

Difference Between Hindu And Buddhism

Dharam Vir Mangla

Buddhism Vs Hinduism Dharam Vir Mangla,2010 This book informs us about the basic essence of Buddhism in comparison to Hinduism. It is essential to start with the first chapter to understand the correct meaning of the basic spiritual terms used in this book. In most of the books spiritual terms may have been used differently. Many people think and propagate that all religions basically teach the same, and have same objectives, but may have different paths. But in fact, there are basic philosophical contradictions. Unless we understand these differences properly and try to remove them, the unity of all the religions may not be achieved. The aim of this book is understand the essence of Buddhism and its differences with Hinduism, if any. Why and how it spread in most of the countries? Why and how in India Buddhists adopt to Hinduism later? Basically Buddhism evolved from Hindu Dharma as Buddha was a Hindu. But he discarded God, soul, Scriptures and Brahmanism. More or less it was a contrast to Hinduism. Buddha has been controversial and misunderstood by many. Many people think that Buddha was an incarnation of Lord Vishnu and his enlightenment was "Self-realization or God-realization". But this does not seem to be correct. Is it not ridiculous to call some one as an Avatara of God, if he doesn't believe in God? The book clarifies the difference between 'Moksha & Nirvana' and 'Buddhist and Hindus meditations', which in fact differ in many respects. Author has also compared two more religions Jainism & Islam with Buddhism and Hinduism. But the comparison has been limited only up to philosophical level and not about traditional differences. Author has due respect to all the religions.

The Meaning of Life in Hinduism and Buddhism Floyd H Ross, 2013-05-13 Originally published in 1952. This volume, by discussing significant insights of Hinduism and Buddhism, answers the question What is the meaning of life? It illustrates the importance of Buddhist and Hindu teachings and their relevance to the West, as well as clarifying some of the religious and philosophical problems Western readers must grapple with.

Hindu Nationalism, History and Identity in India Lars Tore Flåten, 2016-10-04 When the Hindu nationalist Bharatiya Janata Party (BJP) assumed power in India in 1998 as the largest party of the National Democratic Alliance, it soon became evident that it prioritized educational reforms. Under BJP rule, a reorganization of the National Council of Educational Research and Training occurred, and in 2002 four new history textbooks were published. This book examines the new textbooks which were introduced, considering them to be integral to the BJP's political agenda. It analyses the ways in which their narrative and explanatory frameworks defined and invoked Hindu identity. Employing the concept of decontextualization, the author argues that notions of Hindu cultural similarity were conveyed, particularly as the textbooks paid scarce attention to social, geographical and temporal contexts in their approaches to Indian history. The book shows that intrinsic to the textbooks' emphasis on similarity is a systematic backgrounding of any references to internal lines of division within the Hindu community. Through a comparison with earlier textbooks, it sheds light on the contested nature of history writing in India, especially in terms of nation building and identity construction. This issue is also highly relevant in India today due to the electoral success of the BJP in 2014, and the efforts of the Hindu nationalist organization Vishwa Hindu Parishad to construct a coherent Hinduism. Arguing that the textbooks operate according to the BJP's ideology of Hindu cultural nationalism, this book will be of interest to academics in the field of South Asian studies, contemporary history, the uses of history, identity politics and Hindu nationalism.

Buddhism and Hinduism (a Comparative Study) Dharam Vir Mangla, 2018-12-26 This book is a rare attempt and a masterpiece, which helps us to understand better the religions like Buddhism, Jainism, Islam and Hinduism. Most of us absurdly think that all the religions are same, teaches same and have different paths to follow. Many of us wrongly believe that all religions and their founders believe in God, soul, Scriptures and Moksha. Many think that all the Shrines, Stupas and Temples are the place of worship of God. This book reveals that the truth is opposite to our common belief. Due to lack of the

