The Cyprus Issue Murat Metin Hakki, 2007-11-16 Since Britain's occupation of Cyprus in 1878 and the fall of the Ottoman Empire after the First World War, ethnic rivalry has dominated the island's divided history. This comprehensive collection of documentary evidence and archival sources offers an enlightening insight into the troubled political conflict of the island and seeks to illuminate the contested debate. The Cyprus Issue brings together material which scrutinises relations between Cyprus and Europe over the last twenty years, exploring the impact of international and constitutional law on the dispute. Paying particular attention to judgements delivered by the European Court of Justice and the European Court of Human Rights, this volume sets out the legal and political documents which inform the discourse on the subject. Arguing that a wide range of interest groups will need greater access to legal and political documentation if Cyprus is to integrate itself fully into an ever broadening European Union, this book above all provides an essential resource for scholars and researchers seeking primary source data on contemporary Cyprus.

Boundaries of Cooperation:Cyprus, de Facto Partition, and the Delimitation Oftrans Boundary Resource Management
Peter Hocknell,2001-02-14 As a developing international norm, the process of managing transboundary resources represents a significant opportunity for the development of peaceful cooperation through equitable and sustainable means-and yet, paradoxically, this management process has the power also to create new tensions and reinforce pre-existing divisions amongst interested parties. This book explores the manifestations of this contradiction in the de facto partitioned state of Cyprus. How has transboundary resource management operated across Cyprus's de facto boundary? Why have problem-solving mechanisms, formed to deal with some transboundary resources, failed to achieve success in connection with others? Has it been possible to de-link resource conflict issues from the protracted political conflict, so that the former could be resolved without reference to the latter? This book provides the most comprehensive demonstration yet that post-partition Cyprus has exhibited a number of islands of cooperation over transboundary resource management and that, under certain politico-geographical conditions, the Cyprus conflict has not been unchanging and intractable. Of equal importance, however, it identifies an increasingly diverse and complex form of 'transboundary relations' that have coexisted with, and have been directly related to, a central cleavage over the political economy of recognition. 'Cooperation' has become, both for the Greek Cypriot and the Turkish Cypriot communities, a matter of judging its importance in terms of potential gains/losses. It is demonstrated that, as with a majority of partitioned states, transboundary resource management in Cyprus is patently concerned with configurations of power, transboundary resource needs, the role of interests and ideas, and the functions of the partition boundary itself. Set within this framework, transboundary resources in Cyprus appear increasingly prevalent in the island's affairs and represent a potentially critical focus both for future cooperation and conflict. While this book does not blindly offer a prescription for the resolution of this dilemma, it seeks to enhance what has been a surprisingly circumscribed understanding not only of cooperation within and across the boundaries of Cyprus, but also of the limits to that cooperation.
