Contemporary Accounting: A Strategic Approach for Users 10e Phil Hancock, Peter Robinson, Mike Bazley, 2019-09-30 Now in its tenth edition, Contemporary Accounting: A Strategic Approach for Users is designed for one-

semester introductory accounting courses at undergraduate or MBA level, for both accounting and non-accounting majors. The text has been updated throughout to strengthen the content for first-year students, and to integrate financial and management accounting. Associate Dean Phil Hancock (UWA) and Assistant Professor Peter Robinson (UWA) have worked together to add three new, online-only (MindTap) financial accounting chapters that bridge the gap between assumed and actual knowledge, and have redesigned the pedagogical features to make the text friendlier to first-year learners. It has also been appropriately updated for currency, including an extract from the Annual Report of Woolworths Limited for the year ending 30 June 2018 as an appendix. Premium online teaching and learning tools are available on the MindTap platform. Learn more about the online tools cengage.com.au/mindtap

2004 Original Pronouncements Financial Accounting Standards Board (FASB), 2004-08-30 These annual resources, intended for use in an Intermediate, Advanced, or Accounting Theory course, contain all the original pronouncements put forth by the FASB and AICPA. * Shading and sidebars alert readers when standards have been amended or superseded * Status pages identify source of any changes, other pronouncements affected, and principal effective date * EITF issues are cross-referenced to related pronouncements

Contemporary Accounting: A Strategic Approach for Users 11e Phil Hancock, Peter Robinson, Mike Bazley, 2024-08-01 Now in its eleventh edition, *Contemporary Accounting: A Strategic Approach for Users* provides an excellent overview of the accounting function in business for non-accounting majors, and the approach taken to financial accounting provides a solid foundation on which accounting majors can better understand the bookkeeping function. The objective is to convey an understanding of accounting, both financial accounting and management accounting, without introducing unnecessary technical terminology and procedures. Building on basic concepts, it provides a clear understanding of financial statements, their uses, and limitations. In this edition, the authors have worked to add content that expands coverage of ethics, sustainability, and corporate governance. Financial accounting chapters bridge the gap between assumed and actual knowledge, and the pedagogical features make the text friendlier to first-year learners. Premium online teaching and learning tools are available on the MindTap platform. Learn more about the online tools cengage.com.au/mindtap.

Management Accounting and Control Michel Charifzadeh, Andreas Taschner, 2017-10-30 Management accounting has been the basic toolbox in business administration for decades. Today it is an integral part of all curricula in business education and no student can afford not to be familiar with its basic concepts and instruments. At the same time, business in general, and management accounting in particular, is becoming more and more international. English clearly has evolved as the lingua franca of international business. Academics, students as well as practitioners exchange their views and ideas, discuss concepts and communicate with each other in English. This is certainly also true for management accounting and control. Management Accounting is becoming more and more international. ?Management Accounting and Control? is a new

textbook in English covering concepts and instruments of management accounting at an introductory level (primarily at the Bachelor level, but also suited for general management and MBA courses due to a strong focus on practical relevance). This textbook covers all topics that are relevant in management accounting in business organizations that are typically covered in German and Central European Bachelor courses on management accounting and control. After a general introduction to the field of management accounting and control the book discusses cost management as an extension of cost accounting. Typical cost management instruments such as target costing, life cycle costing and process-based costing approaches are explained in detail. Differences between Anglo-American activity-based costing (ABC) and German process-based costing are highlighted. The book then turns to an extensive discussion of planning and budgeting tasks in management accounting with a strong focus on the practical application of the topic such as developing a budget in practice. Another chapter is dedicated to a comparison of traditional budgeting with modern /alternative budgeting approaches. A major part of the book is dedicated to the broad area of performance management. The relevance of financial statement information for performance management purposes is discussed in detail. In addition, the most widely spread financial performance indicators are illustrated using real-world examples. The book also includes detailed content on value-based management control concepts. In a consecutive chapter, performance measurement is linked with strategy while extensively discussing the Balanced Scorecard as a key tool in strategic performance management. The remaining parts of the book deal with management reporting as one of the main operative tasks in management accounting practice. The book closes with insight into new fields and developments that currently influence management accounting practices and research and promise to play an increasingly important role in the future.
