Traders, Guns & Money Satyajit Das, 2006 Liar's Poker with more lies and more insight, Traders, Guns & Money is a sensational insider's view of the business of trading and marketing derivatives for a living. It reveals the nature of the business, the players and how the real money is made and lost. An accessible companion, a wise counsel and a great read. A sensational and controversial first-person account of the business of derivatives trading and the financial products industry. Offers a true insider's view. Funny and poignant, written in a wry and wickedly comic style. Reveals how shareholders, clients, regulators, and the tax paying ordinary public bear most of the risk in the trading rooms. Reveals the story of how one set of clients discovered the perils of unknowns in a derivatives deal. Traders, Guns & Money cleverly weaves together: the dazzling world of derivatives and how to work out what you know, don't know and need to know; an insider's, expert witness account of the rise and rules of the world of derivatives and the astonishing story of how one set of clients discovered the perils of unknowns in a derivatives deal. Benchmark: Liar's Poker 0340767006. Das now offers more lies and is set in today's derivatives market, and Traders Gun's and Money is written not by a journalist but by a world-famous insider.

Traders, Guns and Money Satyajit Das, 2011

Traders, Guns and Money Satyajit Das, 2020-07-17 Traders Guns and Money is a wickedly comic exposé of the culture, games and pure deceptions played out every day in trading rooms around the world. And played out with other people's money. A sensational insider's view of the business of trading and marketing derivatives, this revised edition explains the frighteningly central role that derivatives and financial products played in the global financial crisis. This worldwide bestseller reveals the truth about derivatives: those financial tools memorably described by Warren Buffett as 'financial weapons of mass destruction'. Traders, Guns and Money will introduce you to the players and the practices and reveals how the real money is made and lost. The global financial crisis took almost everyone by surprise and even now new problems keep appearing and solutions continue to be elusive. In the original version of Traders, Guns and Money, Satyajit Das provided a highly prescient insight into the structure and risk of the world financial system exposing the problems that are becoming readily apparent. In a 2006 speech - The Coming Credit Crash - Das argued that: an informed analysis ... shows that risk is not better spread but more leveraged and (arguably) more concentrated.... This does not improve the overall stability and security of the financial system but exposes it to increased risk of a crash.

Traders, Guns, and Money Anandasivam Gopal,2017 We investigate how mass shootings influence the stock price of firearms manufacturers. While it is well known that mass shootings lead to increased firearms sales, the response from financial markets is unclear. On one hand, given the observed short-term increase in demand, firearm stock prices may rise due to the unexpected financial windfall for the firm. On the other, mass shootings may result in calls for regulation of the industry, leading to divestment of firearms stocks in spite of short-term demand. We examine this tension using a market movement event study in the wake of 93 mass shootings in the U.S. between 2009 and 2013. Findings show that stock prices of firearm manufacturers decline after shootings; each event reducing prices between 22.4 and 49.5 basis points, per day. These losses are exacerbated by the presence of a handgun and the number of victims killed, but not affected by the presence of children or location of the event. Finally, we find that these effects are most prevalent in the period 2009-2010 but disappear in later events, indicating that markets appear to have accepted mass shootings as the “new normal.”
