Valoración por la administración pública de la incapacidad permanente derivada de enfermedad común María Rosario Zaballo Sánchez, María Dolores Calvo Sánchez, 2007

El incapacidad permanente y sus efectos en el contrato de trabajo Ramón González de la Aleja, 2006 1. Introducción 2. La incapacidad permanente en su modalidad contributiva 3. Elementos económicos caracterizadores de la Incapacidad Permanente 4. El procedimiento de declaración de Incapacidad Permanente 5. La situación del contrato de trabajo durante la tramitación del procedimiento 6. Circunstancias que podrían condicionar la declaración de Incapacidad Permanente contributiva 7. El problema del trabajador incapacitado sin derecho a prestaciones 8. La prestación por Incapacidad Permanente para los trabajadores mayores de 65 años 9. La extinción del contrato de trabajo por Incapacidad Permanente del trabajador 10. Una excepción a la regla general de la extinción contractual por Incapacidad Permanente (no parcial) del trabajador: la reconversión o reubicación convencional de los discapacitados 11. La suspensión del contrato de trabajo: la excepción a la regla general de la extinción del contrato de trabajo en supuestos de Incapacidad Permanente 12. Revisión por mejoría.

Incapacidad permanente, 2005

La incapacidad permanente absoluta derivada de accidente de trabajo ,2014 La situación de incapacidad permanente absoluta que sufre un trabajador como consecuencia de sufrir un accidente de Trabajo, es una contingencia protegida por el Sistema de Seguridad Social en España, y se materializa mediante la concesión de prestaciones públicas mientras dure la situación de incapacidad laboral del sujeto. Para su reconocimiento es preciso, por una parte que la incapacidad haya sido declarada y por otra, que las lesiones sufridas le impidan prestar servicios por cuenta ajena con normalidad. Las dolencias padecidas tienen carácter de ser previsiblemente definitivas sin perjuicio de ser susceptibles de revisión, ya sea por mejoría o agravación de las mismas, o bien por error de diagnóstico. El resultado de los procedimientos de revisión en consecuencia puede dar lugar a una mejoría de la prestación anteriormente percibida, cuando se produce agravación de las dolencias, o por el contrario a una reducción o incluso supresión de la misma, por parte de la Entidad Gestora, cuando hay notable mejoría. El procedimiento de revisión de los grados de incapacidad tiene como finalidad evitar situaciones de protección favorecedoras o desfavorecedoras para el interesado, el cual se haya percibiendo una prestación por incapacidad que no le corresponde por no pertenecer al grado declarado. El proceso para la calificación de la incapacidad permanente absoluta derivada de accidente de trabajo y la determinación del grado de la misma, es competencia del Instituto Nacional de Seguridad Social, que deberá dictar resolución en orden al reconocimiento o no del derecho a las prestaciones económicas por invalidez permanente. Es importante analizar la compatibilidad del trabajo con la percepción de la prestación por incapacidad permanente. Este tema resulta especialmente complejo, litigioso y conflictivo no hay unanimidad de pareceres en la doctrina y la jurisprudencia, pues aunque un sujeto haya sufrido un accidente de trabajo y presente una reducción de la capacidad laboral que le afecte para cualquier oficio o profesión, siempre hay algún trabajo que se puede realizar y para el cual tiene capacidad o competencias. Por lo tanto, si una persona se encuentra en situación de incapacidad permanente y se encuentra percibiendo una prestación, el Tribunal concede la posibilidad de compatibilizar ésta situación con trabajos marginales, esporádicos o de poca entidad.

La incapacidad permanente en el sistema legal de valoración de los daños corporales Mariano Medina Crespo,2008-01-22 Dentro del sistema legal de valoración de los daños personales (rectius, corporales) causados en accidente de circulación, la tabla IV, relativa a los factores de corrección de la indemnización básica por lesiones permanentes, contiene una regla que corresponde al concreto dañoso de la "incapacidad permanente". Es el tercero de los ocho factores de corrección aumentativa que, acogidos en dicha tabla, responden a la finalidad de completar, en su caso, la indemnización básica que, resultado del juego combinado de las tablas VI (Baremo médico de las lesiones permanentes y del perjuicio estético) y III (Baremo económico de las lesiones permanentes y del perjuicio estético), corresponde al primer nivel (elemental o general) de la individualización perjudicial. Es un factor establecido para ponderar, en su caso, la circunstancia específica del impedimento personal de la actividad de cada lesionado y, por tanto, subjetivizando (personalizando), en un segundo nivel o momento lógico, un daño corporal irreversible que previamente ha sido objetivado y valorado ya de acuerdo con un canon estrictamente igualitario, sin más parámetros de ponderación que los constituidos por la extensión del perjuicio fisiológico (puntuación final) y su presumida duración (edad del lesionado)?
