E.B. White Robert L. Root, 1999 Robert Root explores the milieu in which White began writing the Notes and Comments section of the New Yorker and puts in perspective the influence of popular columnists like Don Marquis and Christopher Morley on the tone and form of White's work as a paragrapher. He examines White's persistent disaffection with the demands and limitations inherent in his Comment pieces for the New Yorker and his experiences as a columnist for Harper's Magazine, where his One Man's Meat feature produced his most enduring essay, Once More to the Lake, and took the segmented column form to new levels of accomplishment. Drawing on White's manuscripts, Root's literary analysis of early drafts demonstrates how unique White's essays were.