knowledge of spiritual terms, most of the authors are confusing the readers by misusing the spiritual terms. This book reveals the correct meaning and the differences between the terms like Dharma--Religion--Non-religion; Avatara--Saint; Self-realization--Enlightenment--Awakening; Scriptures--Ordinary Books; Logic--Illogic; Mindfulness--Mindlessness; Spiritual--Atheist; Moksha--Nirvana--Liberation etc. All these terms appear alike and are confusing to a layman, but this book clarifies the difference between them. Most of the religions are propagating their contradictory doctrines, which are logically untenable. At least one of the doctrines must be incorrect. Some of the religions and their heads are tempering their Holy-Books by deleting, editing and adding something; and propagating their founders as God or Lord, while their founders have clearly declared that they are ordinary man or a saint or a 'son of God' or an atheist or a non-believer of God. Many religions are busy in constructing unnecessarily their huge Shrines with an enormous expenditure in the memory of their founders, where God is not worshiped. But a common man generally misunderstood these as a place of worship of God. It is an extraordinary unique spiritual book to throw light on such attempts. It is strange that some non-religions, which do not believe in God, Spirit and soul, are declaring their founders and heads as most spiritual in the world. Can anybody, who does not believe in Spirit or God or does not seek to know the Spirit be called spiritual? This is a book, which clarifies the most of our inner confusions. Author is M.Sc. M.Ed. PGDCA, retired Principal got his master's degrees from University of Delhi. He is religious and extraordinary combination of spiritual and scientific bent of mind. He is practicing 'Kriya Yoga' since 1969 & has opportunity of the company and blessings of great saints. He has devoted his life in the pursuit of God, spiritual studies and yoga. His books are rare masterpieces based upon his spiritual inner experiences and vast studies, which are useful for both believers and non-believers. His writings are commendable research work and a reservoir for further spiritual researches. At the time of King Ashoka, all Hindus accepted Buddhism to save themselves from the clutches of cruel Ashoka. But later about 7th to 8th century A.D. a great saint Adi-Shankara reconverted Buddhist back to Hinduism without any atrocities or cruelty, He left his adobe at an early age of about 32 years. Both Buddhism and Jainism are different Mat (opinion) under Hinduism and not separate Dharma. Dharma has come from God Himself, but all Religions, Mat, Dal, Sampardaya, Samaj etc. are man made and have their founders, but no super mind Super-Scriptures. Book explains no human-power has any authority to restrict or ban the birth of Almighty God on earth. Has any body ever proved that God can't take birth on earth? Even the religion like Christianity are now falsely declaring Christ as an avatar of God, although Christ himself denied so many times in his life that he was not God and Christianity has been affirming for the last 2000 yrs. that God can't take birth on earth. But now Christianity is tempering Bible and propagating false.

Discerning The Buddha: A Study Of Buddhism And Of The Brahmanical Hindu Attitude To It Lal Mani

Joshi,2008-01-01 Description: Modern enlightened Hindus wedded to the Vaidika/Sanatana Dharma tradition hold that the Buddha was a Hindu reformer, Buddhism a Hindu sect; that original Buddhist teaching was Vedantic or Hinduistic, and that the Buddhists have misunderstood the fulfilment of the Hindu religion and distorted the original teachings of the Great Master! On the other hand, stalwarts like Swami Vivekananda and Sarvapalli Dr Radhakrishnan also say that the Buddha is one of the makers of Hinduism. The former even said that the Buddha was the greatest Hindu seer, philosopher, Vedantin, Karmayogin, and the only God who walked on the earth. Satkari Mookerjee has declared that every Hindu is a Buddhist. The Puranas inform us that the son of Suddhodana, born among the non-Aryan tribe of Kikatas, was no other than the Supreme Lord Visnu who had assumed a false avatara for the sole purpose of misleading demons! This Incarnation of God had criticised the Vedas, opposed the sacred Vedic ceremonies, and questioned the supremacy of the Brahmanas. The present book attempts an analysis and a systematic study of the traditional Brahmanical now called Hindu attitude to Buddhism in India. The bulk of the volume, however, is devoted to an exposition of the fundamental doctrines of Buddhism in the Indian context. The evolution of Hinduism, the differences between Buddhism and Brahmanism/Hinduism, the differences between the ancient and medieval representatives and modern representatives of the Brahmanical tradition to Buddhism, Buddhist responses to this modern Hindu attitude, and a review of Buddhist contributions to Indianism, are some of the subjects discussed in this book. One of the most important parts of the book deals with what the author has called God's Alternative in Buddhism. An outline of Buddhology as a systematic study of the idea of Buddhahood, is one of the new themes discussed here.

Recentering Southeast Asia Himanshu Prabha Ray, 2024-11-19 This book assesses the impact of European colonization in the late 19th and early 20th century in 'restructuring' the shared past of India and Southeast Asia. It provides case studies that transcend colonial constructs and adopt newer approaches to understanding the shared past. The authors explore these developments through the lens of political figures like Jawaharlal Nehru (1889–1964) and re-examine themes such as the Greater India Society (1926–1959) established in Calcutta, and the role of Buddhism in post-World War II connections, as the repatriation of the mortal remains of Japanese soldiers killed in Burma (Myanmar) acquired urgency. Drawing on a diverse range of sources including archaeology, Buddhist texts, the afterlives of the Hindu temples, maritime networks, and inscriptions from Vietnam and central India, the book will be an essential read for scholars and researchers of history, Buddhism, archaeology, heritage studies, cultural studies, and political history as well as South and Southeast Asian history.
