

Radio France International Hausa

Dodo Boukari Abdou Karimou

International Communication Daya Kishan Thussu, 2018-12-27 The third edition of International Communication examines the profound changes that have taken place, and are continuing to take place at an astonishing speed, in international media and communication. Building on the success of previous editions, this book maps out the expansion of media and telecommunications corporations within the macro-economic context of liberalisation, deregulation and privatisation. It then goes on to explore the impact of such growth on audiences in different cultural contexts and from regional, national and international perspectives. Each chapter contains engaging case studies which exemplify the main concepts and arguments.

Mediatized China-Africa Relations Shubo Li, 2017-10-24 This cutting edge book explores the role of the media in the highly disputed area of China-Africa relations, notably how various aspects of the issue have been portrayed, negotiated and contested in media and academic discourses. As Africa's biggest trading partner and creditor, China explores Africa not only as a marketplace for importing primary commodities and exporting manufactured goods, but also as a preferred testing ground for its media and telecommunication sector aspiring for further internationalization. At a time when the influence from Global North has been on the wane in the continent, emerging powers are regarded as new inspirations for Africa's development. China in particular tries to bolster multipolarity in Africa by factoring in media influence and facilitating the digitalization process of the continent. This book offers an up-to-date geopolitical analysis of China-Africa, examining the role of communication and telecommunication in the power shift, especially in constructing social and cultural realities in which the idea of "development" has been recurrently redefined and negotiated in the public domain. This volume tackles the issue from the new perspective of mediatization, considering how the media on the one hand shapes public opinion with its narratives and a logic of its own, and on the other hand simultaneously becomes an integrated part of other institutions like politics, trade, business as more of these institutional activities are performed through both interactive and mass media.

Karimou,2021-05-25 De l'indépendance du Niger à la visite d'Emmanuel Macron en 2019, cet ouvrage dresse le bilan complet de plus d'un demi-siècle de relations de coopération entre la France et le Niger. L'auteur montre bien que le paradigme théorique des relations privilégiées mais asymétriques entre « Etat Patron » et « Etat client », qui a longtemps caractérisé la relation entre ces pays, est appelé inéluctablement à évoluer. Il propose une nouvelle approche de cette coopération, plus volontariste et mieux équilibrée dans le cadre d'un nouveau partenariat gagnant-gagnant.
