**The Power of Thought** Henry Hamblin, 2017-08-04 Life is good and is always trying to do us a good turn if we will only allow it to do so. Henry Thomas Hamblin The readers of NOW need no introduction to Henry Thomas Hamblin. His articles during the past year speak both for his style and message. this book of nine chapters gives nine new thought lessons of great value....This little book contains a great deal of matter for the money asked and is recommended to the readers of NOW Magazine by its editor. -NOW Magazine, A Journal of Affirmation You are the architect of your own life: it is yours to make or to mar. By the power of thoughts you are building; are you building aright? The power of thought, as Emerson says, is a spiritual power. It is the greatest power that man has at his disposal. The world today is in its present state simply as a result of mankind's collective thinking; each nation is in its present state of either peace and prosperity, or poverty, murder and anarchy, simply as a result of its thinking as a nation; and each individual is what he is, and his life is what it is, and his circumstances are what they are, simply as results of his thoughts. What a man thinks, he becomes; what a man thinks is the mainspring of all his actions; what a man thinks attracts to him his circumstances and environment; what a man thinks determines what type of friends and companions will gather around him; what a man thinks decides whether he shall be happy or miserable, successful or unsuccessful, healthy or unhealthy, prosperous or poverty-stricken, hated or loved. What a man thinks either builds up his character or pulls it down. What a man thinks can overcome fate or strengthen it, can bring him into alignment with his glorious destiny, or make him an outcast and a wanderer in desert places. Indeed, there is no limit to the power of thought, because it is a spiritual power of intense potency. It is the power which distinguishes man from the brute, it is the power by which he can mount up to God, it is the power which can make the unsuccessful successful in the battle of life, it is the power which can make the loftiest achievement possible, it is the power by which difficulties can be overcome, disadvantages of birth and parentage surmounted, and the life beautified and inspired and energised with God-given powers. By thought man either blesses or curses himself. By it he brings into his life either success or failure, health or disease, happiness or unhappiness, poverty or prosperity. It is all in his mind and the character of his thought. Whatever there is in your life or mine, of disharmony, lack, sickness or unhappiness, is the result of our disharmonious thought. We live in an orderly Universe, but we do not react harmoniously to our environment, we are not in correspondence with the hidden law and order around us. It is not necessary for the universe to be altered; what is needed is that we ourselves should be

changed. Within ourselves is the cause of the disorder in our own individual world--for we each live in a little world of our own creation-- therefore, the disorder and trouble that afflicts us, or the lack that restricts our life, can never be overcome, save by a change of mind, habit of thought, and mental attitude. In the following pages an attempt is made to show how the reader can, by changing his thoughts and mental attitude, reverse the lever and come into harmony with the Divine Idea. When this is accomplished, his life will blossom like the rose, he shall be led forth with peace; the mountains and the hills shall break before him into singing, and all the trees of the field shall clap their hands.

*Bedtime Thoughts* Roy F. Messier, 2012-04 What is Control Thought? As explained in author Roy Messier's *The Power of Control Thought*, it is learning to listen to the type of thoughts we are having and then learning how to control them. When our mind accepts an idea as true, it then becomes true for us. We have the power within to make anything happen in our lives. Control Thought is a daily guardian in every person's life. *Bedtime Thoughts* presents a series of brief excerpts from *The Power of Control Thought* designed to be read whenever you have a few minutes. Whether you keep it on your nightstand or at your desk at work, the thoughts offered in this collection can remind you of the effect that Control Thought can have in your everyday life. You are the orchestra and the conductor of your life; let your attitude be heard and felt all around you with *Bedtime Thoughts*. There is one Power, that which is within. There is one true law, and that is your own Spirit. It is the only immutable Power we know; our intuition and inspiration all come from the direction in which we turn our thoughts.

What a person thinks is the mainspring of all their actions. The power of thought can make the unsuccessful successful in the battle of life. *The Power of Thought* John Algeo, Shirley J. Nicholson, 2001-07-01 Theosophist Annie Besant (1847-1933) drew from the ancient wisdom of the East to explore the deep recesses of the mind. The original edition was published in 1903 and has been in print ever since. Now leading contemporary Theosophists have painstakingly revised the text to free its timeless truths from the time-bound language of the early twentieth century and make it more accessible to today's readers. The result is a clear discussion of subjects of increasingly high interest: concentration, memory, consciousness, telepathy, sleep and dreams, cultivation of the will, and access to your higher self.

**The Power and Use of Thought** Charles Webster Leadbeater,1911 THOSE who are ignorant of Theosophy sometimes suppose it to be merely a system of speculative philosophy. Nothing could be farther from the truth than this; there is nothing in any way speculative about it, for it is founded entirely upon observation of facts, and upon experiments made in connection

with the phenomena and the forces of Nature. From its study emerges a practical rule of life - a rule which cannot but affect the thought and action of its students at every moment of their existence. This is chiefly because it involves a study of life as it really is, so that its students become acquainted with the whole of the world in which they live, instead of knowing only the least important part of it. They are led to understand the laws of evolution; and they naturally learn to live intelligently in accordance with those laws, and to take into account the unseen part of the world as well as the infinitesimal portion which is within reach of the limited physical senses.
