*Brightness Reef* David Brin, 2021-05-25 Strange visitors throw a planet of refugees into chaos in this science fiction adventure by the author of New York Times bestseller *The Uplift War*. Book One in the Uplift Storm Trilogy Centuries ago, the Buyur race abandoned Jijo. Now off-limits to settlers, it's warded by guardian machines who will protect the planet until the Institutes of the Five Galaxies declare Jijo ready—in another million years—for new civilization. But mere laws and guardians can't keep out the desperate. Clandestine bands of "sooners" have sneaked down to the lonely planet. Six intelligent races—all refugees—have bickered . . . then built a new society in the wilds of Jijo, hidden beneath forest canopies. Together they live in harmony—and in fear of the day their illegal colony will be discovered and judgment from the Five Galaxies will rain down upon them. One day a strange starship finally does appear on Jijo. But its owners do not bring law or judgment. Only dire secrets. And they'll do whatever it takes to keep them . . . This ebook features a new introduction by the author. Hugo Award Finalist "A captivating read . . . *Brightness Reef* leaves you looking forward to more. Here, too, is a history of Earth's contact and challenging interactions with the mysterious and powerful Civilization of Five Galaxies, a look at its institutions, languages, and customs, plus a time line of momentous events going back 3 billion years. For the millions of fans of the Uplift novels, this long-awaited guide will be an essential reference work, filled with vital information and never-before-seen illustrations that reveal, for the first time in one volume, the keys to the ambitious vision and bold speculation of the Uplift universe.

Now David Brin returns to this future universe for a new Uplift trilogy, packed with adventure, passion and wit. The planet Jijo is forbidden to settlers, its ecology protected by guardians of the Five Galaxies. But over the centuries it has been resettled, populated by refugees of six intelligent races. Together they have woven a new society in the wilderness, drawn together by their fear of Judgment Day, when the Five Galaxies will discover their illegal colony. Then a strange starship arrives on Jijo. Does it bring the long-dreaded judgment, or worse--a band of criminals willing to destroy the six races of Jijo in order to cover their own crimes?

Uplift David Brin, 2012-12-06 **WINNER OF THE HUGO, LOCUS AND NEBULA AWARDS** Under the caverns of Mercury, the Sundiver Mission prepares for a momentous voyage: a journey into the blazing inferno of the sun, to seek our destiny in the cosmic order of life. For in a universe where no species can reach sentience without being 'uplifted' by a patron race, only humanity - it seems - may have climbed to the stars unaided. This is a feat that puzzles and even angers some of the ancient, mighty Galactic Clans. Now, in a saga that warps from Earth to the far-reaches of five galaxies, the greatest mystery of all may be explained . . . This omnibus contains the first three novels in David Brin's classic and award-winning science fiction series, the Uplift Saga: **SUNDIVER, STARTIDE RISING and THE UPLIFT WAR.**

The Uplift Storm Trilogy David Brin, 2021-05-25 The award-winning author's complete second trilogy of the Uplift Saga, featuring a planet of refugees, a fugitive Earthling ship, and her dolphin/human crew. Brightness Reef Six outcast races hunker down on the off-limits planet Jijo when a mysterious starship lands. However, it doesn't bring the "law" they feared,

