The scientific dialogue linking America, Asia and Europe between the 12th and the 20th Century. Fabio D'Angelo, 2018-06-11 The first volume of Viaggiatori "Curatele" series seeks to recreate some scientific dialogues, namely meetings, exchanges and acquisition of theoretical and practical scientific knowledge, thus linking the cultural, historical and geographical context of America, Asia, Europe and Mediterranean Sea between the 16th and the 20th century. More specifically, the main objective is to consider the role of travellers as passeurs, as "intermediaries" for building and allowing the circulation of knowhow and the practical and theoretical knowledge from one continent to another.
