Geographies of Mediterranean Europe Rubén Camilo Lois-González, 2020-12-11 This edited volume highlights the geographies of six European Mediterranean countries: France, Spain, Italy, Portugal, Turkey and Greece. The book provides a balanced overview on what the geographers of these six countries have investigated and reflected in recent decades. This thematically arranged book takes into account the national differences of the authors, but also highlights the main contributions of Mediterranean geographies on a global scale. It reinforces a perception of common problems and debates in Southern Europe. This book appeals to the institutionalized geographical community of Mediterranean countries but also to a global audience of scholars of geography, territorial and spatial studies, social sciences and history.

Placing Critical Geography Lawrence D. Berg, Ulrich Best, Mary Gilmartin, Henrik Gutzon Larsen, 2021-11-29 This book explores the multiple histories of critical geography as it developed in 14 different locations around the globe, whilst bringing together a range of approaches in critical geography. It is the first attempt to provide a comprehensive account of a wide variety of historical geographies of critical geography from around the world. Accordingly, the chapters provide accounts of the development of critical approaches in geography from beyond the hegemonic Anglo-American metropolises. Bringing together geographers from a wide range of regional and intellectual milieus, this volume provides a critical overview that is international and illustrates the interactions (or lack thereof) between different critical geographers, working across a range of spaces. The chapters provide a more nuanced history of critical geography, suggesting that while there were sometimes strong connections with Anglo-American critical geography, there were also deeply independent developments that were part of the construction of very different kinds of critical geography in different parts of the world. *Placing Critical Geographies* provides an excellent companion to existing histories of critical geography and will be important reading for researchers as well as undergraduate and graduate students of the history and philosophy of geography.

Geopolítica de Armenia Adolfo Koutoudjian, 2017-11-23 Adolfo Koutoudjian analiza la problemática política que se plantea al pueblo armenio dentro de los territorios de Armenia y Karabagh, a partir de la desaparición de la Unión Soviética. El autor estudia las características geopolíticas de este país, su entorno y la estrategia de ruptura del bloqueo que padece a causa de Azerbaiján y Turquía; parte de los orígenes de su constitución, describe sus vicisitudes territoriales; el dominio

turco-tártaro, luego turco-persa y su anexión a Rusia en 1813, para terminar con la propuesta de posibles alternativas al futuro armenio.

Decline of the U.S. Hegemony? Bruce M. Bagley, Magdalena Defort,2015-07-01 This book analyzes ALBA's structure and dynamics, its practicality, its medium and long-term sustainability, and its capacity to influence regional and international affairs. The work examines ALBA's possible economic and security consequences for neighboring non-member states in the region, particularly the United States, as well as other key actors such as China, Russia, and Iran. The volume analyzes the origins, ideological orientation, structure, internal dynamics, and evolution of the ALBA initiative and its regional and international implications during its first decade of existence. It is the first comprehensive work on the subject with a multi-disciplinary perspective and it provides an analysis of the new regional, Bolivarian Alliance initiative in Latin America and its relation to the international system. The volume includes studies on the Bolivarian Alliance and Chavismo under Hugo Chávez Frías' leadership. As a whole, this volume weaves together such crucial issues as oil politics, drug-trafficking, hemispheric security, and trade.

Bicentenario, modernidad y posmodernidad. Argentina ante los desafíos del tercer Siglo Ricardo Lafferriere,2010-05-28 La Argentina comienza su tercer siglo de vida frente a una encrucijada. Puede tomar dos caminos. Uno la llevará a vincularse al mundo, compartiendo las gigantescas posibilidades de la portentosa revolución científico técnica del siglo XXI. El otro, la mantendrá en la grisitud y la medianía en la que vivió durante el siglo XX. Ambos están a su alcance. Debe decidir cuál tomar. Esta obra comienza sobrevolando la historia de la Argentina hasta comienzos del siglo XXI, pasa revista a los desafíos internos y externos que el nuevo paradigma global instala en el mundo, y sugiere las metas. En el medio, un nuevo ethos político surge como imprescindible: consensos estratégicos, visión cosmopolita, actitud reflexiva y los caminos para las dos grandes deudas del siglo XX: recuperar la capacidad de crecimiento e incluir en él a todos los ciudadanos. Una obra necesaria para el debate imprescindible.

Living the Death of Democracy in Spain Susana Belenguer, Ciaran Cosgrove, James Whiston,2017-10-02 This volume brings together new interdisciplinary perspectives on the Spanish Civil War, its victims, its contentious ending, and its aftermath. In exploring the slow demise of the Spanish Republic and the course of the Civil War, the authors have chosen to range in turn over cinematic, literary and historical depictions of the era. In addition, reactions elsewhere in Europe to the Spanish conflict are examined; the role of the International Brigades is looked at afresh; the fate of children displaced during the Civil War is explored; and the Spanish anarcho-syndicalist movement is revisited. The volume shows that to be any kind

of soldier in the armies of the Republic, or even to be seen as a Republican sympathiser, was to become a non-person in the new order in Spain under Franco, and sets what supporters of the Republic had to endure within the wider European and international context of the period. This book offers timely fresh insights into the failure of the Spanish Republic and into a society that tried in vain to unite its divided people during what was a seismic era in Spain's history. This book was originally published as a special issue of Bulletin of Spanish Studies.
