**Manual de Psiquiatría del Niño y del Adolescente** César Soutullo Esperón, 2009-11-05 Los niños y los adolescentes, a diferencia de los adultos, pocas veces solicitan la ayuda de un psiquiatra. Son los padres quienes les llevan a la consulta y, a través de ellos, se establece la relación psiquiatra-paciente-familia. Además de esta particularidad, en psiquiatría infantil y del adolescente hay que tener siempre en cuenta el desarrollo evolutivo normal de la persona y también la diferente presentación de la psicopatología según la edad del paciente. El objetivo de este manual es condensar, de forma práctica y ágil, lo más novedoso que la ciencia ofrece sobre el diagnóstico y tratamiento de los trastornos psiquiátricos en niños y

adolescentes, exponiendo respuestas prácticas a las necesidades que les surgen a los profesionales en su práctica cotidiana. Para ello, y teniendo en cuenta las características específicas de ésta especialidad, el libro se organiza en torno a cuatro grandes secciones (I. Evaluación y desarrollo normal del niño y del adolescente; II. Trastornos psiquiátricos en niños y adolescentes; III. Interconsulta y situaciones especiales; y IV. Tratamiento), que agrupan 30 capítulos escritos en un lenguaje preciso, oportuno y directo. Una guía indispensable en la consulta del psiquiatra de niños y adolescentes, pero también una herramienta útil para pediatras, psicólogos, enfermeros, trabajadores sociales, residentes y para todos aquellos que trabajan en la mejora de la salud mental de estos pacientes y sus familias.

Psicología del desarrollo Kathleen Stassen Berger, 2009-06-16 Esta extraordinaria obra ofrece una perspectiva general de la ciencia del desarrollo humano tan vivaz como lo es la gente en la vida real. Su escritura comunica la emoción y los desafíos de este apasionante campo de estudio y cada frase o párrafo transmite matices pero también contenido científico. El desarrollo a lo largo de la vida se construye con los conocimientos previos. Del mismo modo, los contenidos de las ediciones anteriores han debido ser reelaborados a la luz de nuevas normas, variaciones, diversidades, teorías clásicas y aplicaciones fascinantes. El estudio de la diversidad está presente desde su análisis en el capítulo primero hasta la cobertura de las diferencias culturales sobre el duelo en el epílogo. Cada capítulo resalta las posibilidades y variantes de la vida humana y presenta nuevas investigaciones sobre la estructura familiar, los inmigrantes, el bilingüismo y las diferencias étnicas en la salud. Otra de sus fortalezas es la amplitud de recursos pedagógicos, entre los que se encuentran: Un resumen, una lista de términos clave, preguntas y tres o cuatro ejercicios para aplicar los conceptos a la vida cotidiana al final de cada capítulo. Los términos clave en negrita en el texto y definidos en los márgenes y en el glosario al final del libro. La recapitulación al finalizar cada sección para el repaso y la reflexión sobre lo leído. Cuatro series de debates profundos como partes integrales del texto, relevantes para su comprensión o profundización: En persona, Estudio de un caso, Pensando como un científico y Temas para el análisis. Las fotografías, cuadros y gráficos especialmente seleccionados e integrados al texto, y la abundancia de ejemplos y explicaciones que ayudan a los estudiantes a realizar conexiones entre la teoría, la investigación y sus propias experiencias. Un nuevo elemento para resaltar la ciencia del desarrollo: Diseño de la investigación, que se relaciona con un estudio citado en el texto y brinda mayores explicaciones sobre los participantes y el método del estudio. La estructura uniforme del libro en la que cada parte contiene tres capítulos, uno para cada uno de los tres dominios: biosocial, cognitivo y psicosocial. En esta nueva edición se han incorporado además elementos de juicio provistos por la amplia comunidad de científicos sociales a partir de información de las neurociencias, los sistemas dinámicos y el análisis genético, así como datos de diseños de investigación y debates sobre las similitudes y diferencias del desarrollo de las personas en contextos de distintos lugares del planeta.
