

Own Your Own Shadow

Ralph Waldo Emerson

Owning Your Own Shadow Robert A. Johnson, 1993-03-05 A bestselling author shows how we can reclaim and make peace with the shadow side of our personality.

Integral Spirituality Ken Wilber, 2007-11-13 This cutting-edge theory of spirituality for today's global society honors the truths of modern science and postmodern culture while incorporating the wisdom of the great world religions. Applying his highly acclaimed integral approach, Ken Wilber formulates a theory of spirituality that honors the truths of modernity and postmodernity—including the revolutions in science and culture—while incorporating the essential insights of the great religions. He shows how spirituality today combines the enlightenment of the East, which excels at cultivating higher states of consciousness, with the enlightenment of the West, which offers developmental and psychodynamic psychology. Each contributes key components to a more integral spirituality. On the basis of this integral framework, a radically new role for the world's religions is proposed. Because these religions have such a tremendous influence on the worldview of the majority of the earth's population, they are in a privileged position to address some of the biggest conflicts we face. By adopting a more integral view, the great religions can act as facilitators of human development: from magic to mythic to rational to pluralistic to integral—and to a global society that honors and includes all the stations of life along the way.

ISHA Kaustav Sanyal, 2020-09-25 No, we are not okay. It is not going to be alright. Let's face the reality. But first, we need to learn to face it properly. But how? Who will guide us through the darkness we are facing? How can we acquire strength to withstand the rejections, failures and the existential crisis we are facing every moment? Let's turn our ways to Vedanta now. This book is our journey. It's your journey. It's my journey. The journey will have ups and downs, mysteries and much more. Let the journey to Vedanta begin.

The Authoritarian Interlude Peter Marden, 2016-03-09 What do we value as a political virtue? What are the core values of democracy in the modern era? What is a democratic culture and can it coexist with a predatory capitalist corporatism? Is democracy just about human rights? What is the nature of public dissent? These are some of the questions posed in this book as Peter Marden extends debates on democracy by critically examining the key role of values often associated with neo-liberalism and the traditions of thought concerning public conceptions of democratic life. Within the volume various normative arguments from prominent political theorists are addressed, particularly those associated with deliberative

approaches to the study of contemporary democracy. Marden is motivated by an interest in the language and spirit of democracy as a values-based culture not solely driven by technocratic devices but a genuine reframing of the values necessary to underpin any peculiar democratic practice. Throughout the book examples are taken from the Australian, United Kingdom, and United States democratic experience post-9/11 to explore the dimensions of democratic culture, the nuanced tensions between the individual as an autonomous reflective subject and conceptions of the common good.

Looking for Gold Susan Tiberghien, "Looking for Gold is a laboratory for artists, dreamers, and all who seek for ways to realize their true gold." - Robert Bosnak, author of *The Little Course in Dreams* "Tiberghien is a writer ... Looking for Gold tells a gripping tale that will inspire anyone who hears soul's subtle invitation and sets out." - Kathleen Packard, *Contemporary Contributions to Jungian Psychology* "Looking for Gold is a clear, important message for men and women of all ages and all cultures - look into and to thyself for a sense of wholeness." - Annette Lyons, Director, Counseling Center, American Cathedral, Paris "In her insightful Looking for Gold, Tiberghien writes several books in one: an autobiography, an exploration of the writing process and an account of being a lay student of C.G. Jung's work." -Elliott Bay Book Company, Seattle

Summary of Robert A. Johnson's *Owning Your Own Shadow* Everest Media, 2022-06-21T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The civilizing process, which is the brightest achievement of humankind, consists of culling out those characteristics that are dangerous to the smooth functioning of our ideals. We all are born whole, but somewhere early on, we eat one of the fruits of the tree of knowledge and begin the shadow-making process. #2 The process of becoming an adult is to develop a clearly defined ego and shadow, a system of right and wrong, and a teeter-totter with two sides. The religious process consists of restoring the wholeness of the personality. #3 We must make a shadow, or there would be no culture. We must then restore the wholeness of the personality that was lost in the cultural ideals, or we will live in a state of dividedness that becomes more and more painful throughout our evolution. #4 The seesaw is a law that all our characteristics must be somewhere in this inventory. Nothing may be left out. The seesaw must be balanced if we are to remain in equilibrium. If we indulge characteristics on the right side, they must be balanced by an equal weight on the left side.

Dreams and Spirituality Kate Adams,Bart Koet,Barbara Koning,2015-03-30 This handbook provides a comprehensive overview of the nature of dreams as understood from a range of diverse perspectives, and their relevance for pastoral care. Its approach is both systematic and practical, enabling ministers, spiritual directors and counsellors to understand the nature of dreams and the role they play in the lives of those in their pastoral care. Dreams are a universal phenomenon and have a long established role in religious faith and practice. Yet many pastors feel ill-equipped to deal with this area of human consciousness. In this guide, twenty-two contributors from a wide variety of disciplines explore the potential of dreams to bring about renewal, healing, reconciliation and encounter with the transcendent. • Part 1 examines dreams from theological, psychological and cultural anthropological perspectives. • Part 2 explores the theme of dreams and religion through empirical data, theory and reflections. • Part 3 considers dreams and the practice of pastoral care for a variety of settings and groups.
