The Information Systems Academic Discipline in Australia Guy G. Gable, Shirley Gregor, Roger Clarke, Gail Ridley, Robert Smyth, 2008-09-01 This book represents the second phase of a multi-method, multi-study of the 'Information Systems Academic Discipline in Australia'. Drawing on Whitley's Theory of Scientific Change, the study analysed the degree of 'professionalisation' of the Information Systems Discipline, the overarching research question being 'To what extent is Information Systems a distinct and mature discipline in Australia?' The book chapters are structured around three main sections: a) the context of the study; b) the state case studies; and c) Australia-wide evidence and analysis. The book is crafted to be accessible to IS and non-IS types both within and outside of Australia. It represents a 'check point'; a snapshot at a point in time. As the first in a hoped for series of such snap-shots, it includes a brief history of IS in Australia, bringing us up to the time of this report. The editorial team comprises Guy Gable, architect and leader; Bob Smyth, project manager; Shirley Gregor, sponsor, host and co-theoretician; Roger Clarke, discipline memory; and Gail Ridley, theoretician. In phase two, the editors undertook to examine each component study, with a view to arriving at an Australia-wide perspective.

Machinima Phylis Johnson, Donald Pettit, 2014-01-10 Unlike traditional animation techniques that use specialized 3D animation software, machinima--a term derived from the words machine and cinema--records the action in real-time interactive 3D environments, such as those found in video games, to create a cinematic production. No longer solely the province of hard-core gamers, machinima has become central to the convergence between animation, television, and film, but retains its own identity as a unique media format. It has evolved quickly within massive multi-player gaming and virtual platforms such as Second Life, The Sims, World of Warcraft, and virtual worlds under development. These interviews, essays, and discussions with leading machinima producers, reviewers, performers, and advocates discuss scripting basics, character development, and set design, as well as tips on crafting machinima through creative use of sound, lighting, and post-production.

Muslim Citizens in the West Samina Yasmeen,Nina Markovic,2016-04-29 Drawing upon original case studies spanning North America, Europe and Australia, Muslim Citizens in the West explores how Muslims have been both the excluded and the excluders within the wider societies in which they live. The book extends debates on the inclusion and exclusion of Muslim minorities beyond ideas of marginalisation to show that, while there have undoubtedly been increased incidences of

Islamophobia since September 2001, some Muslim groups have played their own part in separating themselves from the wider society. The cases examined show how these tendencies span geographical, ethnic and gender divides and can be encouraged by a combination of international and national developments prompting some groups to identify wider society as the 'other'. Muslim and non-Muslim scholars and practitioners in political science, social work, history and law also highlight positive outcomes in terms of Muslim activism with relationship to their respective countries and suggest ways in which increasing tensions felt, perceived or assumed can be eased and greater emphasis given to the role Muslims can play in shaping their place in the wider communities where they live.
