*Using Web 2.0 and Social Networking Tools in the K-12 Classroom* Beverley Crane,2012-04-30 Here's a book that describes Web 2.0 tools in-depth, models Web 2.0 tools through classroom examples, explains how to get started with each tool, presents practical unit plans illustrating the use of Web 2.0 in the K-12 content-area curricula, and identifies and describes what tools are most useful to educators for networking, productivity and insight into the technologies. Part 1 of each chapter answers many questions you will have about Web 2.0 and social networking tools: What is the tool? Why use it with students? How are K-12 classrooms using the tool? Can you provide me with specific examples for my science, history,

or language arts curriculum? Part 2 describes specific tools and the steps to get started. Part 3 contains a detailed sample unit plan, teacher exercises and a summary following. Screen shots of websites are used to make the advice straightforward and easy to understand. You'll find an entire chapter on special instruction for ESL students with objectives, tools, and K-12 classroom examples. To help you implement Web 2.0 tools beyond the curriculum, there's even a chapter devoted to technology tools specifically designed for teachers and librarians to use for personal productivity, communication, and collaboration. The conclusion offers ideas for integrating Web 2.0 in art, music, and health. Exciting examples of the book's contents include: Collaborating and Communicating with Blogs Creating Multidisciplinary Wikis Google Tools: Enhancing Instruction in the Science Curriculum K-12 Classrooms Join the Social Networking Revolution Using VoiceThread and Video to Improve Language Development Creating Community In addition to the great content you'll find in the book, Using Web 2.0 and Social Networking Tools in the K-12 Classroom features a companion Web site that provides the most current curriculum examples from pioneering educators around the world, as well as up-to-date exercises and lessons in subject areas and grade levels.

Working Together Mandy Brent,Chris Millgate-Smith,2009-01-01 Working Together: Linking skills and curriculum for adolescents with a Language Learning Disability is a must-read book for busy classroom teachers who sometimes see the needs of students with language and learning difficulties as just too hard to cater for. A working collaboration between secondary teacher, Chris Millgate-Smith, and speech pathologist, Mandy Brent, this book clearly illustrates how mainstream curriculum can be differentiated for the benefit of all students with a Language Learning Disability (LLD).

Transiciones Todd Ruecker,2015-02-15 Transiciones is a thorough ethnography of seven Latino students in transition between high school and community college or university. Data gathered over two years of interviews with the students, their high school English teachers, and their writing teachers and administrators at postsecondary institutions reveal a rich picture of the conflicted experience of these students as they attempted to balance the demands of schooling with a variety of personal responsibilities. Todd Ruecker explores the disconnect between students’ writing experiences in high school and higher education and examines the integral role that writing plays in college. Considering the almost universal requirement

that students take a writing class in their critical first year of college, he contends that it is essential for composition researchers and teachers to gain a fuller understanding of the role they play in supporting and hindering Latina and Latino students' transition to college. Arguing for situating writing programs in larger discussions of high school / college alignment, student engagement, and retention, *Transiciones* raises the profile of what writing programs can do, while calling composition teachers, administrators, and scholars to engage in more collaboration across the institution, across institutions, and across disciplines to make the transition from high school to college writing more successful for this important group of students.
