**Fiona Edmonds**

**Gold, Blood and Power** James Lacey, 2018-04-04 This monograph presents a survey of the crucial link between state (national) power and finance from the ancient era through the present day. Cicero once said that the true sinew of war was endless streams of money. His observation remains as accurate today as it was when Rome first began constructing its Empire. Unfortunately, too many historical works leave this crucial underpinning link out of their narratives. Even those that do economic and financial concerns typically miss the fact that the size of a state's economy often has little to do with its capacity to wield influence on the global stage. Much more crucial in this regard is the possession of an administrative system capable of efficiently mobilizing a state's resources. It was such an administrative apparatus that allowed Britain to punch far above its weight in the international arena for centuries. As a survey, this work is far from comprehensive, but the author hopes it will provide a stepping stone for a much-needed in-depth examination of the topic.

The Pursuit of Dominance Christopher J. Fettweis, 2023 In *The Pursuit of Dominance*, Christopher J. Fettweis examines the grand strategy of previous superpowers to see how they maintained, or failed to maintain, their status. Over the course of six cases, from Ancient Rome to the British Empire, he seeks guidance from the past for present US policymakers. Fettweis is most interested in how these superpowers defined their interests, the grand strategies these regimes followed to maintain superiority over their rivals, and how the practice of that strategy worked. A sweeping history of grand strategy, this book looks at the past 2,000 years to highlight what--if anything--current US strategists can learn from the experience of earlier superpowers.

*In the Shadow of the Sword* Tom Holland, 2012-05-15 A thrillingly panoramic historical account of the rise of Islam, hailed as “a veritable tour de force” (The Wall Street Journal), from the acclaimed author of *Rubicon* and co-host of the hit podcast *The Rest Is History* “Accessible but delightful . . . as fun to read as any thriller, and with far richer intellectual nutritional content.”—The Daily Beast Written with verve and panache, *In the Shadow of the Sword* recounts the history of how the ancient world came to an end and how a new power, Islam, arose. In a story dazzlingly rich in drama, character, and achievement, Tom Holland describes how the Arabs emerged to carve out a stupefyingly vast dominion in a matter of decades, overcoming seemingly insuperable odds to create an imperial civilization, aspects of which endure to the present day. With profound implications for the most consequential events of our time, Holland bears witness to the abiding impact of

this extraordinary, convulsive age.

**Freedom's Progress?** Gerard Casey, 2021-10-04 In *Freedom's Progress?*, Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism, from the primacy of the collective to the fragile centrality of the individual person and of freedom. Such a transition is, he argues, neither automatic nor complete, nor are relapses to tribalism impossible. The reason for the fragility of freedom is simple: the importance of individual freedom is simply not obvious to everyone. Most people want security in this world, not liberty. 'Libertarians,' writes Max Eastman, 'used to tell us that the love of freedom is the strongest of political motives, but recent events have taught us the extravagance of this opinion. The herd-instinct and the yearning for paternal authority are often as strong. Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history.' The charm of the collective exercises a perennial magnetic attraction for the human spirit. In the 20th century, Fascism, Bolshevism and National Socialism were, Casey argues, each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses. Thinkers you would expect to feature in a history of political thought feature in this book - Plato, Aristotle, Machiavelli, Locke, Mill and Marx - but you will also find thinkers treated in *Freedom's Progress?* who don't usually show up in standard accounts - Johannes Althusius, Immanuel Kant, William Godwin, Max Stirner, Joseph Proudhon, Mikhail Bakunin, Pyotr Kropotkin, Josiah Warren, Benjamin Tucker and Auberon Herbert. *Freedom's Progress?* also contains discussions of the broader social and cultural contexts in which politics takes its place, with chapters on slavery, Christianity, the universities, cities, Feudalism, law, kingship, the Reformation, the English Revolution and what Casey calls Twentieth Century Tribalisms - Bolshevism, Fascism and National Socialism and an extensive chapter on human prehistory.

**Money** Sergio M. Focardi, 2018-03-19 By enabling the storage and transfer of purchasing power, money facilitates economic transactions and coordinates economic activity. But what is money? How is it generated? Distributed? How does money acquire value and that value change? How does money impact the economy, society? This book explores money as a system of tokens that represent the purchasing power of individual agents. It looks at how money developed from debt/credit relationships, barter and coins into a system of gold-backed currencies and bank credit and on to the present system of fiat money, bank credit, near-money and, more recently, digital currencies. The author successively examines how the money circuit has changed over the last 50 years, a period of stagnant wages, increased household borrowing and growing economic complexity, and argues for a new theory of economies as complex systems, coordinated by a banking and financial system. *Money: What It Is, How It's Created, Who Gets It and Why It Matters* will be of interest to students of economics and finance theory and anyone wanting a more complete understanding of monetary theory, economics, money and banking.

*Gaelic Influence in the Northumbrian Kingdom* Fiona Edmonds, 2019 WINNER OF THE FRANK WATSON BOOK PRIZE

2021. SHORTLISTED IN SCOTLAND'S NATIONAL BOOK AWARDS 2021 The first full-scale, interdisciplinary treatment of the wide-ranging connections between the Gaelic world and the Northumbrian kingdom. Northumbria was the most northerly Anglo-Saxon kingdom; its impressive landscape featured two sweeping coastlines, which opened the area to a variety of cultural connections. This book explores influences that emanated from the Gaelic-speaking world, including Ireland, the Isle of Man, Argyll and the kingdom of Alba (the nascent Scottish kingdom). It encompasses Northumbria's Golden Age, the kingdom's political and scholarly high-point of the seventh and early eighth centuries, and culminates with the kingdom's decline and fragmentation in the Viking Age, which opened up new links with Gaelic-Scandinavian communities. Political and ecclesiastical connections are discussed in detail; the study also covers linguistic contact, material culture and the practicalities of travel, bringing out the realities of contemporary life. This interdisciplinary approach sheds new light on the west and north of the Northumbrian kingdom, the areas linked most closely with the Gaelic world. Overall, the book reveals the extent to which Gaelic influence was multi-faceted, complex and enduring. Dr FIONA EDMONDS is Reader in History and Director of the Regional Heritage Centre at Lancaster University.
