

Epidemia Zombie In Arrivo 2023

Zachary A. Recht

Just Another Day in the Zombie Apocalypse L. C. Mortimer, 2019 The disease takes the world by storm. Ravaging the living, it takes no survivors. The end of the world comes swiftly and silently without much noise or fuss. It sneaks up on a group of neighbors who must bind together in order to survive. Alice is caught by surprise when the dead begin to rise. She's a paralegal: not a warrior. She's comfortable with paperwork and filing, but killing? That's not exactly in her job description. Soon Alice learns there's more to the end of the world than fighting the undead, though, and she realizes that if she's not careful, her companions are going to learn her secret. Mark is a soldier. He thought he'd left the pain of war behind, but now he knows that soldiers never really leave the battlefield. Even when your physical wounds heal, there's always some remnant of horror left behind. There's always something terrifying you. Kyle isn't afraid of the dark. At least, that's what he tells himself. He's an IT guy. He's not a fighter. He has no place in the zombie apocalypse, so he has to craft one for himself. Together, they'll make or break their own survival. Together, they'll figure out whether or not they can make this work. After all, it's just another day in the zombie apocoyse.--Back cover.

Plague of the Dead Z. A. Recht, 2006-12 The end begins with a viral outbreak unlike anything mankind has ever encountered before. The infected are subject to delirium, fever, a dramatic increase in violent behavior, and a one-hundred percent mortality rate. Death. But it doesn't end there. The victims return from death to walk the earth. When a massive military operation fails to contain the plague of the living dead it escalates into a global pandemic. In one fell swoop, the necessities of life become much more basic. Gone are petty everyday concerns. Gone are the amenities of civilized life. Yet a single law of nature remains: Live, or die. Kill, or be killed. On one side of the world, a battle-hardened General surveys the remnants of his command: a young medic, a veteran photographer, a brash Private, and dozens of refugees, all are his responsibility-all thousands of miles from home. Back in the United States, an Army Colonel discovers the darker side of Morningstar virus and begins to collaborate with a well-known journalist to leak the information to the public... The Morningstar Saga has begun.

Zombie Escape Ee Isherwood, 2018-07-17 Death walks on a billion legs The world of zombies has reached a tipping point. The cure is out there, but can it be unlocked before the number of infected swells beyond counting? Liam and his girlfriend climb out of the Mississippi River after having survived twenty days of the zombie apocalypse. Their many adventures while

looking for the cure could probably fill a book. However, today, only one thing matters to them: escaping the horde. Marty Peters is also on the run nearby, but the horde is not after her. She is pursued by just one zombie. It doesn't sound like much, but the fear is every bit as real, because it also happens to be her son. Liam and Marty must find ways to evade the looming zombie threats in the nearby farmlands, but ultimately their only hope is to find each other. Each of them contains biometric data necessary to unlock the ultimate cure. That salvation is three states over and beyond cities full of zombies. They'll be pursued the whole way. Let the escape begin. --- This book was originally published as a standalone. Due to reader demand, I've re-labeled the story as book 7, putting it where it belongs in the journey started in book 1, Since the Sirens.

Resurrection Michael J. Totten, 2017 Welcome to a world turned to ashes. Annie Starling is missing her memory of the last eight weeks--the most devastating in history. It started in Russia and went global in a matter of days, the most virulent virus the world has ever known. It's stripping its victims of every last thing that makes them human. And that's just the beginning. The other survivors are no less dangerous than the infected. She meets Lane, who stops at nothing to assert power and control over everybody who's left; Kyle, who dreams of building a new world upon the ruins of the old; Hughes, who lost the ability to feel after burying his family; and Parker, who threatens to tear himself and his companions apart. And when her memories finally return, Annie discovers a terrifying secret that could change everything--but she can't tell a soul what it is.

Zombie Island David Wellington, 2012-01-10 Un mes después del desastre global, las naciones más desarrolladas del mundo han sucumbido a las masas de zombies. En Nueva York los muertos han tomado las calles, empujados por un hambre insaciable de cualquier ente vivo. Desde la otra parte del planeta, un pequeño grupo de colegialas soldado armadas hasta los dientes, guiadas por un ex inspector de armamento de la ONU, se dirige a la ciudad en busca de un medicamento que necesitan desesperadamente. Creen estar preparadas para todo. Pronto descubrirán que hay algo peor que los muertos.

Dead City Joe McKinney, 2010 Battered by five cataclysmic hurricanes in three weeks, the Texas Gulf Coast and half of the Lone Star State is reeling from the worst devastation in history. Thousands are dead or dying - but the worst is only beginning. Amid the wreckage, something unimaginable is happening: a deadly virus has broken out, returning the dead to life - with an insatiable hunger for human flesh ... The Nightmare Begins Within hours, the plague has spread all over Texas. San Antonio police officer Eddie Hudson finds his city overrun by a voracious army of the living dead. Along with a small group of survivors, Eddie must fight off the savage horde in a race to save his family ... There's no place to run. No place to hide. The zombie horde is growing as the virus runs rampant. Eddie knows he has to find a way to destroy these walking horrors ... but he doesn't know the price he will have to pay ...--Amazon.

Dead Aware Eleanor Merry, 2019-08-11 Fever-Induced Rapid Encephalitis; AKA, FIRE. This is the name humanity gave for the virus that covered the globe within days; a highly contagious disease that first seemed to be a run of the mill flu but soon turned into something much more sinister. When Max and Clara Jacobs married 20 years ago, they promised to love each other until death did them part. But what happens after that? The devoted couple are at opposite ends of the country when the FIRE virus sweeps across Canada, making zombies of a third of the victims. Waking after death, Max and Clara must learn to accept their new forms and navigate a chaos-ridden world filled with people who are out to get them. *Dead Aware* is a post-apocalyptic novel written mostly from an undead point of view. Motivated by love, this is a story of death, adventure, acceptance...and zombies.
