Dark Winter John L. Casey, 2014-08-19 Climate change has been a perplexing problem for years. In *Dark Winter*, author John L. Casey, a former White House national space policy advisor, NASA headquarters consultant, and space shuttle engineer tells the truth about ominous changes taking place in the climate and the Sun. Casey's research into the Sun's activity, which began almost a decade ago, resulted in discovery of a solar cycle that is now reversing from its global warming phase to that of dangerous global cooling for the next thirty years or more. This new cold climate will dramatically impact the world's citizens. In *Dark Winter*, he provides evidence of the following: The end of global warming The beginning of a "solar hibernation," a historic reduction in the energy output of the Sun A long-term drop in Earth's temperatures The start of the next climate change to decades of dangerously cold weather The high probability of record earthquakes and volcanic eruptions A sobering look at Earth's future, *Dark Winter* predicts worldwide, crop-destroying cold; food shortages and riots in the United States and abroad; significant global loss of life; and social, political, and economic upheaval.

In *Dark Winter*, he provides evidence of the following: \* The end of global warming \* The beginning of a solar hibernation, a historic reduction in the energy output of the Sun \* A long-term drop in the Earth's temperatures \* The start of the next climate change to decades of dangerously cold weather \* The high probability of record earthquakes and volcanic eruptions A sobering look at the Earth's future, *Dark Winter* predicts worldwide, crop-destroying cold; food shortages and riots in the United States and abroad; significant global loss of life; and social, political, and economic upheaval.

*Upheaval!* John L. Casey, 2016-12-12 The United States of America will likely be devastated by earthquakes within the next twenty years. That is the startling conclusion of the authors of this book, all of them leading experts in the geophysical effects of climate change. They make a strong case for a link between the sun's cycles of behavior with highly destructive

earthquakes. The authors explain that when the sun goes into a reduced energy phase, it produces colder weather and the worst earthquakes we've ever seen. Their easy-to-understand charts and graphs clearly show that we face an imminent threat. Find out the status of the threat for California, Alaska, South Carolina, Puerto Rico, Hawaii, and other states and regions as well as when and where the next catastrophic quakes will most likely strike. The authors also share the latest damage and loss-of-life assessments from the federal government, and they argue that we're not doing enough to confront the threat. The United States could face up to \$600 billion in damages, and tens of thousands of people could die beginning in 2017, they warn. Prepare yourself, your family, and your business for the most dangerous earthquakes you'll ever face with Upheaval!

**Debunking Darwinian Evolution, Global Warming & Other Misconceptions** William C. Cekal BSME, 2020-07-16

This book attempts to show where the public is being deceived into believing erroneous assumptions as factual by the media and in academic circles worldwide without scientific corroboration and provides a contrarian view to the predominant consensus. Today, the scientific method is being ignored by many scientists and those with an inadequate understanding of technological principles. Many embrace a unscientific approach to new theories and accept them based on majority vote without regard for empirical evidence. The scientific method consists of rigorous observation, experimentation and reasoning to resolve the rationale for a proposed hypothesis. Instead, many scientists today use computer modeling to convince others of the correctness of their theory. More often than not the input to these computer programs consists of erroneous unsubstantiated data, unconfirmed phenomenon or misconceptions which result in incorrect conclusions. With the advent of immediate worldwide communication unfounded beliefs are being disseminated worldwide by the media, pseudo-scientists, ill-informed educators, politicians and those with an unsubstantiated opinion with little or no basis in scientific fact. This book provides numerous scientifically based data in an attempt to discredit these unscientific opinions and provides extensive factual scientific disclosure on each point of contention for a more comprehensive counter-defense. Having read this book, you will have scrutinized these erroneous claims to a greater extent than those that seek personal recognition in media outlets or for personal gain without proper research. Debunking Darwinian Evolution, Global Warming & Other Misconceptions is intended to give readers an insight into why these specific fallacies exist, why they continue to be propagated without proper scientific scrutiny and to provide opposing in-depth research in the hope of dispelling these myths.

The Tree of Life Stephen B. Machnik, 2021-03-25 What if the literary form of the Bible derived its pattern from the elementary process of creation? Is there an underlying symbolic form to the book? The Tree of Life is an analysis of this form and compares it to the operations of the intellect. These operations are the process by which we come to know what is. It also

corresponds to the metaphysical elements, which are the core of our being. What becomes evident is that there is a form to human consciousness.

