*Scriptwork* David Kahn, Donna Breed, 1995 Directors can use this unique guidebook for new play development from the beginning to the end of the process. Kahn and Breed explore ways of choosing new projects, talk about where to find new scripts, and explore the legal aspects of script development. They present a detailed system for theatrical analysis of the new script and show how to continue exploration and development of the script within the laboratory of the theatre. Most importantly, they delineate the parameters of the relationship between the director and the playwright, offering proven methods to help the playwright and to facilitate the healthy development of the script. Kahn and Breed offer suggestions on casting, incorporating rewrites, and script handling plus how and when to use audience response and how to decide what step to take next. They also include extended interviews with developmental directors, dramaturgs, and playwrights, who give credence to the new script development process.