but something worse—a dark secret the invaders will do anything to keep . . . Infinity’s Shore Earthship Streaker, with its dolphin and human crew, has been on the run for three years after discovering a derelict armada whose mere existence seems to drive the Five Galaxies mad. With Earth under siege and nowhere to turn, Streaker has come to far-off, isolated Jijo in search of sanctuary amid its population of secret refugees. Unfortunately, they’ve been followed . . . Heaven’s Reach With the arrival of deadly enemies, the peaceful isolation of Jijo’s six exile races has ended. While the races join forces to fight invaders, the Earthship Streaker must lure other foes into weird layers of the unknown. Meanwhile, a dire prophecy may put the entire universe at risk . . . Praise for the Hugo and Nebula Award-winning Uplift Saga “An extraordinary achievement.” —Poul Anderson, award-winning author of *Tau Zero*, on *Startide Rising* “An exhilarating read that encompasses everything from breathless action to finely drawn moments of quiet intimacy.” —Locus on *The Uplift War* “Tremendously inventive, ambitious work.” —Kirkus Reviews on *Brightness Reef* “Well paced, immensely complex, highly literate . . . Did some mysterious race begin the uplift of humanity aeons ago? And if so, why did they abandon us? Circling the sun, under the caverns of Mercury, Expedition *Sundiver* prepares for the most momentous voyage in our history. A journey into the boiling inferno of the sun . . . to seek our destiny in the cosmic order of life. David Brin’s Uplift novels are among the most thrilling and extraordinary science fiction ever written. *Sundiver*, *Startide Rising*, and *The Uplift War*—a New York Times bestseller—together make up one of the most beloved sagas of all time. Brin’s tales are set in a future universe in which no species can reach sentience without being “uplifted” by a patron race. But the greatest mystery of all remains unsolved. . . . “Superb”—Science Fiction Times

**Startide Rising** David Brin, 2010-07-21 David Brin’s Uplift novels are among the most thrilling and extraordinary science fiction ever written. *Sundiver*, *Startide Rising*, and *The Uplift War*—a New York Times bestseller—together make up one of the most beloved sagas of all time. Brin’s tales are set in a future universe in which no species can reach sentience without being uplifted by a patron race. But the greatest mystery of all remains unsolved: who uplifted humankind? The Terran exploration vessel *Streaker* has crashed in the uncharted water world of Kithrup, bearing one of the most important discoveries in galactic history. Below, a handful of her human and dolphin crew battles armed rebellion and a hostile planet to safeguard her secret—the fate of the Progenitors, the fabled First Race who seeded wisdom throughout the stars.

**Heaven’s Reach** David Brin, 2009-12-30 Winner of the Nebula and Hugo Awards, David Brin brings his bestselling Uplift series to a magnificent conclusion with his most imaginative and powerful novel to date—the shattering epic of a universe

poised on the brink of revelation...or annihilation. The brutal enemy that has relentlessly pursued them for centuries has arrived. Now the fugitive settlers of Jijo--both human and alien--brace for a final confrontation. The Jijoans' only hope is the Earthship Streaker, crewed by uplifted dolphins and commanded by an untested human. Yet more than just the fate of Jijo hangs in the balance. For Streaker carries a cargo of ancient artifacts that may unlock the secret of those who first brought intelligent life to the Galaxies. Many believe a dire prophecy has come to pass: an age of terrifying changes that could end Galactic civilization. As dozens of white dwarf stars stand ready to explode, the survival of sentient life in the universe rests on the most improbable dream of all--that age-old antagonists of different races can at last recognize the unity of all consciousness.

*Infinity's Shore* David Brin, 1997 Nebula and Hugo award-winning author David Brin continues his bestselling Uplift series in this second novel of a bold new trilogy. Imaginative, inventive, and filled with Brin's trademark mix of adventure, passion, and wit, *Infinity's Shore* carries us further than ever before into the heart of the most beloved and extraordinary science fiction sagas ever written. For the fugitive settlers of Jijo, it is truly the beginning of the end. As starships fill the skies, the threat of genocide hangs over the planet that once peacefully sheltered six bands of sapient beings. Now the human settlers of Jijo and their alien neighbors must make heroic--and terrifying--choices. A scientist must rally believers for a cause he never shared. And four youngsters find that what started as a simple adventure--imitating exploits in Earthling books by Verne and Twain--leads them to the dark abyss of mystery. Meanwhile, the Streaker, with her fugitive dolphin crew, arrives at last on Jijo in a desperate search for refuge. Yet what the crew finds instead is a secret hidden since the galaxies first spawned intelligence--a secret that could mean salvation for the planet and its inhabitants...or their ultimate annihilation.