**The Breaking Point** James Dale Davidson, 2016-12-06 Picketty (the rich get richer), Gordon (the important innovations are already behind us), Tainter (it's too complicated) all have theories about why the 21st century is such a disappointment. James Dale Davidson connects the dots...but more dots...and more unexpected dots...than perhaps anyone.—From the Foreword by BILL BONNER, coauthor of International bestseller *The Empire Debt IS YOUR PORTFOLIO POSITIONED FOR THE GLOBAL FINANCIAL REVOLUTION?* The global economy as we know it is due for a major correction, and with this will come permanent, systemic change: the greatest economic freedom the world has ever seen. But hard financial times are ahead, and *The Breaking Point* will help you protect your wealth and prosper through it all. Providing a painfully clear view of the state of the global economy, outspoken economist James Dale Davidson uses the old-fashioned tool of argument—facts—to describe how governments have mismanaged the financial system to the point of no return. It has all led to Brexit—the opening salvo in the war for financial freedom. *The Breaking Point* shows you where we've been and where we're headed, offering the insight and information you need to ensure you're positioned for the worst of times—and the best of times.

The Swords of Ezekiel Tom McCall ThD, Ed Barrett MS, 2024-05-08 To those who have a fairly good background in the hard sciences: Maybe Ezekiel really did mean horses and ancient armor..... *The Swords of Ezekiel* accepts the plain teaching of the text that the Magog raiders wield weapons from the generation before the Gunpowder Revolution and use horses for transportation. Consequently, the narrative that emerges is a dramatic departure from the generally accepted modern weapons teaching of present-day scholars. In this alternative understanding, the two chapters are complementary descriptions of the same series of events. i.e. One has details that the other does not have. The chronological narrative emerges when the two segments are properly aligned like a spline gear on a drive shaft. Thoroughly referenced, this is the book to read for a better understanding of the relationship between natural science, European history, legend as guide to history, art as secular prophet, archaeology outside the Near East and Bible prophecy. The primary motives for the raid are anti-Israel resentment, jealousy and near starvation levels of crop-failure hunger. The absence of modern weapons is explained as a combination of industrial collapse and an as-yet unobserved destabilization of nitrate-based propellants and explosives. The merchants of Tarshish are identified as the British Commonwealth based on cultural heritage, mineral resources, geography and geopolitics. *The Swords of Ezekiel* also suggests a location for these events on the prophetic timeline.

*United States 12.0 - Freedom vs. Communism* James Scarangella, 2024-11-07 The nuclear family has been under quiet attack since 1965 which is when Lyndon Johnson initiated “The Great Society” which subsequently decimated the black

nuclear family first and then followed with all families as the target. In America today only 18% of all US households are comprised of the “nuclear” family....mom, dad and children. Make no mistake about it, the attack on families and their children trend is intentional by our own government, and it is directly attributed to communist/Marxist/fascist/socialistic (all blend together) influences via their army of bureaucratic minions, and is now firmly in place and ready for the final transition step towards ultimate power and the new “dark ages” US. 12.0 Freedom vs. Communism – The Last Stand For America’s Families is a book that points out that this is not the first time, but could be the last time that we have a real chance to recognize and more importantly reverse this nefarious trend. Each historical point on the cover depicts 11 previous time periods (1492, 1620, 1776, 1800, 1865, 1900, 1929, 1941, 1965, 1980, 2001 and 2024) where American’s had to pivot to preserve liberty and make a change to improve the human condition. This is not a historical treatise but is more of a guide to show that we have been here before and we can do it again, as the family unit is literally the only way back to positive moral trajectory in order to unite and live as moral free willed beings under God. Tyrannical beings fight wars for power and land grabs, moral people fight them to protect their families and way of life. By putting the family unit above all else and truly empowering the family unit our country will begin to correct its nefarious path and set the stage for a unified world with the human being’s rights at its center and not evil communistic forces. The time is now to make a stand and get involved or accept the fate of tyrannical control in the new dark ages.

*Gaia Luminous* Kiara Windrider,2023-08-19 this is the most comprehensive book on planetary shift I have ever read. The physical realities, cosmic perspectives, and dynamics involved, are all addressed. Rapid climate changes, galactic and solar cycles, volcanism, ice ages, and magnetic reversals are touched upon in a rich and concise way. *Gaia Luminous* goes to the very heights and depths of what this great change is all about. ~ Barry Martin Snyder, *Birthing the Luminous Self* This remarkable book showcases Kiara’s extraordinary ability to integrate, summarize and structure a vast range of topics from deeply spiritual teachings to the latest discoveries in science. Kiara brilliantly and eloquently connects the dots, and presents clear and practical solutions for these complex and precarious times. ~ Yves Nager, *Find your Life Purpose* For those who are consciously aware of the challenging implications of these times, and seek both cosmic perspectives and spiritual guidance, *Gaia Luminous* is an invaluable resource of scholarly and balanced investigation, combined with profound personal experience. ~ Simon Peter Fuller, *Rising out of Chaos* Kiara Windrider serves up a full course of scientific inquiry, evolutionary thinking and sacred insights from a wide variety of traditions. This thrilling read feeds our sense of the possible and activates our commitment to a bold new vision for humanity. ~ James O'Dea, *The Conscious Activist*
