The Unveiling Origin of Mecca Mohammed Alal Khan,2021-09-12 The Unveiling Origin of Mecca provides insights into the history of Kaaba (Ka'ba) in Mecca. The Ka'ba is the first house built on earth. It is one of the few and perhaps the only Islamic History books that looks at modern archaeological evidence and the Holy Quran and the history of the Quran to explore the proper location of the Ka'ba. The author notes that in the Holy Quran, Mecca, sometimes also called Becca, which words are synonymous, and signify "a place of great intercourse," is undoubtedly one of the most ancient cities in the world. Some authors imagine it to be the Mesa, or Mesha, of the Scripture and that it deduced its name from one of Ishmael's sons. It stands in a stony and barren valley, surrounded by mountains under the exact parallel with the Macoraba of Ptolemy, and about 40 Arabian miles from the sea 'Al Kolzom. There is a magnificent temple in the city, like the Colosseum at Rome. However, it is not made of such large stones but burnt bricks and round in the same manner. It has ninety or one hundred doors around it and is arched...upon entering the temple you descend ten or twelve steps of marble, and here and there about the said entrance there stand men who sell jewels and nothing else. Researching ancient Islam and the origin of Mecca, the author asserts that the Ka'ba is currently misplaced, contradicting the Holy Quran and Arabian geography. Although there are many Islamic scholars and Quran research Institutes throughout the world, sadly, none of them have yet verified the exact places, mountains surrounding Ka'ba, and its sacred area according to the Holy Quran.

The Crash of A Civilization Kanchan Banerjee, 2022-07-13 The Current condition of each citizen, the society, and the nation are the result of a deeply complex history. But what we know from history books, especially academic textbooks, are constructs based on the narratives of political powers, colonists, and outdated socioeconomic analysts. The time has come to know and understand our true history from fresh and updated perspectives. The subject of this book is how foreign ideologies and forces Christian, Islamic, and later colonists, western and Marxists' profound and long-term influence have impacted India, her society, and people. With a computer science back-ground, Kanchan Banerjee makes this remarkable and significant contribution, attempting to depict the current era with unique and lively storytelling using carefully studied evidence, logical deduction, and analysis. He has given detailed and comprehensive descriptions and assessments from pre-Islamic Arabia's history, foreign attacks and invasions of the Huns, the Turks to the Islamic rule and occupation in Delhi, and the British colonial and imperial atrocities. How did the crash and fall of a great ancient civilization happen? How has it been wounded the body and soul of a nation to break into several pieces? And what is the way to change the direction to the path of recovery and revival? This book is an effort to find the answers to these questions from our true history. If we know our past, we can change our future as well.

On Archaeology of Sainthood and Local Spirituality in Islam Georg Stauth,2004 This volume addresses the diversity of sainthood in Islam with respect to rural and urban and metropolitan ideas, practices and cults, their networks and institutions. Ranging from ethnography and history to political science and social theory, this work includes studies of places and the local cultural significance of sainthood, its ethnic or genealogical origin, the constitution of corporations and brotherhoods and drives for sacredness in Algeria, Egypt, Germany and Turkey. Georg Stauth is an orientalist and sociologist who specializes on the Middle East and has spent several years in Southeast Asia. Using this vantage point, he observes the emerging ideas of a modern Islamic future as forces of both local self-assertiveness and transnational relations.
