In the Shadow of Isandlwana John Laband, Ian, 2023-10-12 "Lord Chelmsford is not a bad man. He is industrious and conscientious so far as his lights guide him. But nature has refused to him the qualities of a great captain. He has suffered much and is entitled to certain commiseration." - Thomas Gibson Bowles, Vanity Fair General Lord Chelmsford's military career took him around the world; he served in the Crimean War, the Indian Mutiny and the Abyssinian Expedition, before commanding the British invasion of the Zulu Kingdom in South Africa. In January 1879, disaster struck when Chelmsford divided his forces at Isandlwana in the face of the enemy and the Zulu overwhelmed his camp, killing more than 1,300 of its defenders. Such a defeat was almost unprecedented in a Victorian colonial campaign. Despite Chelmsford's later victories at Gingindlovu and Ulundi, he was humiliatingly relieved of his command. His responsibility for Isandlwana dogged him for the rest of his days, and he would forever be associated with this historic defeat. In this comprehensive new biography, Anglo-Zulu War specialist John Laband, explores the personal character and military career of Lord Chelmsford, providing a well-rounded, well-balanced and well-informed picture of this complex military figure.

Iran at War Kaveh Farrokh, 2011-12-20 Following on from his award-winning book on the history of ancient Persia, Kaveh Farrokh goes on to examine Iran's wartime history from the Safavid dynasty of the 16th and 17th century through to the 1979 Revolution and beyond. He shows how the early military successes were followed by centuries of defeat as the external influences of nations like Russia and Britain began to shape the internal history of Iran, before unraveling the complex, violent 20th century military history of the country, which encompasses two world wars, regional movements, foreign intervention, anti-government revolts, conflicts on the Soviet border, a revolution and an eight-year war with Iraq. Illustrated with contemporary illustrations and photographs this book provides an unparalleled investigation into the bloody martial history of Iran.

New York Times Book of World War II 1939-1945 The New York Times, 2013-11-05 The New York Times printed more words on World War II than any other newspaper and had more than 160 correspondents worldwide reporting on the war. Now, for the first time, The New York Times Complete World War II offers a singular opportunity to experience all the

battles, politics, and personal stories through daily, first-hand journalism. Hundreds of the most riveting articles from the archives of the Times—including firsthand accounts of major events and little-known anecdotes—have been selected for inclusion in *The New York Times: The Complete World War II*. The book covers the biggest battles of the war, from the Battle of the Bulge to the Battle of Iwo Jima, as well as moving stories from the home front and profiles of noted leaders and heroes such as Winston Churchill and George Patton. A respected World War II historian and writer, editor Richard Overy guides readers through the articles, putting the events into historical context. The book is illustrated with hundreds of maps and historical photographs plus battlefield maps that originally appeared in the newspaper. Together they provide an engrossing look at this pivotal and defining era of world history.

Transmedia Geographies Kevin Glynn, Julie Cupples, 2025 Looking at the US, New Zealand, and Central America, this book considers how cultural politics has been deeply reworked in our contemporary media environment. The authors analyze how rampant technological convergence has allowed stories to spill across media platforms as well as geographical borders and how those stories reemerge as transmediated events. The authors explore the cultural politics that have developed within this new media environment by moving across the mediated landscapes of the first, third, and fourth (Indigenous people's) worlds, which are deeply intertwined and interconnected under contemporary conditions of neoliberal globalization and emergent regimes of authoritarian postdemocracy. The book attends both to the platforms and digital networks of the new media environment and to the cultural forms and practices that have constituted television as the dominant medium of communication throughout the second half of the twentieth century. In the new media environment, transmediation works on behalf not only of those corporate megaconglomerates that have become all too familiar to media consumers around the world but also of many communities that have previously been excluded from access to the means of electronic textual production and circulation. For the latter, grassroots transmediation has become an important technique for the production of cultural citizenship.

Horses in Asia Bert G. Fagner, 2009 English summary: Horses, horse-breeding and horse-keeping, as well as the trade in these animals played an important role in the history of Asia's pre- and early modern civilisations. However, horses were unequally distributed over the Asian continent and their acquisition was usually associated with different expectations. When the knowledge spread that horses could be profitably used in warfare as well as for overland transportation and for agriculture, this did not only promote trade relations, but also led to the emergence of new cultural links, often between distant sites, both by land and by sea. The contributions to this volume, twenty-one articles in all, are based on a conference entitled *Horses in Asia* that was organised by the Institute of Iranian Studies of the Austrian Academy of Sciences in October 2006. The articles are arranged into four regional sections: (1) Iran and West Asia, (2) Central Asia, (3) the Indian Ocean, (4) and China. They are complemented by a preface and two introductory essays. Each article takes its own approach, while, at the same time, opening doors to related academic fields, the main interest lying in the transfer of horses between different regions. German description: In der Geschichte der vor- und frühmodernen Zivilisationen Asiens spielten Pferde - ihre Zucht und Haltung sowie der Handel mit ihnen - eine herausragende Rolle; sie waren in ungleicher Weise über den gesamten asiatischen Kontinent verteilt, und ebenso unterschiedliche Erwartungen wurden an ihren Erwerb geknüpft. Die Erkenntnis, dass sich Pferde militärisch, als Transportmittel und in der Landwirtschaft gewinnbringend einsetzen liessen, forderte nicht nur den Handel mit ihnen, sondern liess Pferde ganz allgemein zu einem wichtigen kulturellen Bindeglied zwischen Orten und Ländern werden, die oftmals weit voneinander entfernt lagen, sowohl über Land wie über den Seeweg. Die hier vorgestellten einundzwanzig Beiträge sind das Ergebnis einer gleichnamigen Tagung, die im Oktober 2006 auf Einladung des Instituts für Iranistik der Österreichischen Akademie der Wissenschaften durchgeführt wurde. Sie sind nach Regionen geordnet: (1) Iran und Westasien, (2) Zentralasien, (3) Indischer Ozean (4) und China. Ergänzt werden sie durch ein Vorwort und zwei einführende Artikel. Die einzelnen Beiträge gehen das Thema auf der Basis unterschiedlicher Ansätze an und bieten jeweils Anknüpfungspunkte zu benachbarten Disziplinen. Das Hauptinteresse gilt jedoch dem Transfer von Pferden zwischen den Regionen.
