David W. Russell

The Perfect Score Project Debbie Stier, 2014-02-25 The Perfect Score Project is an indispensable guide to acing the SAT – as well as the affecting story of a single mom’s quest to light a fire under her teenage son. It all began as an attempt by Debbie Stier to help her high-school age son, Ethan, who would shortly be studying for the SAT. Aware that Ethan was a typical teenager (i.e., completely uninterested in any test) and that a mind-boggling menu of test-prep options existed, she decided – on his behalf -- to sample as many as she could to create the perfect SAT test-prep recipe. Debbie’s quest turned out to be an exercise in both hilarity and heartbreak as she took the SAT seven times in one year and in-between “went to school” on standardized testing. Here, she reveals why the SAT has become so important, the cottage industries it has spawned, what really works in preparing for the test and what is a waste of time. Both a toolbox of fresh tips and an amusing snapshot of parental love and wisdom colliding with teenage apathy, The Perfect Score Project rivets. In the book Debbie does it all: wrestles with Kaplan and Princeton Review, enrolls in Kumon, navigates khanacademy.org, meets regularly with a premier grammar coach, takes a battery of intelligence tests, and even cadges free lessons from the world’s most prestigious (and expensive) test prep company. Along the way she answers the questions that plague every test-prep rookie, including: “When do I start?” ... “Do the brand-name test prep services really deliver?” ... “Which should I go with: a tutor, an SAT class, or self study?” ... “Does test location really matter?” ... “How do I find the right tutor?” ... “How do SAT scores affect merit aid?” ... and “What’s the one thing I need to know?” The Perfect Score Project’s combination of charm, authority, and unexpected poignancy makes it one of the most compulsively readable guides to SAT test prep ever – and a book that will make you think hard about what really matters.

Every Child an Achiever David W. Russell, 2002

CURRICULUM-BASED ASSESSMENT Charles H. Hargis, 2013-03-01 Thoroughly updated and expanded, this fourth edition focuses on the use of curriculum-based assessment to ensure learning disabled and low-achieving students adequate educational opportunities. The text explores ways of providing detail and explanation in the context of current and emerging issues in educational assessment and standards. The point that educational success is more than just avoiding failure is emphasized, and throughout the book, precise definitions and examples of various instructional situations are presented. Shifting emphasis from identifying deficit areas to finding and inventorying skills and abilities, CBA requires an intimate

relationship between teaching and testing. To help the instructor achieve this balance, the author offers examples and methods of implementation through reading and arithmetic activities and discusses at length the issues involved in test validity and grading. The primary objective of curriculum-based assessment is the success of students, and much of the book is devoted to its two primary steps: finding the level on the curriculum where the student can succeed and then incorporating assessment practices in the daily teaching activities so that success is an ongoing affair. To further update this edition, two additional new chapters have been added: "The Paradox of Setting Standards by Grade Level" and "Assessing Writing." The book's simple format, readability, and detailed descriptions of instructional methodology make it a significant resource. Designed to assist instructors, curriculum persons, special educators, and administrators, the book will also be helpful to researchers, counselors, social workers, and other professionals in human service organizations.

K-12 Education: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2013-09-30 Primary and Secondary education is a formative time for young students. Lessons learned before the rigors of higher education help to inform learners' future successes, and the increasing prevalence of learning tools and technologies can both help and hinder students in their endeavors. *K-12 Education: Concepts, Methodologies, Tools, and Applications* investigates the latest advances in online and mobile learning, as well as pedagogies and ontologies influenced by current developments in information and communication technologies, enabling teachers, students, and administrators to make the most of their educational experience. This multivolume work presents all stakeholders in K-12 education with the tools necessary to facilitate the next generation of student-teacher interaction.

Teaching and Learning in Japan Thomas P. Rohlen, Gerald K. LeTendre, 1998 Includes bibliographical references and index.

Teaching Low Achieving and Disadvantaged Students Charles H. Hargis, 2006 This new edition updates and expands the previous volume and continues to reflect the concepts and the reasons behind learning and behavior problems of low achieving and disadvantaged students. Through the chapters, the author describes instructional levels and independent levels, emphasizing that success is produced by finding the place on the curriculum for each student at these levels. Details and reactions in light of events and experiences of the intervening years is examined, outlining assessment procedures to separate real disabilities from school-created ones, and then describing the educational treatment of each. Other topics include the grading system, student-centered curriculum, an alternate perspective on testing, and a changed role for the teacher. Instructional delivery systems centered on curriculum-based assessment and cooperative, noncompetitive learning methods are also proposed. Designed for classroom teachers as well as administrators, the text is the result from the author's role in working with children who are casualties of the educational system as well as his progress in helping to develop a successful alternative public high school.

From Thomas to Train Conductor Suzanne Jacobsen,2013-07 In 2010 Kirin Jacobsen walks across the auditorium stage to receive his Bachelor's Degree. For his parents, Suzanne and John Jacobsen, this moment is more than a milestone - it is a celebration of Kirin's courage to overcome enormous obstacles. Follow the Jacobsen family as Kirin grows from a boy who passionately loves Thomas the Tank Engine into a wise and wonderful young man who becomes a train conductor. The Jacobsen family faces many challenges with medical professionals and educators, demonstrating the extent of the advocacy required to support Kirin into adulthood. Individuals with developmental differences and their families are constantly faced with ignorance, complacency, disrespect and misunderstanding. The Jacobsens' story is shared to encourage parents to advocate for their loved ones, and inspire changes that will make a difference in the lives of these individuals.

Within Our Reach John E. Chubb,2005 Within Our Reach presents a mid-term assessment of the Bush Administration's No Child Left Behind Act. Seeking to protect this historic legislation from its enemies while fixing its shortcomings, the members of the Hoover Institution's Koret Task Force on K-12 Education offer recommendations for changes in NCLB aimed at ensuring that its ambitious goals for America's children and schools can be reached.
