

# Viktor Frankl's Sources Of The Meaning Of Life

**Herman Joseph Heuser**

Logotherapy and Existential Analysis Alexander Batthyány, 2016-04-08 This landmark volume introduces the new series of proceedings from the Viktor Frankl Institute, dedicated to preserving the past, disseminating the present, and anticipating the future of Franklian existential psychology and psychotherapy, i.e. logotherapy and existential analysis. Wide-ranging contents keep readers abreast of current ideas, findings, and developments in the field while also presenting rarely-seen selections from Frankl's work. Established contributors report on new applications of existential therapies in specific (OCD, cancer, end-of-life issues) and universal (the search for meaning) contexts as well as intriguing possibilities for opening up dialogue with other schools of psychology. And this initial offering establishes the tenor of the series by presenting varied materials across the field, including: Archival and unpublished articles and lectures by Frankl. Peer-reviewed studies on logotherapy process, measures, and research. New case studies using logotherapy and existential analysis in diverse settings. Papers advocating cross-disciplinary collaboration. Philosophical applications of existential psychology. Critical reviews of logotherapy-related books. Volume 1 of *Logotherapy and Existential Analysis* will attract a wide audience, including psychologists (clinical, social, personality, positive), psychotherapists of different schools, psychiatrists in private practice, and researchers in these fields. Practitioners in counseling, pastoral psychology, coaching, and medical care will also welcome this new source of ideas and inspiration.

**Experiencing Philosophy - Second Edition** Anthony Falikowski, Susan Mills, 2022-11-22 *Experiencing Philosophy* begins with the assumption that philosophy is not merely something you know, but also something you experience and participate in. The book presents philosophical theories and ideas with reference to their practical relevance to the lives of student readers. To this end, a number of engaging features and inserts are provided: • **Original Sources:** Numerous primary readings are included, introducing students directly to the philosophical work of diverse thinkers ranging from Plato to Martin Luther King Jr. Each reading is thoughtfully excerpted and is followed by reflective questions. • **Philosopher Profiles:** Abstract ideas are connected to the lives of real historical figures through fascinating biographical profiles. • **Take It Personally:** To illustrate how philosophy can be useful and relevant, each chapter begins by placing the material in a personal context. • **Know Thyself Diagnostics:** This book takes seriously—as did Socrates—the Delphic Oracle's dictum to "know thyself." Students are given self-diagnostics to explore their own philosophical values, ideals, and beliefs. • **Philosophers in**

Action: Philosophy is something you do, not just something you know. Prompts are provided throughout the text inviting students to conduct thought experiments, analyze concepts, and discuss and debate controversial points. • Thinking about Your Thinking: These “metacognitive prompts” require students to engage in higher-order thinking, not only about the presented readings and ideas, but also with respect to their own values, assumptions, and beliefs. • Plus: Built-in study guides, diagrams, famous philosophical quotations, comics, feature boxes, and more!

*Prisoners of Our Thoughts* Alex Pattakos, 2010-07-09 Pattakos applies Frankl's philosophy and therapeutic approach to life and work in the 21st century. This updated and expanded second edition includes new personal stories, new data on meaning, and new exercises to apply the seven principles.

**Psycho-Oncology** Jimmie C. Holland, William S. Breitbart, Paul B. Jacobsen, Matthew J. Loscalzo, Ruth McCorkle, Phyllis N. Butow, 2015-04-02 Originally published by Oxford in 1998, Psycho-Oncology was the first comprehensive text in the field and remains the gold standard today. Edited by a team of leading experts in psycho-oncology, spearheaded by Dr. Jimmie C. Holland, the founder of the field, the text reflects the interdisciplinary nature and global reach of this growing field. Thoroughly updated and developed in collaboration with the American Psychosocial Society and the International Psycho-oncology Society, the third edition is a current, comprehensive reference for psychiatrists, psychologists, oncologists, hospice workers, and social workers seeking to understand and manage the psychological issues involved in the care of persons with cancer and the psychological, social, and behavioral factors that contribute to cancer risk and survival. New to this edition are chapters on gender-based and geriatric issues and expanded coverage of underserved populations, community based programs, and caregiver training and education.

Psychological Theories of Religion James Forsyth,2003 This book surveys the major theorists in the psychology of religion--Sigmund Freud, C.G. Jung, William James, Erich Fromm, Gordon Allport, Abraham Maslow and Viktor Frankl--who are all seminal thinkers and represent the classical theories in this field. Each of these theorists presents a more or less comprehensive theory of religion, which attempts to give an account of the psychological origin and/or value of religion. The approach of the book, in each case, shows how the theory of religion emerges not only from the theorist's psychological theory, but also from his own life experience. Each chapter contains an introductory overview of the theory, biographical material on the theorist, his theory of personality, his theory of religion, and an evaluation of the theory of religion. This consistent chapter format discusses the theorists' influence on the field, points out some developments from and reactions to the theory, and raises certain questions in order to stimulate readers' own critical responses. For individuals who wants to view--and better understand--religion from the psychological perspective.
