

The Great Man Theory

Michal Rosen-Zvi

The Great Man Theory Teddy Wayne, 2022-07-12 At its finest, a worthy successor to those seriocomic novels of Bellow.” –Brandon Taylor, The New York Times Book Review Named a Most Anticipated Book of 2022 by Esquire, LitHub, Publisher's Lunch, Dandelion Chandelier, and Chicago Review of Books From acclaimed, Whiting Award-winning author Teddy Wayne, the hilarious, incisive, yet deeply poignant story of a liberal armchair-revolutionary desperate to save America from itself. Paul is a recently demoted adjunct instructor of freshman comp, a divorced but doting Brooklyn father, and a self-described “curmudgeonly crank” cataloging his resentment of the priorities of modern life in a book called The Luddite Manifesto. Outraged by the authoritarian creeps ruining the country, he is determined to better the future for his young daughter, one aggrieved lecture at a time. Shockingly, others aren't very receptive to Paul's scoldings. His child grows distant, preferring superficial entertainment to her father's terrarium and anti-technological tutelage. His careerist students are less interested than ever in what he has to say, and his last remaining friends appear ready to ditch him. To make up for lost income, he moonlights as a ride-share driver and moves in with his elderly mother, whose third-act changes confound and upset him. As one indignity follows the next, and Paul's disaffection with his circumstances and society mounts, he concocts a dramatic plan to right the world's wrongs and give himself a more significant place in it. Dyspeptically funny, bubbling over with insights into America's cultural landscape and a certain type of cast-aside man who wants to rectify it, The Great Man Theory is the work of a brilliant, original writer at the height of his powers.

The Great Man's Theory in Modern Day Leadership Luqman Barzan Luqman, 2022 The Great Man's theory is the oldest existing theory for leadership. Many have deemed it to be outdated. However, it is the simplest approach as to what a leader is, stating that a leader needs to possess four characteristics: charisma, confidence, sociability, and intelligence. Furthermore, the Great Man's theory states that leaders are born, not made, however, leaders nowadays can arise if given proper training and if they have personal resolve. Objectives: The main reason I started this study to prove that a link exists between modern business leadership and how the Great Man's theory and its characteristics can help one become a

successful leader. Methods: I used qualitative research method with in-depth interviews to gather my data. In addition, I selected 20 leaders within Erbil from both public and private sector businesses. Findings: The data I had collected from my interviews suggested that the characteristics of the Great Man's theory play a key role in business leadership success. Conclusion: In conclusion, there was indeed a link between the Great Man's theory and modern business leadership success. In addition, each leader had given their personal insight to the theory and its characteristics and seemingly agreed that the four characteristics of the Great Man's theory are valuable for all leaders and can pave a successful path for leaders who either possess or develop them. Keywords: The Great Man's theory, Business leadership, Charisma, Confidence, Sociability, Intelligence, Communication, Success.
