GOVERNANCE OF/THROUGH BIG DATA. Volume II Giorgio Resta,Vincenzo Zeno-Zencovich,2023-05-20 These two volumes collect twenty five articles and papers published within the “Governance of/through Data” research project financed by the Italian Ministry of Universities. The research project, which was promoted by Roma Tre University, as project lead, and saw the participation of professors and reseachers from Bocconi University in Milan; LUMSA University in Rome; Salento University in Lecce and Turin Polytechnic, cover multiple issues which are here presented in five sections: Algorithms and artificial intelligence; Antitrust, artificial intelligence and data; Big Data; Data governance; Data protection and privacy.

Confessions of an Illuminati, VOLUME II Leo Lyon Zagami,2017-11-11 After his master thesis of the secret societies network as outlined in Volume I, the Confessions of an Illuminati narrative of Leo Lyon Zagami is projected to the reality of today, including the occult maneuvers behind the New World Order. We need to wake up beyond our current belief systems, because the controllers of the New World Order are moving fast using the Prophecies to their advantage to implement their evil plan by 2020, when World War III will finally break loose. The author demonstrates that the hierarchy of power emanating from Rome and Jerusalem, with the Jesuits and the Zionist's united by a secret pact since the Second Vatican Council, are in cahoots working towards the creation of a world government. There is also China playing a new role in the NWO with the far reaching tentacles of Chinese Freemasonry manipulating economic Hit Men and disinformation artists, while Russia is building their Christian orthodox alliance to apparently oppose the Western antichrist. In this unprecedented scenario, we also have the involvement of the big media moguls like Ted Turner and Silvio Berlusconi and their role in manipulating perceptions. The author discusses further aspects of the Satanic infiltration of Freemasonry, pointing out on the generational aspect the many ways of defending yourself psychically against black magicians, but also against the many sects operating in the Illuminati Network.

Language Periphery ,2016-03-10 A full-length study of monocollocable words, i.e. words whose usage is severely restricted to one or a few combinations only (such as English ado in without much/further ado), that brings together corpus-based data from the four languages along with studies analysing, along both general and language-specific lines, monocollocable words in terms of their frequency, lexical as well as morphosyntactic behaviour, and various facets of their

peripheral status. Each of the four languages covered, namely, English, Italian, German and Czech also offers a short introduction of the respective languages written in English, Italian, German and Czech. A rare contribution to our knowledge of an as yet little studied field, the book will attract the attention of, and stimulate a new interest in, all who are ready to acknowledge that collocation is a core phenomenon of language – lexicologists, lexicographers with a focus on phraseology, language typologists, linguists with a contrastive and historical agenda, and language teachers alike.
