Judeo-Spanish Ballads from Bosnia Samuel G. Armistead, Joseph H. Silverman, 2016-11-11 The Judeo-Spanish folk literature of the Sephardic Jews of Bosnia, and with it their uncommonly rich balladry, has remained largely unknown to Western scholars. Since their move to Sarajevo in the sixteenth century, Serb-Croatian has displaced their original Spanish, and the entire culture is rapidly approaching extinction. This book preserved for posterity three fundamentally important groups of these rare ballads: Kalmi Baruch's Spanski romanse; ballads collected from the readers of the Sarajevo newspaper Jevrejski Glas; and five previously unedited eighteenth-century Bosnian ballads from a manuscript in the Jewish National and University Library in Jerusalem. Notes, abstracts in English, reproductions of the music itself, and other scholarly aids serve to make this colorful and strangely modern literature fully accessible to Hispanists, folklorists, and all students of comparative literature and Judaic culture.

**Honour in African History** John Iliffe, 2005 This is the first published account of the role played by ideas of honour in African history from the fourteenth century to the present day. It argues that appreciation of these ideas is essential to an understanding of past and present African behaviour. Before European conquest, many African men cultivated heroic honour, others admired the civic virtues of the patriarchal householder, and women honoured one another for industry, endurance, and devotion to their families. These values both conflicted and blended with Islamic and Christian teachings. Colonial conquest fragmented heroic cultures, but inherited ideas of honour found new expression in regimental loyalty, respectability, professionalism, working-class masculinity, the changing gender relationships of the colonial order, and the nationalist movements which overthrew that order. Today, the same inherited notions obstruct democracy, inspire resistance to tyranny, and motivate the defence of dignity in the face of AIDS.
