

Paul Walker Quotes About Speed

Alfred Emanuel Smith, Francis Walton

The Power Broker Robert A. Caro, 2024-09-16 PULITZER PRIZE WINNER • A modern American classic, this huge and galvanizing biography of Robert Moses reveals not only the saga of one man's incredible accumulation of power but the story of his shaping (and mis-shaping) of twentieth-century New York. One of the Modern Library's hundred greatest books of the twentieth century, Robert Caro's monumental book makes public what few outsiders knew: that Robert Moses was the single most powerful man of his time in the City and in the State of New York. And in telling the Moses story, Caro both opens up to an unprecedented degree the way in which politics really happens—the way things really get done in America's City Halls and Statehouses—and brings to light a bonanza of vital information about such national figures as Alfred E. Smith and Franklin D. Roosevelt (and the genesis of their blood feud), about Fiorello La Guardia, John V. Lindsay and Nelson Rockefeller. But *The Power Broker* is first and foremost a brilliant multidimensional portrait of a man—an extraordinary man who, denied power within the normal framework of the democratic process, stepped outside that framework to grasp power sufficient to shape a great city and to hold sway over the very texture of millions of lives. We see how Moses began: the handsome, intellectual young heir to the world of *Our Crowd*, an idealist. How, rebuffed by the entrenched political establishment, he fought for the power to accomplish his ideals. How he first created a miraculous flowering of parks and parkways, playlands and beaches—and then ultimately brought down on the city the smog-choked aridity of our urban landscape, the endless miles of (never sufficient) highway, the hopeless sprawl of Long Island, the massive failures of public housing, and countless other barriers to humane living. How, inevitably, the accumulation of power became an end in itself. Moses built an empire and lived like an emperor. He was held in fear—his dossiers could disgorge the dark secret of anyone who opposed him. He was, he claimed, above politics, above deals; and through decade after decade, the newspapers and the public believed. Meanwhile, he was developing his public authorities into a fourth branch of government known as Triborough—a government whose records were closed to the public, whose policies and plans were decided not by voters or elected officials but solely by Moses—an immense economic force directing pressure on labor unions, on banks, on all the city's political and economic institutions, and on the press, and on the Church. He doled out millions of dollars' worth of legal fees, insurance commissions, lucrative contracts on the basis of who could best pay him back in the only coin he coveted: power. He dominated the politics and politicians of his time—without ever having been elected to any office. He was, in

essence, above our democratic system. Robert Moses held power in the state for 44 years, through the governorships of Smith, Roosevelt, Lehman, Dewey, Harriman and Rockefeller, and in the city for 34 years, through the mayoralties of La Guardia, O'Dwyer, Impellitteri, Wagner and Lindsay. He personally conceived and carried through public works costing 27 billion dollars—he was undoubtedly America's greatest builder. This is how he built and dominated New York—before, finally, he was stripped of his reputation (by the press) and his power (by Nelson Rockefeller). But his work, and his will, had been done.

Critical Practices in International Theory James Der Derian, 2009-01-13 Critical Practices in International Theory brings together for the first time the essays of the leading IR theorist, James Der Derian. The essays cover a variety of issues central to Der Derian's work including diplomacy, alienation, terrorism, intelligence, national security, new forms of warfare, the role of information technology in international relations, poststructuralist theory, and the military-entertainment-media matrix. The book includes a framing introduction written for this volume in which Der Derian provides historical and theoretical context for a diverse body of work. Discussing his own influences and reflecting upon the development of international theory, he advocates a critical pluralist approach to the most pressing problems of world politics. Written in the eloquent style that marks out Der Derian as one of the most provocative and innovative thinkers in international relations, this collection is essential reading for scholars and students interested in the past, present and future of international relations. James Der Derian is a Watson Institute research professor of international studies at Brown University, where he directs the Global Security Program and the Global Media Project. He is the author of many articles and books, including the highly acclaimed *Virtuous War* (2001, 2009).

World Series '48 John G. Robertson, Carl T. Madden, 2022-12-12 The 1948 World Series gave fans an unusual showdown--neither of the contestants had seen the Fall Classic for a generation. The Cleveland Indians had last won the American League pennant in 1920. The Boston Braves had not been atop the National League since 1914. Both teams featured excellent pitching. Boston's aces were Warren Spahn and Johnny Sain. Cleveland had stalwarts of the mound Bob Feller and Bob Lemon, and surprise knuckleball phenom Gene Bearden. Despite being prohibitive favorites, Cleveland battled through six hard-fought games for the championship. This book recounts every at-bat of the 1948 Series, along with key moments of the regular season, including the antics of colorful Indians' owner Bill Veeck and a near fatality on the diamond.
