Praying Personalities Janet Holm McHenry, 2024-02-13 Discover the particular way God designed you to connect with Him through prayer You should pray in the morning. You should write out your prayers. You should make prayer lists and pray through them every day. You should pray with others or out loud. We've all heard the you shoulds of prayer from pulpits, presenters, and well-meaning friends. But when none of these ways to pray feel natural, what's next? Janet Holm McHenry has studied prayer extensively, and the one thing she knows for sure is that there's no one-size-fits-all way to pray. Instead, there are different styles of prayer--and by discovering the style most instinctive to each individual personality, staying in touch with God throughout the day becomes simple and all the more joyful. In this book, the author helps readers determine their particular praying personality by examining the praying styles of biblical people, spiritual gifts, and various ideas about personality, including the classic temperaments, the Enneagram, and more. McHenry includes scores of bulleted suggestions for developing a praying lifestyle that works for individuals. She has also created a Praying Personality Quiz for readers (available in the book and online) to help narrow down the style that will most naturally fit into how they process a prayer life. Whether a longtime Christian who has tried various prayer strategies but can't keep up or a new believer looking to learn about this spiritual discipline, every reader who dives into this book will come away with a renewed prayer life and a greater understanding of who God created them to be.

Returning Sanity to the Classroom Horace 'Rog' B. Lucido, 2015-07-16 For nearly fifteen years students and teachers have suffocated under the oppressive regime of high-stakes testing spawned by the No Child Left Behind Act. Returning Sanity to the Classroom: Eliminating the Testing Mania uses the engaging pedagogy of 'Forgiving Learning' to give new life and hope to the education landscape. Over the millennia humans have employed a natural method of 'learning from their mistakes' to achieve success. They address these faulted situations repeatedly, making appropriate changes along the way. This practice is the heart and soul of our creativity and inventiveness. Returning Sanity to the Classroom presents a classroom method of codifying this natural process of student learning centered on their freedom to readdress academic

mistakes without penalty. It includes techniques in developing a relational classroom complete with the intensive use of oral and written language as well as academic coaching. *Returning Sanity to the Classroom* employs brain compatible strategies advanced by Leslie Hart, Paul Maclean, Karl Jung, Katherine Briggs, Isabel Myers, and Abraham Maslow. It is an answer to the question of how to appropriately stimulate and evaluate student learning.
