Angels or Aliens? James Brouillette, 2020-01-29 Join the journey and examine the mysterious physical remains present on earth that are being used to mount a new attack against Christianity. The reason for these ancient remains' existence here on this planet is explained using scripture. *Angels or Aliens?* explores giants, flying vehicles, and angels as they are discussed and explained in the Bible and how they relate to the coming assault against Christians everywhere by this new theological lie. This new false doctrine is explored, which is now being prepared and developed in order to replace the Theory of Evolution as the Godless answer to mankind's origin. This unique look at the modern world, from a biblical point of view, provides a positive Christian vision and reinforces the fact that God is in control and through Christ the victory is ours. In addition, through the process the reader is exposed to some possible end-time scenarios that they may not have previously imagined. After studying the media and the communication in which it engages, Brouillette has identified a systematic indoctrination that has taken place over the last sixty years, in the area of the existence of life on other planets, and *Angels or Aliens?* exposes this newest attack against the Christian belief that our world was created by God. Using scripture, this new

humanist attack is debunked, and the relationship this new theory might have with end-times prophecy is exposed.

Ancient Infrastructure, 1999 Despite the cover and title page, the series is the Catalog of Anomalies and is devoted to documenting phenomena in a range of fields that science cannot explain. This is the first volume to concern archaeology. Mere size or mass is not sufficient for mention; the criteria include high degrees of innovation, precocious use of technology and science, apparent lack of purpose, and the unknown identity of the builders. Findings here are used as evidence that the Vikings ventured well beyond Newfoundland, that extensive pre-Columbian contacts existed between the Old and New Worlds, and that vastly superior civilizations preceded our own. A subsequent volume will cover buildings per se. Annotation copyrighted by Book News, Inc., Portland, OR
