One Opinion in 8 Billion Thom Gordon,2025-08-18 One Voice. One Vision. One Opinion in 8 Billion. In a world of noise, division, and endless opinion, One Opinion in 8 Billion: An Individual Perspective cuts through with clarity, curiosity, and courage. This is not just another non-fiction book — it is a bold, unapologetic exploration of life's most pressing, provocative, and perplexing questions. Across sixteen chapters, author Thomas Gordon tackles 335 controversial questions spanning politics, religion, media, science, identity, war, and beyond. Each is presented without filters or agenda — challenging you to think, reflect, and decide for yourself. But that's just the beginning. The book also delves into 34 of the most talked-about conspiracy theories — not to preach belief, but to investigate, analyse, and weigh the evidence. From ancient mysteries like the Pyramids and the Anunnaki, to modern controversies surrounding global events, you'll find balanced examinations paired with the author's personal conclusions. For readers drawn to the frontiers of science, Gordon presents five original physics hypotheses — thought experiments designed to question the limits of our current understanding and bridge the gap between general relativity and quantum mechanics. These sections challenge the status quo of scientific thinking while remaining grounded in logical reasoning. The book closes with something rare: a call to action. You'll find a published open letter to every world leader and a five-year Global Unity Business Plan — a vision for practical steps towards international cooperation, environmental sustainability, and peace. Whether you agree, disagree, or find yourself somewhere in between, One Opinion in 8 Billion refuses to leave you indifferent. It's for the reader who: Wants to explore complex issues from multiple angles. Values independent thinking over echo chambers. Believes curiosity is more powerful than certainty.

Welcomes the discomfort of having their assumptions challenged. Inside you'll explore: Provocative questions on society, morality, and the future of humanity. The facts, theories, and debates behind enduring conspiracies. Ground-breaking ideas in physics and cosmology. A vision for a united, cooperative, and compassionate world. This is not a book that tells you what to think. It is a book that dares you to think for yourself. Whether you read it cover-to-cover or dip in at the topics that matter most to you, *One Opinion in 8 Billion* is a challenge, an invitation, and a conversation all in one. A minimum of 10% of all profits will be donated to charitable causes referenced in the book, meaning your purchase also supports real-world change. In a planet of eight billion perspectives, here is one — distilled, considered, and ready for you to examine. The question is: What's yours?

Curating Community Collections Mary Schreiber, Wendy K. Bartlett, 2024-01-25 Begins where diversity audits end, informing and supporting academic, school, and public librarians in the quest to embed diversity, equity, and inclusion in a meaningful and sustainable manner throughout collections, policies, and practices. A primary question for many librarians, directors, and board members is how to evaluate diversity in a collection on an ongoing basis. *Curating Community Collections* provides librarians with the tools they need to understand the results of diversity audits and to formulate a reasonable, achievable plan for increasing diversity, equity, and inclusion not only in the collection itself, but also in library collection policies and practices. Information on ways to make diversity, equity, and inclusion part of a library's everyday workflow will help ensure the sustainability of these principles. Mary Schreiber and Wendy Bartlett teach readers how to increase the number of diverse materials in their collections and make them more discoverable to library patrons through the implementation of a community collections program. Stories from librarians around the United States and Canada who are auditing and improving the diversity of their collections add broad, scalable perspectives for libraries of any size, budget, and mission. Action steps provided at the end of each section offer a practical road map for all types of libraries to curate a diverse, equitable, and inclusive community collection.

Opus Gareth Gore,2024-10-01 A thrilling exposé recounting how members of Opus Dei—a secretive, ultra-conservative Catholic sect—pushed its radical agenda within the Church and around the globe, using billions of dollars siphoned from one of the world’s largest banks. For over half a century, Banco Popular was one of the most profitable banks in the world—until one day, in 2017, when the Spanish bank suddenly collapsed overnight. When investigative journalist Gareth Gore was dispatched to report on the story, he expected to find yet another case of unbridled capitalist ambition gone wrong. Instead, he uncovered decades of deception that hid one of the most brazen cases of corporate pillaging in history, perpetrated by a group of men sworn to celibacy and self-flagellation who had secretly controlled Popular and abused their positions there to help spread Opus Dei to every corner of the world. Drawing on unparalleled access to bank records, insider accounts, and exclusive interviews with whistle-blowers from within Opus Dei, Gore reveals how money from the bank was used to lure unsuspecting recruits—some of them only children—into a life of servitude. He also tracks the ascent of Opus Dei within the United States, exposing its role in bankrolling many right-wing causes, including the Supreme Court’s overturning of *Roe v. Wade*. In an era of disinformation and deep fakes, here is a real-life conspiracy which hid in plain sight for more than sixty years. Gore tells a shocking story of money and power that spans decades and continents. Documenting Opus Dei’s secret history for the first time, this thrilling work of investigative storytelling raises important questions about the dark forces that shape our society.

Eritrea's Gold Rush Charlotte Touati,2025-10-02 Leading Horn of Africa expert Charlotte Touati exposes the role played by Canadian gold mining company Nevsun and other global actors in propping up the regime of Isayas Aferwerki, one of Africa's most dangerous dictators.? In so doing, Touati shows how global capital networkshelp perpetuate economic and political instability in the Horn of Africa, which in turn is fostering violence and volatility throughout other parts of the world. Using a narrative framework and a core cast of characters to help guide non-specialist readers through her findings, Touati explains the enormous significance of how Nevsun partnered with Aferwerki to open the Bisha gold mine and save his regime from bankruptcy. As Touati relates, when Eritrean refugees later claimed they were “conscripted” to work in the mines without pay and abused as part of their National Service, Nevsun hired lobbyists to defend Eritrea's actions and cast the very notion of human rights as a Western “Trojan horse.” Australian, Chinese, and Russian actors gradually became involved, and philological analysis shows that the propaganda and disinformation campaigns of the infamous Russian Wagner Group

ultimately stem from the rhetoric of Afewerki and his lobbyists. Ultimately, this violently anti-Western rhetoric was injected into a pan-Africanist discourse to become an ideological and rhetorical toolbox. It was used to prevent any intervention on behalf of Eritreans trapped in their own country or Tigrayans genocided in neighboring Ethiopia in the name of sovereignty, and also to legitimize new conflicts throughout the Sahel and the rest of Africa's notorious "Coups Belt." It takes on even wider global dimensions when we consider the ongoing crisis around the Red Sea ports, which Eritrea controls, and the question of the influence of the Gulf States in the Horn of Africa.
