how the United States can appear to be the bastion of women's liberation around the world and yet have only 15 percent representation of women in power and no female president to date, the authors explore prospects for the upcoming 2008 U.S. presidential election and discuss potential candidates.

Research and Practice in Education Stephen Hunt Davis,2008 Over the years, bridging the gap between research and practice in education has proven to be a stubborn and persistent problem. This book examines the issue from several perspectives. First, the characteristics of educational research are examined, with particular attention given to the contrasting perspectives and professional orientations of researchers and practitioners. Second, the book provides a critical analysis of the current focus on scientifically based research as defined by No Child Left Behind and of the dubious relevance and uneven quality of research produced by schools of education. Third, several suggestions and resources are provided that can help practitioners improve their research literacy and assist researchers interested in advancing the practical relevance of their work.
