Basque History Of The World Mark Kurlansky,2011-03-11 They are a mythical people, almost an imagined people, writes Mark Kurlansky. Settled in a corner of France and Spain in a land marked on no maps except their own, the Basques are a nation without a country, whose ancient and dramatic story illuminates Europe's own saga. Where did they come from? Signs of their civilization exist well before the arrival of the Romans in 218 B.C., and their culture appears to predate all others in Europe. Their mysterious and forbidden tongue, Euskera, is related to no other language on Earth. The Basques have stubbornly defended their unique culture against the Celts, the Romans, the Visigoths and Moors, the kings of Spain and France, Napoleon, Franco, the modern Spanish state, and the European Union. Yet as much as their origins are obscure, the Basques' contributions to world history have been clear and remarkable. Early explorers, they made fortunes whaling before the year 1000 and became the premier cod fishermen in Europe after discovering Canada's Grand Banks. Juan Sebastian de Elcano, a Basque, was the first man to circumnavigate the globe in 1522. Their influence has also been felt in religion as founders of the Jesuits in 1534, and in business, as leaders of the Industrial Revolution in southern Europe. Mark Kurlansky's passion for the Basque people, and his exuberant eye for detail, shine throughout this fascinating history. Like his acclaimed *Cod*, it blends human, economic, political, literary and culinary history into a rich and heroic tale.

Before Babel Joseba Gabilondo,2016-04-01 *Before Babel: A History of Basque Literatures* is the first book written originally in English and directed towards a global audience. It is also a new departure from traditional literary histories, as it is not a philological tedious classification of centuries, authors, genres, and books published in Basque. This book addresses

the historical conflict and violence that define Basque history and culture, and so it defines Basque literary history as that of at least two literatures: one expressed by Basque subaltern (oppressed) classes in their language, euskara, which mainly constitutes an oral tradition, and the other written by Basque elites in Spanish, Latin, French, etc. The book emphasizes that this double literature remains at the core of the Basque Country's history and culture to our days. Even today Basque literature in euskara (Basque language) plays a symbolic role: to represent a Basque Country where the majority speaks and writes in other state languages. Euskara, used by a minority, remains subordinate. In this respect, this book is a departure from previous Basque literary histories; it redefines Spanish and French literatures, advances a new theory of what a minority literature is, and pays attention to texts, disciplines, and practices that traditional histories neglect: political discourse, anthropology, tourism, economics. This history also represents a review of most literary historical discourses (new historicism, postcolonial theory, multiculturalism, subaltern studies) and presents a new methodological and theoretical proposal. Finally, this history allows to revisit under a new light political and historical movements such as nationalism, feminism, modernity, and globalization. As a result, different authors such as Sabino Arana, Judah Halevi, Maddalen Lujambio, Axular, Hugo, Unamuno, Itxaro Borda or Oteiza are brought together.
