The first book to deal with the problems of communicating to a skeptical, over-communicated public, *Positioning* describes a revolutionary approach to creating a position in a prospective customer's mind that reflects a company's own strengths and weaknesses as well as those of its competitors. Writing in their trademark witty, fast-paced style, Ries and Trout explain how to position an industry leader so that it gets into people's minds and stays there, how to position a follower so that it can occupy a space not claimed by the leader, and how to avoid letting a second product ride on the coattails of an established one.
