Ballad Hunting with Max Hunter Sarah Nelson, 2023-01-24 A traveling salesman with little formal education, Max Hunter gravitated to song catching and ballad hunting while on business trips in the Ozarks. Hunter recorded nearly 1600 traditional songs by more than 200 singers from the mid-1950s through the mid-1970s, all the while focused on preserving the music in its unaltered form. Sarah Jane Nelson chronicles Hunter's song collecting adventures alongside portraits of the singers and mentors he met along the way. The guitar-strumming Hunter picked up the recording habit to expand his repertoire but almost immediately embraced the role of song preservationist. Being a local allowed Hunter to merge his native Ozark earthiness with sharp observational skills to connect--often more than once--with his singers. Hunter's own ability to be present added to that sense of connection. Despite his painstaking approach, ballad collecting was also a source of pleasure for Hunter. Ultimately, his dedication to capturing Ozarks song culture in its natural state brought Hunter into contact with people like Vance Randolph, Mary Parler, and non-academic folklorists who shared his values.

Hunters in the Snow Tobias Wolff, 2013-11 *Hunters in the Snow* is a classic short story by Tobias Wolff centered around the suburbs of Spokane and featured in *In the Garden of the North American Martyrs*. The story deals with three characters hunting together in the woods; Kenny, who is hard and brutal; Tub, who is fat, a target of ridicule, and lags behind the rest of the party; and Frank, who is the most frank of the group. Each character has a distinct personality which changes as the story progresses. The story reaches its climax when Tub shoots Kenny in what appears to be an accident. Tub and Frank seem to be taking Kenny to a hospital, but wind up stopping in a diner and a roadhouse in a strange chain of events. The story ends with them driving in a direction that is opposite to the one of the hospital. This story is believed to be based upon the painting *Hunters in the Snow* by Pieter Bruegel, a painter involved in the realism movement.

Library and Information Studies for Arctic Social Sciences and Humanities Spencer Acadia, Marthe Tolnes Fjellestad, 2020-11-26 *Library and Information Studies for Arctic Social Sciences and Humanities* serves as a key interdisciplinary title that links the social sciences and humanities with current issues, trends, and projects in library, archival, and information sciences within shared Arctic frameworks and geographies. Including contributions from professionals and academics working across and on the Arctic, the book presents recent research, theoretical inquiry, and applied professional endeavours at academic and public libraries, as well as archives, museums, government institutions, and

other organisations. Focusing on efforts that further Arctic knowledge and research, papers present local, regional, and institutional case studies to conceptually and empirically describe real-life research in which the authors are engaged. Topics covered include the complexities of developing and managing multilingual resources; working in geographically isolated areas; curating combinations of local, regional, national, and international content collections; and understanding historical and contemporary colonial-industrial influences in indigenous knowledge. Library and Information Studies for Arctic Social Sciences and Humanities will be essential reading for academics, researchers, and students working the fields of library, archival, and information or data science, as well as those working in the humanities and social sciences more generally. It should also be of great interest to librarians, archivists, curators, and information or data professionals around the globe.

Chasing The Hunter's Dream Jeffrey Engel, Sharon Engel, James A. Swan, 2009-05-28 Under the guiding philosophy of The Honorable Pursuit of Fish and Game, Jeff and Sherol Engel and James A. Swan present their expert advice on the most enjoyable and affordable places to hunt both big and small game throughout North America, Mexico, Africa, Asia, Europe, and Down Under. Organized by location, Chasing the Hunter's Dream covers the best hunting spots and possible game as well as outfitters, guides, and lodges. This book also serves up some tasty wild game recipes and shares inspiring stories of extraordinary, once-in-a-lifetime dream hunts. The authors provide information on preparing for each hunt and how to get a trophy home, and they share wonderful hunting camp remembrances. Chasing the Hunter's Dream is for the modern hunter and those others who may wish to join them in enjoying the passion and the pleasure of hunting. Informative and inspiring, this is the one book that all hunters must own.

