## Ernest Mathijs

J.R.R. Tolkien Encyclopedia Michael D. C. Drout, 2007 A detailed work of reference and scholarship, this one volume Encyclopedia includes discussions of all the fundamental issues in Tolkien scholarship written by the leading scholars in the field. Coverage not only presents the most recent scholarship on J.R.R. Tolkien, but also introduces and explores the author and scholar's life and work within their historical and cultural contexts. Tolkien's fiction and his sources of influence are examined along with his artistic and academic achievements - including his translations of medieval texts - teaching posts, linguistic works, and the languages he created. The 550 alphabetically arranged entries fall within the following categories of topics: adaptations art and illustrations characters in Tolkien's work critical history and scholarship influence of Tolkien languages biography literary sources literature creatures and peoples of Middle-earth objects in Tolkien's work places in Tolkien's work reception of Tolkien medieval scholars scholarship by Tolkien medieval literature stylistic elements themes in Tolkien's works theological/ philosophical concepts and philosophers Tolkien's contemporary history and culture works of literature

**Examination of the role and meaning of the ring in J.R.R. Tolkien's "The Lord of The Rings"** Beatrice Dietel, 2011-06-21 Essay aus dem Jahr 2011 im Fachbereich Didaktik für das Fach Englisch - Literatur, Werke, , Sprache: Deutsch, Abstract: The aim of this essay is to examine the role and the meaning of the ring in J.R.R. Tolkien's The Lord of The Rings from three different perspectives: the origin of the ring, the ring as a symbol in The Lord of the Rings, and the relation of the characters to the ring. First, a closer look at an excerpt of the work will reveal the ring as a central theme. This will be referred back to at a later time when the interaction of characters with the ring is explored. The following section will deal with the ring's origin, clarifying its significance and addressing questions regarding its importance for human beings and its erstwhile symbolic meaning. Subsequently, it will be easier to understand the symbol of the ring in Tolkien's epic tale, including its influence on the plot and the reader's understanding of the story. In the last section, the character-object relationship will be further examined and analysed from two different aspects.

**The Origins of Tolkien's Middle-earth For Dummies** Greg Harvey, 2011-04-27 J.R.R. Tolkien's novels of Middle-earth - The Hobbit, The Lord of the Rings trilogy, and The Silmarillion - have become some of the most famous, and most beloved, literary works of the twentieth century. And the Lord of the Rings films by director Peter Jackson have re-ignited interest in

Tolkien and his works, as well as introduced his stories to a new generation of fans. Even if you've never read the novels and have only seen the films, you know that the world of Middle-earth is a complicated one. Tolkien took great care in representing this world, from creating new languages to including very particular cultural details that add to the richness of the world's fabric. Many other books have been written about Tolkien and his works, but none have come close to providing the kind of reference needed to comprehend the world of Middle-earth. That's what veteran Dummies author and unabashed Tolkien fan Greg Harvey attempts to do in *The Origins of Tolkien's Middle-earth For Dummies*. As the author says in his introduction to the book, this is not an encyclopedia or quick guide to all the diverse beings, languages, and history that make up Tolkien's Middle-earth. Nor is it a set of plot outlines for the novels. Rather, what you'll find in *The Origins of Tolkien's Middle-earth For Dummies* is a basic guide to some of the possible linguistic and mythological origins of Middle-earth, plus a rudimentary analysis of its many themes and lessons for our world. This book can help enrich your reading (or re-reading) of Tolkien's novels, and it will challenge you to think about the themes inherent in Tolkien's Middle-earth and their implications in your own life. Here's just a sampling of the topics you'll find covered in *The Origins of Tolkien's Middle-earth For Dummies*: Exploring the main themes in Tolkien's works, including immortality and death; the heroic quest; love; fate and free will; and faith and redemption Investigating the diverse lands of Middle-earth – including the Shire, Gondor, and Mordor – and their significance Examining the different cultures of Middle-earth, such as Hobbits, Elves, Men, and those wily Wizards Touring the history of Middle-earth Understanding Tolkien's creation of new languages to enrich the story of Middle-earth Top Ten lists on the battles in the War of the Ring, online resources, and the ways the films differ from the novels So, whether you're reading Tolkien's novels or watching the films for the first time, or you've been a fan for many years and are looking for a new take on Tolkien's works, *The Origins of Tolkien's Middle-earth For Dummies* can help you enhance your reading or viewing experience for years to come.

