The Global Master Bakers Cookbook Jimmy Griffin, 2021-05-09 Following on from the international success of Jimmy Griffin's first book, *The Art of Lamination*; this second book explores the world of the Global Master Bakers. These amazing bakers, pastry chefs, Meilleur Ouvrier's De France (MOF'S) and world champions all have a story to tell and their connection to its author, Jimmy Griffin. During Jimmy's involvement in many global bakery events and competitions over the past 30 years, he has made connections to many of these interesting and passionate bakers, who have shared some of their favourite bakery products with him for this publication. Whether you seek a world-class German rye bread, the finest of French baking, fiery Icelandic sourdough, a taste of Asian baking, a genuine Californian sourdough, Portuguese custard tart, delicious raspberry and mint brioche, or a slice of a royal wedding cake, made especially for the crown princess of Sweden, there is something interesting for everyone and all levels in this book. The recipes are sourced from 31 nations and all continents, a true mix of international tastes and flavours. A collection of unique and special recipes from world-class bakers, many world champions, Meilleur Ouvrier's De France and a Michelin Star Chef from Ireland. This book features 59 bakers from all over the world, 61 recipes and celebrates friendship and baking in this new publication, which, for the first time celebrates expert global baking and unique bakers stories gathered together as a collection in this book. This book is written and compiled by a baker for bakers. It represents artisan baking at its very best. The recipes don't contain improvers, additives, or dough conditioners. Reimagining Capitalism in a World on Fire Rebecca Henderson,2020-04-28 A renowned Harvard professor debunks prevailing orthodoxy with a new intellectual foundation and a practical pathway forward for a system that has lost its moral and ethical foundation. Free market capitalism is one of humanity's greatest inventions and the greatest source of prosperity the world has ever seen. But this success has been costly. Capitalism is on the verge of destroying the planet and destabilizing society as wealth rushes to the top. The time for action is running short. Rebecca Henderson's rigorous research in economics, psychology, and organizational behavior, as well as her many years of work with companies around the world, give us a path forward. She debunks the worldview that the only purpose of business is to make money and maximize shareholder value. She shows that we have failed to reimagine capitalism so that it is not only an engine of prosperity but also a system that is in harmony with environmental realities, the striving for social justice, and the demands of truly democratic institutions. Henderson's deep understanding of how change takes place, combined with fascinating in-depth stories of companies that have made the first steps towards reimagining capitalism, provide inspiring insight into what capitalism can be. Together with rich discussions of important role of government and how the worlds of finance, governance, and leadership must also evolve, Henderson provides the pragmatic foundation for navigating a world faced with unprecedented challenge, but also with extraordinary opportunity for those who can get it right.

HomeBaking Jeffrey Alford,Naomi Duguid,2016-10-21 Home baking may be a humble art, but its roots are deeply planted. On an island in Sweden a grandmother teaches her granddaughter how to make slagbrot, a velvety rye bread, just as she was taught to make it by her grandmother many years before. In Portugal, village women meet once each week to bake at a community oven; while the large stone oven heats up, children come running for sweet, sugary flatbreads made specially for them. In Toronto, Naomi makes her grandmother's recipe for treacle tart and Jeffrey makes the truck-stop cinnamon buns he and his father loved. From savory pies to sweet buns, from crusty loaves to birthday cake, from old-world apple pie to peanut cookies to custard tarts, these recipes capture the age-old rhythm of turning simple ingredients into something wonderful to eat. HomeBaking rekindles the simple pleasure of working with your hands to feed your family. And it ratchets down the competitive demands we place on ourselves as home cooks. Because in striving for professional results we lose touch with the pleasures of the process, with the homey and imperfect, with the satisfaction of knowing that you can, as a matter of course, prepare something lovely and delicious, and always have a full cookie jar or some homemade cake on hand to offer. Jeffrey Alford and Naomi Duguid collected the recipes in HomeBaking at their source, from farmhouse kitchens in northern France to bazaars in Fez. They traveled tens of thousands of miles, to six continents, in search of everyday gems such as Taipei Coconut Buns, Welsh Cakes, Moroccan Biscotti, and Tibetan Overnight Skillet Breads. They tasted, interpreted, photographed and captured not just the recipes, but the people who made them as well. Then they took these spot-on flavors of far away and put them side by side with cherished recipes from friends and family closer to home. The result is a collection of treasures: cherry strudel from Hungary, stollen from Germany, bread pudding from Vietnam, anise crackers from Barcelona. More than two hundred recipes that resonate with the joys and flavors of everyday baking at home and around the world. Inexperienced home bakers can confidently pass through the kitchen doors armed with Naomi and Jeffrey's calming and easy-to-follow recipes. A relaxed, easy-handed approach to baking is, they insist, as much a part of home baking traditions as are the recipes themselves. In fact it's often the last-minute recipes—semonlina crackers, a free-form fruit galette, or a banana-coconut loaf—that offer the most unexpected delights. Although many of the sweets and

savories included here are the products of age-old oral traditions, the recipes themselves have been carefully developed and tested, designed for the home baker in a home kitchen. Like the authors' previous books, HomeBaking offers a glorious combination of travel and great tastes, with recipes rich in anecdote, insightful photographs, and an inviting text that explores the diverse baking traditions of the people who share our world. This is a book to have in the kitchen and then again by your bed at night, to revisit over and over.