Whale Snow Chie Sakakibara, 2020-10-06 As a mythical creature, the whale has been responsible for many transformations in the world. It is an enchanting being that humans have long felt a connection to. In the contemporary environmental imagination, whales are charismatic megafauna feeding our environmentalism and aspirations for a better and more sustainable future. Using multispecies ethnography, Whale Snow explores how everyday the relatedness of the Iñupiat of Arctic Alaska and the bowhead whale forms and transforms “the human” through their encounters with modernity. Whale Snow shows how the people live in the world that intersects with other beings, how these connections came into being, and, most importantly, how such intimate and intense relations help humans survive the social challenges incurred by climate change. In this time of ecological transition, exploring multispecies relatedness is crucial as it keeps social capacities to adapt relational, elastic, and resilient. In the Arctic, climate, culture, and human resilience are connected through bowhead whaling. In Whale Snow we see how climate change disrupts this ancient practice and, in the process, affects a vital expression of Indigenous sovereignty. Ultimately, though, this book offers a story of hope grounded in multispecies resilience.

Snow Avalanche Hazards and Mitigation in the United States National Research Council, Division on Engineering and Physical Sciences, Commission on Engineering and Technical Systems, Committee on Ground Failure Hazards Mitigation Research, 1990-02-01 The present mortality as a result of snow avalanches exceeds the average mortality caused by earthquakes as well as all other forms of slope failure combined. Snow avalanches can range from small amounts of loose snow moving rapidly down a slope to slab avalanches, in which large chunks of snow break off and destroy everything in their path. Although considered a hazard in the United States since the westward expansion in the nineteenth century, in modern times snow avalanches are an increasing concern in recreational mountainous areas. However, programs for snow avalanche hazard mitigation in other countries are far ahead of those in the United States. The book identifies several steps that should be taken by the United States in order to establish guidelines for research, technology transfer, and avalanche legislation and zoning.

Mary's Land Lucia St. Clair Robson, 2015-01-31 As the ship *Charity* sails from Bristol, England, in 1638 two very different women make the perilous voyage to Lord Baltimore's new colony in the wilderness on the far shore of the Atlantic Ocean. Margaret Brent is of aristocratic birth and determined to make a life for herself. Anicah Sparrow is a teenaged pickpocket kidnapped and transported to the a New World in need of laborers. In the rowdy, irreverent new settlement, both women will find a future they could not have imagined.

The United States of America ,

Ski, Climb, Fight Lance R. Blyth, 2024-11-05 Mountains, Carl von Clausewitz said, introduce a “retarding element” into warfare. To fight in mountains, armies must overcome this challenge via survival strategies and mobility. But the techniques and technologies for doing so are best found in civilian skiing and mountaineering communities, a situation almost unique to mountain warfare. *Ski, Climb, Fight* looks at how the 10th Mountain Division of World War II met this challenge and how the U.S. military does so today. The first military history of that storied division, the book is also the first general history of U.S. mountain warfare. With a focus on strategy and doctrine, Lance R. Blyth explores how the military has adapted civilian gear and skills for surviving and moving in mountainous terrain to effectively conduct operations. He traces the long-standing but largely unexamined relationship between the civilian outdoor recreation industry and the military—a relationship that figures in almost every aspect of military operations in mountainous terrain. Intertwining the history of the World War II 10th

Mountain Division and U.S. mountain warfare with the history of American skiing and mountaineering, *Ski, Climb, Fight* is at once an unprecedented, in-depth account of one of the most celebrated military units of World War II and a fresh look at U.S. mountain warfare from its inception eighty years ago.

Productivity of Lesser Snow Geese on Banks Island, Northwest Territories, Canada, in 1995-1998 Gustaf Samelius, Ray T. Alisauskas, James Edward Hines, Canadian Wildlife Service, 2008 We estimated that 264 000-452 000 Lesser Snow Geese *Chen caerulescens caerulescens* nested at Egg River on Banks Island, Northwest Territories, in 1995-1998. This was about twice as many geese as was reported nesting there in the 1980s, and we estimated that the nesting population grew by 4.2% per year from 1953 to 1998--Abstract.