**The Lord of the Rings and the Western Narrative Tradition** Martin Simonson, 2008 When *The Lord of the Rings* was published in the 1950's it did not sit comfortably among any preconceived notions of literary genre. The critical responses reflected the confusion: for some, it was an unwelcome reappearance of narrative standards that modernism was supposed to have done away with, or just a bad novel. Others considered it a refreshing work in the epic and romance traditions. Ironically, much of the critical prejudice regarding the question of genre in *The Lord of the Rings* has been motivated by the same kind of blindness that Tolkien denounced in his famous 1936 lecture *Beowulf: the monsters and the critics*. Like *Beowulf*, Tolkien's work has also failed to be properly appreciated and assessed due to a general refusal to accept the centrality of monsters, because despite its 'monstrous' originality and fantastic setting, it is very clearly, and not only chronologically, at the centre of twentieth-century literature. *The Lord of the Rings and the Western Narrative Tradition* is an attempt to account for the particular genre interaction that governs Tolkien's tale and put it in a meaningful relationship with

the contemporary literary context. At the same time, it is a quest to track down one of the most famous and elusive literary monsters of the past century by filling out a long-neglected white space on the map of comparative literature and genre criticism.

**The Anatomy of Story** John Truby, 2008-10-14 John Truby is one of the most respected and sought-after story consultants in the film industry, and his students have gone on to pen some of Hollywood's most successful films, including *Sleepless in Seattle*, *Scream*, and *Shrek*. *The Anatomy of Story* is his long-awaited first book, and it shares all of his secrets for writing a compelling script. Based on the lessons in his award-winning class, *Great Screenwriting*, *The Anatomy of Story* draws on a broad range of philosophy and mythology, offering fresh techniques and insightful anecdotes alongside Truby's own unique approach for how to build an effective, multifaceted narrative. Truby's method for constructing a story is at once insightful and practical, focusing on the hero's moral and emotional growth. As a result, writers will dig deep within and explore their own values and worldviews in order to create an effective story. Writers will come away with an extremely precise set of tools to work with—specific, useful techniques to make the audience care about their characters, and that make their characters grow in meaningful ways. They will construct a surprising plot that is unique to their particular concept, and they will learn how to express a moral vision that can genuinely move an audience. The foundations of story that Truby lays out are so fundamental they are applicable—and essential—to all writers, from novelists and short-story writers to journalists, memoirists, and writers of narrative non-fiction.

**Tolkien in the Twenty-First Century** Nick Groom, 2023-09-05 An original and thought-provoking reassessment of J. R. R. Tolkien's world, revealing how his visionary creation of Middle-Earth is more relevant now than ever before. What is it about Middle-Earth and its inhabitants that has captured the imagination of millions of people around the world? And why does Tolkien's visionary creation continue to fascinate and inspire us eighty-five years after its first publication? Beginning with Tolkien's earliest influence—and drawing on key moments from his life, *Tolkien in the Twenty-First Century* is an engaging and vibrant reinterpretation of the beloved author's work. Not only does it trace the genesis and inspiration for the original books, but the narrative also explores the later film and literary adaptations that have cemented his reputation as a cultural phenomenon. Delving deep into topics such as friendship, failure, the environment, diversity, and Tolkien's place in a post-Covid age, Nick Groom takes us on an unexpected journey through Tolkien's world, revealing how it is more relevant now than perhaps Tolkien himself ever envisioned.