Startide Rising David Brin, 1983 The Terran exploration vessel Streaker has crashed on the uncharted water world of Kithrup, bearing one of the most important discoveries in galactic history. Below, a handful of her human and dolphin crew battles a hostile planet to safeguard her secret--the fate of the Progenitors.

Yet, over centuries, refugees of six intelligent races have come, weaving a new society in the wilderness, drawn together by their fear of Judgment Day, when the Five Galaxies will discover their illegal colony. Then a strange starship lands on Jijo. Does it bring the long-dreaded judgment, or worse - criminals bent on destroying the six races of Jijo in order to cover their own crimes? Can the exiles unite and find a way to save themselves ...and a galaxy beyond?

**Science Fiction Literature through History** Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science

fiction topics, authors, works, and subgenres written by a distinguished scholar. This encyclopedia deals with written science fiction in all of its forms, not only novels and short stories but also mediums often ignored in other reference books, such as plays, poems, comic books, and graphic novels. Some science fiction films, television programs, and video games are also mentioned, particularly when they are relevant to written texts. Its focus is on science fiction in the English language, though due attention is given to international authors whose works have been frequently translated into English. Since science fiction became a recognized genre and greatly expanded in the 20th century, works published in the 20th and 21st centuries are most frequently discussed, though important earlier works are not neglected. The texts are designed to be helpful to numerous readers, ranging from students first encountering science fiction to experienced scholars in the field.

*The Line* James Boyle, 2024-10-22 How AI will challenge our ideas about personhood. Chatbots like ChatGPT have challenged human exceptionalism: we are no longer the only beings capable of generating language and ideas fluently. But is ChatGPT conscious? Or is it merely engaging in sophisticated mimicry? And what happens in the future if the claims to consciousness are more credible? In *The Line*, James Boyle explores what these changes might do to our concept of personhood, to “the line” we believe separates our species from the rest of the world but that also separates “persons” with legal rights from objects. The personhood wars—over the rights of corporations and animals, over the question of when life begins and ends—have always been contentious. We’ve even denied the personhood of members of our own species. How will those old fights affect the new ones, and vice versa? Boyle pursues these questions across a dizzying array of fields. He discusses moral philosophy and science fiction, transgenic species, nonhuman animals, the surprising history of corporate personality, and AI itself. Engaging with empathy and anthropomorphism, courtroom battles on behalf of chimps, and doom-laden projections about the threat of AI, *The Line* offers fascinating and thoughtful answers to questions about our future that will arrive sooner than we think.

**Science Fiction and Futurism** Ace G. Pilkington, 2017-03-14 Science and science fiction have become inseparable—with common stories, interconnected thought experiments, and shared language. This reference book lays out that relationship and its all-but-magical terms and ideas. Those who think seriously about the future are changing the world, reshaping how we speak and how we think. This book fully covers the terms that collected, clarified and crystallized the futurists' ideas, sometimes showing them off, sometimes slowing them down, and sometimes propelling them to fame and making them the common currency of our culture. The many entries in this encyclopedic work offer a guided tour of the vast territories occupied by science fiction and futurism. In his Foreword, David Brin says, Provocative and enticing? Filled with 'huh!' moments and leads to great stories? That describes this volume.

*Sequels* Janet G. Husband, Jonathan F. Husband, 2009 A guide to series fiction lists popular series, identifies novels by character, and offers guidance on the order in which to read unnumbered series.

Keith Booker, 2014-10-01 The Historical Dictionary of Science Fiction in Literature is a useful reference to the broad and burgeoning field of science fiction literature. Science fiction literature has gained immensely in critical respect and attention, while maintaining a broad readership. However, despite the fact that it is a rapidly changing field, contemporary science fiction literature also maintains a strong sense of its connections to science fiction of the past, which makes a historical reference of this sort particularly valuable as a tool for understanding science fiction literature as it now exists and as it has evolved over the years. The Historical Dictionary of Science Fiction in Literature covers the history of science fiction in literature through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries including significant people; themes; critical issues; and the most significant genres that have formed science fiction literature. This book is an excellent access point for students, researchers, and anyone wanting to know more about this subject.
