Dr. Seuss Philip Nel, 2005-01-01 Philip Nel takes a fascinating look into the key aspects of Seuss's career - his poetry, politics, art, marketing, and place in the popular imagination. Nel argues convincingly that Dr. Seuss is one of the most influential poets in America. His nonsense verse, like that of Lewis Carroll and Edward Lear, has changed language itself, giving us new words like nerd. And Seuss's famously loopy artistic style - what Nel terms an energetic cartoon surrealism - has been equally important, inspiring artists like filmmaker Tim Burton and illustrator Lane Smith. --from back cover

Quotes to Inspire Elsinore Books, 2020-04-13 With a carefully chosen quote for each day of the year, this book will be a constant source of inspiration, accompanying you through the depths of winter to starry summer nights, and on again to Christmas and the New Year. You'll encounter lines from novels, short stories, essays, journals, and poems, as well as zen-like meditations, and classic aphorisms. The quotes come from more than a hundred different authors—including many of the world's great literary figures. There are quotes to inspire courage: "The thing is—fear can't hurt you any more than a dream" (William Golding); ignite creativity: "The Possible's slow fuse is lit/ By the Imagination!" (Emily Dickinson); and enjoin us to action and goodness: "Do not act as if you were going to live ten thousand years. Death hangs over you. While you live, while it is in your power, be good" (Marcus Aurelius). You'll meet more playful inspiration in quotes from Douglas Adams and Dr. Seuss. And we've also found room for the kind of mystical reflections that poets such as Wallace Stevens so excelled in composing. In these quotes you'll find a wealth of wisdom distilled into a few choice words. But of course, it is not always the full picture—while the main aim of this collection is to offer day-by-day inspiration, we hope it will also be a springboard for discovering new writers. When you are inspired by a writer's words, we encourage you to seek out the original work, and

rediscover the quote in its natural environment. We have rigorously tracked down the source of each quote and attributed it accordingly. This book was designed to be as easily navigable as possible on your e-reader. To begin, you need only turn to the Contents page and follow the link to the current month. We wish you an inspirational voyage of discovery.

Soul Mate Biology Gregor Majdic, 2021-02-26 Love, one of the most profound of human emotions, love that accompanies us from puberty to old age, love that follows us from ancient times to modern, from ancient writings, through the Bible and the texts of medieval scribes to modern day books and movies. Through the millennia love has lost none of its secrecy, charm, attractiveness, craziness, even in this digital age, when we are overwhelmed by information. But what is love? Where does this emotion originate? Are we humans the only living beings feeling this emotion? Can love be explained by some chemical reactions in our brains? Is love just a trick of nature or is love some kind of higher feeling? We do not have definite answers to any of these questions, nevertheless, neuroscience, behavioral science and others have provided us with some, at least partial answers. We know today a great deal more than ever before about what is happening in the brain when we are madly in love. We understand why our hearts beat faster when we see the person we love, we know why we sweat and why we feel anxious when the loved one is away from us, and we have some ideas about how feelings of attachment form in the brain. This book guides you through the complicated labyrinth of genes, molecules and brain cells that are involved in the feelings of love, attachment, affection, and also simple sexual reproduction.

Take a Shot at Happiness Maria Baltazzi, PhD, MFA, 2023-10-10 On a steamy jungle island in the middle of the South China Sea, a new television show is about to come to its shocking conclusion. A small television stage lit by tiki torches illuminates a show host, a jury of seven contestants sitting on tree stumps, and the final two runners-up for a million dollars. It was season one of CBS's competition show, Survivor, a show that will become one of the longest-running unscripted series—and one of the most beloved. Maria Baltazzi was one of the original supervising producers. Survivor strips its contestants of everything but their wits while they battle it out to see who will be the winner of a life-changing prize. In watching this, Maria realized that the contestants learned things about themselves that they might never have known before. During the production of this show, Maria realized that she could not be her true self until she stripped back the negativity that was clouding her life and made more self-affirming actions that would lead her to what she truly wanted. This book is Maria's insights about being happy learned from her time in the entertainment industry, observing people and events, traveling, and studying wellbeing. Within these pages is a practical guide for a creative path to happiness through taking photographs with your camera phone, journaling about things that matter, and being part of a supportive community. You can create a healthier state of being and have fun doing it. Even when your world turns upside down, you can still be the writer, director, and producer of the life you want.

Transform Tomorrow Stig Nybo, 2013-01-17 A campaign to prepare Americans for their futures Transform Tomorrow investigates why so many Americans are at risk of out-living their savings. Author Stig Nybo draws inspiration from successful behavior change campaigns to identify the drivers of change—context and beliefs—and how they can be successfully employed to boost retirement savings rates. While the retirement savings industry increasingly embraces the

contextual drivers of behavior, very little is being done to shape our beliefs to start saving smarter and sooner. Nybo suggests a retirement readiness campaign to inspire and enlist the support of individuals, employers, industry, government, and the media. Explains how society can transition from treating 401(k) as a voluntary benefit to the basis upon which each individual who wants to or needs to can retire comfortably. Details a national, coordinated retirement readiness campaign, along the lines of successful Public Service Advertisements—like The Crying Indian and Rosie the Riveter—that will help change behavior and re-shape the culture of our nation Makes a call to action for such a campaign Retirement in America is endangered, but Transform Tomorrow shows a path back from the brink.