**J.R.R. Tolkien, the Influence of Christianity, and Symbolism in *The Lord of the Rings*** Michelle Leigh Morris, Rhodes College. Department of Religious Studies. Honors papers, 2012

*Watching the Lord of the Rings* Ernest Mathijs, 2008 How did audiences across the world respond to the films of *The Lord of the Rings*? This book presents findings from the largest film audience project ever undertaken, drawing from 25,000

questionnaire responses and a wide array of other materials. Contributors use these materials to explore a series of widely speculated questions: why is film fantasy important to different kinds of viewers? Through marketing, previews and reviews, debates and cultural chatter, how are audiences prepared for a film like this? How did fans of the book respond to its adaptation on screen? How do people choose their favorite characters? How was the films' reception shaped by different national and cultural contexts? The answers to these questions shed fresh light on the extraordinary popularity of The Lord of the Rings and provide important new insights into the global reception of cinema in the twenty-first century.

**The Encircled Serpent: A Study of Serpent Symbolism in All Countries and Ages** M Oldfield Howey, 2024-08-09  
The Encircled Serpent: A Study of Serpent Symbolism in All Countries and Ages by M. Oldfield Howey is a comprehensive exploration of one of the most enduring and enigmatic symbols in human history: the serpent. Through meticulous research and insightful analysis, Howey traces the serpent's symbolic significance across different cultures, religions, and time periods, revealing its multifaceted role in shaping human belief systems and mythology. From the ancient civilizations of Egypt, Greece, and Mesopotamia to the indigenous cultures of the Americas and beyond, Howey examines how the serpent has been revered, feared, and mythologized in diverse contexts. Whether as a symbol of wisdom, immortality, fertility, or evil, the serpent's presence is found in the sacred texts, artistic expressions, and folklore of nearly every civilization. The Encircled Serpent delves into the various interpretations of serpent symbolism, exploring its connection to creation myths, healing practices, and esoteric traditions. Howey uncovers the serpent's dual nature—both creative and destructive—and its role as a bridge between the material and spiritual worlds. He also discusses the serpent's appearance in alchemical texts, where it is often depicted as the ouroboros, the serpent devouring its own tail, representing the cyclical nature of life and the concept of eternal return. M. Oldfield Howey's work is an invaluable resource for historians, mythologists, and anyone interested in the symbolic language that has shaped human thought throughout the ages. His detailed study offers readers a deeper understanding of the serpent as a universal archetype that continues to captivate the human imagination. The Encircled Serpent is an essential read for those seeking to explore the rich tapestry of symbols that have influenced spiritual, religious, and cultural practices across the world. Howey's engaging writing and thorough scholarship make this book a timeless reference for anyone intrigued by the powerful and mysterious symbol of the serpent.

Monumental Christianity, or The art and symbolism of the primitive church as witnesses and teachers of one Catholic faith and practice John Patterson Lundy, 1875

The History, Principles and Practice of Symbolism in Christian Art Frederick Edward Hulme, 1899

Gospel Symbols: Finding the Creator in His Creations Mark A. Shields, 2023-02-02 The Liahona isn't the only "type" or symbol in the scriptures. In fact, Moses tells us that all things testify of their Creator. This means that there are symbols all around us that can teach us things of eternal value—if only we can open our eyes and hearts to their messages. We know that

God's symbolism teaches messages that words simply can't. But these symbols don't exist just so we can be impressed with an interesting bit of knowledge and move on unaffected by the insight. Symbolism is meant to shape who we are, not just what we know. Gospel Symbols: Finding the Creator in His Creations will Show you new levels of understanding in words and rituals you probably take for granted Provide you with life-changing insights Supercharge your study of eternal principles Enhance your understanding of the ordinances and ceremonial practices of the biblical Church In a clear, easy-to-understand approach, this book combines ancient scriptures and modern insights to teach you and your family the precious truths found only in gospel symbols.
