Community Health Nursing Mary Jo Dummer Clark, 2003 Community Health Nursing Caring for Populations Fourth Edition Now more than ever - locally, nationally, globally - society is in need of community health services. The Fourth Edition of Community Health Nursing continues to emphasize the application of community health nursing as it relates to specific populations, settings, and community health problems. Using an easy-to-follow organizing framework, the text assists readers in applying nursing process and nursing interventions to the care of the individual, families, and population groups. Theoretically and scientifically sound, as well as practical and applicable, this resource is a thorough introduction to the specialty. Features: New ~ Cultural Considerations highlight cultural factors that influence health, health care delivery, and community health nursing practice. New ~ Ethical Awareness feature introduces readers to ethical dilemmas faced by community health nurses and assists them in applying principles of ethical decision making. New Chapter ~ Care of Clients in Official and Voluntary Agencies includes detailed discussion of parish nursing and its roles and functions as well as local health agencies and standards, functions and services of community/public health nursing. Assessment Tips detail key considerations in nursing assessment in specific populations, settings, and health problems. Comprehensive technology package that includes a Companion Website, corresponding student CD-ROM, and online course management systems in WebCT, Black Board and Course Compass platforms.

Community Health Nursing Marilyn B. Klainberg, 1998 The first title in a series, this text presents community health nursing as part of a health alliance, working collaboratively with members of the community and other health-care professionals to meet the health needs of patients.

Handbook of Public and Community Health Nursing Practice Marcia Stanhope, Ruth N. Knollmueller, 2001 This practical and portable guide on primary prevention offers current, comprehensive health promotion and disease prevention information for students and nurses in the community setting. Includes lists, charts, tables, and forms, and well as useful assessment tools to assess individuals, families, and the community, and teaching tools to assist the nurse in promoting the client's self-care.

Comprehensive Community Health Nursing Susan Clemen-Stone, Sandra L. McGuire, Diane Gerber Eigsti, 2002 New edition of a text providing a foundation for community health nursing practices, with emphasis on a preventive approach and a partnership with clients and other stakeholders in addressing community needs. Discussion includes historical and current perspectives; the family-centered approach; theoretical foundations for population-focused practice; care from infancy to the

well elderly; school health and occupational health nursing; long-term care needs; and management of professional commitments. An insert contains a complete, corrected index. Annotation copyrighted by Book News, Inc., Portland, OR

Community Health Nursing Karen Saucier Lundy, Sharyn Janes, 2009 Historically, community health nursing has responded to the changing health care needs of the community and continues to meet those needs in a variety of diverse roles and settings. Community Health Nursing: Caring for the Public's Health, Second Edition reflects this response and is representative of what communities signify in the United States--a unified society made up of many different populations and unique health perspectives. This text provides an emphasis on population-based nursing directed toward health promotion and primary prevention in the community. It is both community-based and community-focused, reflecting the current dynamics of the health care system. The Second Edition contains new chapters on disaster nursing and community collaborations during emergencies. The chapters covering Family health, ethics, mental health, and pediatric nursing have all been significantly revised and updated.

Geriooperative Nursing Care Raelene V. Shippee-Rice, Susan J. Fetzer, Jennifer V. Long, 2012 The authors of this book share decades of geriatric perioperative nursing care experience with readers in a thorough, systematic manner....[This book] would be an excellent addition to the library of any health care professional, especially a perioperative nurse, who provides care to older adults.--AORN Journal, the official publication of the Association of Perioperative Registered Nurses This is a solid, well thought out book. The text has a clarity and focus which enhances understanding of the topics presented. It is particularly notable for crisp reading and uncomplicated, meaningful illustrations. Kudos to the authors for presenting such a medically solid book without losing the art of nursing care or the vision of a well tended patient.--Nursing News This timely volume introduces geriooperative care, a new model of surgical care for the elderly designed to improve surgical outcomes and prevent complications through a focus on communication and relationship-centered care. It is the only book to specifically address the care of older adults undergoing surgery, providing practitioners with critical, practical, and theoretical information from the initial decision to have surgery through the first follow-up visit post-discharge. The text includes the anatomy and physiology of aging, preoperative care, intraoperative and post-anesthesia care, postoperative care, returning home, risk appraisal, education, prevention, early intervention, multidisciplinary team collaboration, and effective communication across all systems of care. Geriooperative Nursing Care is an essential resource for students and practitioners of surgical, critical/acute care, and geriatric nursing, along with clinical and case managers. The tools presented help to sustain and enhance quality nursing care for older adults considering surgery, undergoing surgery, and during post-surgery visits. Key Features Presents a comprehensive new geriooperative care model for older adults undergoing surgery Follows patient from primary to follow up care, including hospital care, ambulatory care, emergency and elective surgery, and perioperative care Applies primary, secondary, and tertiary care concepts to surgery Presents innovative focus

on case management, with new care guidelines Provides new applications in preoperative training, family coaching, and post-operative cognitive dysfunction prevention Describes how to make quality improvements in current surgical care practices Identifies and discusses major health problems of older adults through EBP Includes case studies with discussion questions
