The Family in Global Perspective Elaine J. Leeder, 2004 'The Family in Global Perspective is an exciting new cross-cultural text that should be adopted for classroom use in universities nationwide. Elaine Leeder has created a readable interesting textbook for undergraduates that reveals the historical, socio-cultural, and gender realities of family life. Real life examples from 42 countries support student understandings of sociological theory, and build a comprehensive awareness of family as a way of being for people throughout the world.' --Peter Phillips, Sonoma State University 'I think it would be a great book for a class in Family Studies. In the Family Studies field, we have come to realize that the æfamilyÆ as we see it is not how peoples of the world necessarily see it. I think exposing all Family Studies students to this text would greatly enhance their educational development. . . . written in very comprehensible language for undergraduates.' ùYvonne M. Caldera, Ph.D., Texas Tech University 'I find the book overall is well done: it is very readable for undergraduates; the author is good at interweaving interesting research and travel notes with theories and discussions about families in a global perspective in various places. The style is refreshing, particularly enticing for undergraduate readers.' ùHeying Jenny Zahn, Georgia State University 'The book is rather unique in the sense that there are few works that place the U.S. family within a larger global framework. The comparisons that are made across societies serve to enhance understanding of family patterns in the United States. I also should mention that the book is well written, and in an interesting way, too. It successfully combines important academic material with a thought-provoking style of presentation.' ùSharon K. Houseknecht, Ohio State University What is a family? In the context of biology, the answer may be fairly simple. However, in the social context, the family is a far more complex form, with a meaning that is multilayered. The Family in Global Perspective: A Gendered Journey examines the continually changing face of family life, in the United States and from culture to culture. Written in an engaging style, the book provides a global viewpoint about family issues, enabling readers to think critically about family life in cultures beyond their own. In The Family in Global Perspective, author Elaine Leeder uses various historical, theoretical, and comparative perspectives to develop a cross-cultural understanding of family life. The book examines a variety of family lives in western countries and contrasts them with those of families in parts of Africa, Asia, and Latin America. After comparing the history of the family in various parts of the globe, the author then looks at the impact of globalization on family structures; gendered behavior intergenerational relationships; relationship dissolution; race, ethnicity and class issues; violence; and social policy.

Features of this text: ""Expresses a feminist view of family life and includes case examples from the author's own experiences visiting and studying families in 42 countries. ""Organized topically, rather than by country or culture, to facilitate instruction on a particular component of family life. ""Pedagogical features such as an accessible format, chapter introductions, vignettes and photos, highlighted key terms, and chapter summaries enhance students' understanding. The Family in Global Perspective is an ideal supplementary textbook for courses on marriage and the family in a variety of disciplines including Family Studies, Sociology, Social Work, Psychology, and Women's Studies.

Law, Religion and the Family in Africa Dr M Christian Green, Dr Faith Kabata ,2021-12-31 The family is a crucial site for the interaction of law and religion the world over, including Africa. In many African societies, the family is governed by a range of sources of law, including civil, constitutional, customary and religious law. International law and human rights principles have been domesticated into African legal systems, particularly to protect the rights of women and children. Religious rites and rituals govern sexuality, marriage, divorce, child-rearing, inheritance, intergenerational relations and more in Christianity, Islam and indigenous African custom. This book examines the African family with attention to tradition and change, comparative law, the relation of parents and children to the state, indigenous religion and customary law, child marriage and child labour and migration, diaspora and displacement.

Zimbabwean Realities and Christian Responses F. J. Verstraelen, 1998 This study concentrates on the diversity of Christianity and Christian missions in Zimbabwe, and their impact on socio-economic and cultural-religious contexts, as well as the reverse influence of these dimensions on the Christian church. It further examines church-state relations in pre- and post-independent Zimbabwe. In the latter part of the book, the author makes theological interpretations of the Bible in an African setting, considers the relationship between Christianity and the burning land issue, and the relevance of religious studies pursued at tertiary sector levels. Frans Verstraelen is Professor of Religious Studies at the University of Zimbabwe.

African Oral Story-telling Tradition and the Zimbabwean Novel in English Maurice Taonezvi Vambe, 2004 This study presents a break with previous literary criticism that has vilified orality, in an effort to understand the interface between orality and the black Zimbabwean novel. It traces the ways in which the African oral story-telling tradition has survived within the black Zimbabwean novel in English. The author critically analyses the works of eight leading Zimbabwean creative writers, revealing how they have used oral story-telling traditions in their literature. He argues that throughout the colonisation, liberation and post-independence periods, African orature was and remains a mode of expressing resistance to authoritarian ideas and cultural dominance, and a social vision.

Marriage in the Christian and Igbo Traditional Context Emmanuel Okonkwo, 2003 Frankfurt/M., Berlin, Bern, Bruxelles,

New York, Oxford, Wien. Traditional marriage and Christian marriage rites presently exist as two distinct ceremonies in some parts of Africa. Is there no way of bringing the two together to avoid any form of duplication or multiplication of rite? More so because the Church has always implicitly recognised matrimonial institution as a cultural product. The answer to the above question is located in the whole issue of inculturation. A process that successfully flourished in the Western civilisation and consequently influenced the teaching of the Church on marriage. The answer to our question seeks to establish a marriage rite where couples will genuinely experience the happy marriage between culture and Church. A marriage rite that will fulfil both the traditional and Christian demands. Contents: Concrete steps towards the inculturation of Christian sacramental and Igbo traditional marriage.
