Out of the Darkness Robert McKee, 2017 As the old ways of the nineteenth century fade, *Out of the Darkness* tells a story that touches on the themes and issues America will face in the new century that looms ahead. It is a story of technology and its place in society. It is a story of violence, a doctor's responsibility to his patient, and a lawyer's responsibility to his client. It is a story of forbidden love, and a story of a timid, terrified young woman's finding her courage. It questions humankind's ability and willingness to be a contributor in the quality and course of its own evolution. Ultimately, *Out of the Darkness* takes a look at what sort of people will populate a new age, and what sort of people will, inevitably, be left behind.

The Caterpillar Factory Vyvyan Kinross, 2013-04-25 The Caterpillar Factory offers a unique insider's account of the approach, skills and processes needed to build a successful career in today's booming PR business. It sets out the links in the PR business chain, from the basic consultancy model to winning new clients, and from exploiting the news agenda to preparing clients for a successful media interview. 'The caterpillar does all the work, but the butterfly gets all the publicity'. This quote, from American comedian George Carlin, provides the central motif for the book, which is a must-read for all students of public relations and communications who want to become successful PR advisors and consultants. It is a technical book packed with theory, practice, examples and exercises but set out in an accessible way, using frontline experience and examples to drive the narrative. Drawing on a rich variety of sources, it gives the inside track on the applied business of public relations in the agency and workplace setting, explaining what consultancy really means and showing how to go about the process of attracting and winning new business. These steps are followed by chapters that unlock the world of media relations, from how to plan and manage media campaigns, structure and pitch effective news releases, broaden coverage through features and show clients how to become effective spokespeople. The book offers a perspective on the science of applied social psychology that drives modern public relations, shares techniques to launch new products and sets out a structure for winning proposals and rules on writing style. Along the way, it provides pen portraits of the great pioneers of PR, 'engineers of consent' such as Edward L Bernays and Ivy Ledbetter Lee and offers a glimpse into the lifestyle of today's caterpillar in a busy agency. Much of the content of The Caterpillar Factory has been tested with hundreds of trainees and it is designed to be a valuable addition to the knowledge and skills base of all PR students.

Robert Lepage / Ex Machina James Reynolds, 2019-02-07 Robert Lepage/Ex Machina: Revolutions in Theatrical Space provides an ideal introduction to one of our most innovative companies – and a much-needed and timely reappraisal of Lepage's oeuvre. International, interdisciplinary and intercultural to the core, Ex Machina have negotiated some of the most complex creative and cultural challenges of our time. This book maps the story of that journey by analysing the full spectrum of their richly varied work. Through a comprehensive historiography of productions since 1994, Robert Lepage/Ex Machina offers a detailed picture of the relationship between director and company, while connecting Ex Machina to culturally specific features of Québec, and its theatre. This book reveals for the first time how overlooked aspects of creativity and culture shaped the company's early work, while installing a dynamic interplay between director and company that would spark a unique and ongoing evolution of praxis. Central to this re-evaluation of practice is the book's identification of an architectural aesthetic at the heart of Ex Machina's work, an aesthetic which provides its artistic and political centres of gravity. Moreover, this architectural aesthetic powers the emergence of concrete narrative as a new and distinctive mode of theatrical storytelling – uniting story and space, body and technology, content and form – and demanding that we discover the politics of these performances in the energetic gestures of theatre design, and space itself. Drawing on extensive interviews with Lepage, Ex Machina personnel and collaborative partners, Robert Lepage/Ex Machina calls upon us to revise both our creative and critical perceptions of this vital and distinctive practice.

Don't Be Such a Scientist Randy Olson, 2010-05-17 Drawing on his own hilarious—and at times humiliating—evolution from science professor to Hollywood filmmaker, Olson shares the secrets of talking substance in an age of style. The key, he argues, is to stay true to the facts while tapping into something more primordial, more irrational, and ultimately more human. In a book enlivened by profane acting teachers and earnest scientists, serious insights and poignant stories, Olson

walks the walk. You'll laugh, you may cry, and you'll certainly learn how to communicate critical scientific and environmental issues using your heart as well as your head.
