Kompendium der Soziologie I: Grundbegriffe Heinz-Günter Vester, 2008-10-28 Das Kompendium der Soziologie besteht aus drei Bänden: Im ersten Band werden die Grundbegriffe der Soziologie dargestellt. Der zweite Band behandelt die Klassiker der Soziologie, von Auguste Comte bis Talcott Parsons. Der dritte Band präsentiert die wichtigsten soziologischen Theorieansätze der letzten 50 Jahre, von Erving Goffman bis in die Gegenwart. Dieses Lehrbuch bietet eine kompakte, systematische und verständliche Einführung in die Soziologie. Auf diese Weise gelingt ein hervorragender Einstieg in das Fach und wird ein fundierter, umfassender Überblick ermöglicht.

*What Does it Mean to Be Human? Was heißt es, Mensch zu sein?* Brigitte Buchhammer, Bettina Zehetner, 2024 This celebratory publication is an expression of deepest gratitude to Herta Nagl-Docekal. With this volume, colleagues, graduates and friends want to celebrate her philosophical oeuvre. Her entire life's work has been characterized by both humanitarian and humanist commitment: to seek the principles of justice in the co-existence of human beings, but that philosophy also provides the basic yardstick, to highlight distortions on recent theories. Her philosophical work is alive with the commitment to a philosophy which is compelled to seek the principles of greater justice and solidarity

Gouws,Anja Lobenstein-Reichmann,Stefan J. Schierholz,2025-12-14 The contributions build a bridge between traditional European lexicography and the diversity of lexicographic practice in Australia, demonstrating the importance of lexicography in the digital age. Special focus is placed on the socially relevant functions of specific types of dictionaries: social-linguistic self-assurance and identity formation in specialized fields, slang, dialects, as well as in living and endangered languages.

**Person and Good** Janez Juhant,Bojan Žalec,2006 From the old times on, doubtless ethics presents an important part of philosophy, mainly as guidance for solving practical problems. In the times of big social changes the ethical questions arise anew. The current times of scientific and technological radical changes, of globalization and instability, demand up-to-date ethical discussion and answers. According to all the differences in the world, which occur because of the media and technological capabilities present in the consciousness of ordinary people, one should ask himself how to find the directions of the action and activity of an individual, of people, of humanity. And as a result of the rapid development of scientific and technological power, the things are becoming more and more complicated and potentially dangerous. What was in the past solved only by God and by the nature itself, it is today also essentially influenced by humans themselves. Hence, the ethics and morality are far more important as they used to be and they concern the survival of humanity as such. However, the authors in this book have been trying to face these problems.
