

Nur Wer Die Sehnsucht Kennt Text

Great Britain. Parliament. House of Commons

Feuer Und Eis James Vernon Ivey IV, 2018-08-16 This text examines the confluence of Schubert's compositions, mental state, and illness during the twilight of his life. The author goes into depth, especially concerning the Goethe songs of Mignon and Winterreise. By probing into the mind of composer, along with textual and musical analysis, we can understand the conflicts and dualities within the man and his music.

Musical Topics and Musical Performance Julian Hellaby, 2023-01-31 The principal purpose of topics in musicology has been to identify meaning-bearing units within a musical composition that would have been understood by contemporary audiences and therefore also by later receivers, albeit in a different context and with a need for historically aware listening. Since Leonard Ratner (1980) introduced the idea of topics, his relatively simple ideas have been expanded and developed by a number of distinguished authors. Topic theory has now become a well-established branch of musicology, often embracing semiotics, but its relationship to performance has received less attention. Musical Topics and Musical Performance thus focuses on the interface of theory and practice, and investigates how an appreciation of topical presence in a work may prompt interpretative thoughts for a potential performer as well as how performers have responded to such a presence in practice. The chapters focus on music from the nineteenth, twentieth and twenty-first centuries with case studies drawn from composers as diverse as Beethoven, Scriabin and Péter Eötvös. Using both scores and recordings, the book presents a variety of original and innovative perspectives on the subject from a range of distinguished authors, and addresses a neglected area of musicology and musical performance.

Text and Music David W. Patterson, 1988

The Lied at the Crossroads of Performance and Musicology Benjamin Binder, Jennifer Ronyak, 2024-02-07 There seems to be an essential relationship between the performance and the scholarship of the German Lied. Yet the process by which scholarly inquiry and performative practices mutually benefit one another can appear mysterious and undefined, in part because any dialogue between the two invariably unfolds in relatively informal environments – such as the rehearsal studio, seminar room or conference workshop. Contributions from leading musicologists and prominent Lied performers here build on and deepen these interactions to reconsider topics including Werktreue aesthetics and concert practices; the authority of the composer versus the performer; the value of lesser-known, incomplete, or compositionally modified songs;

and the traditions, habits and prejudices of song recitalists regarding issues like transposition, programming and dramatic modes of presentation. The book as a whole reveals the reciprocal relevance of Lied musicology and Lied performance, thereby opening doors to fresh and exciting modes of interpretative artistry and intellectual discovery.

Johann Wolfgang Von Goethe Texas Tech University. Interdepartmental Committee on Comparative Literature,1984
Johann Wolfgang von Goethe: One Hundred and Fifty Years of Continuing Vitality is a collection of several lectures from the Fifteenth Annual Comparative Literature Symposium held in 1982. These lectures are based on the analysis of various aspects of the poetic works of Johann Wolfgang von Goethe. The theme of Goethe's continuing vitality in world literature emphasizes the complex relationship between the influence that aroused and inspired him and the influence that, in turn, he exerted on others in literature and music.
