African Law(s) Salvatore Mancuso, 2023-09-29 This book takes a comparative law perspective and proposes a new approach for researching law in Africa. Western theoretical perspectives in comparative law are too Eurocentric to fully catch the peculiarities and characteristics of the African “lawscape”—in short, they are inadequate for studying African law. In this book, Professor Salvatore Mancuso considers the law in Africa from a different perspective. Deeply rooted in the culture of the African people, this approach considers African legal culture with the same legitimacy as Western legal culture, setting a precedent for future policy-making decisions relating to legislative development in Africa.
